Department of Housing and - Lien Release
   Community Development

**ACTION REQUESTED OF B/E:**

The Board is requested to approve the Lien Release on the property located at 1602 Gorsuch Avenue.

**AMOUNT OF MONEY AND SOURCE:**

$21,018.80 - lien release

**BACKGROUND/EXPLANATION:**

This is a request for release of liens pursuant to the Annotated Code of Maryland, Tax Property 14-806, which gives the Board the authority to release liens against real property under certain circumstances. In this case, the property in question complies with all requirements of the lien release law.

The property is a vacant building and the liens of $23,018.80 exceed its appraised value of $2,000.00. The buyer/developer, Gorsuch Group, LLC/Lydia Conway, Authorized Member, will rehab the building as a single-family rental unit at market rate. The property will be returned to productive use within a reasonable time, thus eliminating blighting conditions and returning it to the tax rolls of Baltimore City. The release of liens on the property will make it financially feasible for redevelopment and prevent tax abandonment.

At the settlement, the transferee will pay the City the amount of $2,000.00 (the appraised value), which is higher than the combination of the flat tax and water charges of $1,517.37. The amount paid will be applied to satisfy the water bill, real estate taxes and flat tax first, then any other liens, including a purchase money mortgage that have accrued prior to the date of this Lien Release.
Department of Housing and – cont’d  Community Development

Any additional property tax assessments, water charges, and liens that accrue from the date of this Lien Release will be the responsibility of the transferee to pay prior to settlement.

Failure to record the deed and pay the purchase price listed in the Agreement of Sale in the amount of $2,000.00 within 120 days from the date of approval by the Board will void this Lien Release.

UPON MOTION duly made and seconded, the Board approved the Lien Release on the property located at 1602 Gorsuch Avenue.

2. What the issues are:
      i. Fails to provide youth workforce development opportunities for Squeegee Kids, YouthWorks participants, disengaged youth and/or returning citizens;
      ii. Fails to acknowledge and facilitate taxpayer funded, low-skill level jobs that can and should be targeted to employ persistently and chronically unemployed and underemployed city residents, when feasible;
      iii. Fails to allow BMore Clean and Green Team the opportunity to submit a bid.

3. How the protestant will be harmed by the proposed Board of Estimates’ action: The expenditures approved by this board if strategically organized, could lead the City in transforming our workforce. Specifically, by reducing the taxpayer burden of unemployed and underemployed residents, which are at their highest levels in decades. Retarding these burdens could be of significant savings to taxpayers like myself.

4. The remedy I seek and respectfully request is that this action be delayed until:
   a. The contract is NOT awarded and the work is set aside for Youth Workforce Development that continues to fund a pilot workforce development program that funds low-skilled youth (ages 18 to 24) to perform select functions outlined in this procurement;
   b. The Mayor and City Council immediately enact legislation to establish a pilot workforce development program for low-skilled city residents that provides training, equipment, uniforms and salaries for Mowing, Maintenance and Landscaping of City-owned properties.

I look forward to the opportunity to address this matter in person at your upcoming meeting of the Board of Estimates on January 8, 2019.

Item 12, Contract No. 06000, Invasive Plant Removal for Druid Lake and Ashburton Reservoirs. Will the parties please come forward. Good morning.”

Ms. Erin Sher-Smyth: “Good morning. Erin Sher-Smyth, City Purchasing Agent for the Department of Finance. Ah -- I’m asking that the Board reject ah -- this protest and award to Lorenz as requested. However, this is a rather difficult and complicated job. It’s a one-time clean out of invasive species of ah -- two of our -- our drinking water reservoirs. And DPW can speak more to the technical details. But

President: “Thank you. Ms. Trueheart.”

Ms. Trueheart.: “Good morning. My name is Kim Trueheart. I love this City. Born and raised here almost 63 years ago. Um -- as you know in October, I started a pilot program called the BMore Clean and Green Pilot. Thankfully it was funded by the Mayor of Baltimore City. It allowed me to take ten young men off the corners who were squeegeeing, to enroll them in a five-week program where we taught them to mow, cut, and clean City property. They received OSHA

Safety certification to ensure that they were operating within the safety confines -- confines of the Federal Regulation. They additionally got certified. The program also, provided them with CPR, First Aid, and AED Training, and they got certified. Safety is a definite, important aspect of this work. I am sort of offended when we are told that the work is complex. Um -- our young men can do complex work, if given the opportunity. There are training options that are available to them. One of the things that um -- I harken to throw out is, of my 30 years of Federal Government employment, I managed programs and one of things that was consistently coming up was the lack of credible vendors and sources for the services that the Government wanted. And we, in the Navy, developed a business development program, where in instances where there was only one or no sources for what the Government wanted, we cultivated new businesses. In particular, minority businesses

to engage the work that the Federal Government needed done. I don’t see Baltimore City doing that. There’s a strong need for that. A few years ago, I participated in as a citizen in the re-write of the Minority Business Law here in Baltimore. One of the elements that I insisted go in the re-write of that Law was when there was only one or limited sources available to provide the service the City needed, the small business office needed to engage. The small business office needed to help, develop new business sources to do this work. I don’t see us doing that. I am offended by this -- th -- th -- th -- this contract just going to one vendor who is not necessarily going to hire the young men who I am most passionate about right now. I have graduated from my Pilot Program eight young men. We started off with ten. Two of them I could not continue in the program because of their behavior. But I haven’t given up on them. They are still engaging with me. As of this moment, the eight young men who graduated, who have the OSHA

Safety Certification and their CPR certification are applying for low level entry jobs across this government. I have every expectation in the next couple of weeks, that we will be able to come back and tell you that they have full-time jobs right. I am begging them not go back on the corners. But I don’t have any more money in my program to pay them, right. But they are motivated. They need jobs. They need these kinds of opportunities, and I am begging you, you hear me, begging you at 63 years of age to allow me to help these young men get off the corners. The amazing thing is the background and rationale for this procurement says, because of the overwhelming citizen complaints about the overgrown conditions at both reservoirs; you feel this contract is needed. What about the overwhelming number of complaints about squeegee workers on the corners. When are you going to put money, money, sustainable money behind helping those young men find work. There are employers in this City, there’s a University --.”

I engage with an organization called the American Landscape Institute, to teach these young men about landscaping, right. There is a college curriculum set up for that -- that these young men are in some instances applying to. There are opportunities here that this procurement just misses completely. Ms. Letke: “My name is Kim Letke, I own a company Letke Security Contractors. His complaint of concern is tim -- is of essence to get this done as quickly as possible. Letke will donate $5,000.00 to Kim’s group to come out and ah - weed wack. I have a landscaping company I’m planting 314,000 trees. We do all the State full service contracts. We’ll donate $5,000.00 to pay Kim’s people to come out and weed wack. In addition, since he cannot find other people, that’s simply not acceptable to say that you cannot find minority young men to work. That’s simply unacceptable to hear from you or any other government agency. It’s just not right. So, at the end of the day, you need to sit down and work with me and Kim and we will donate the money to pay the employ -- the guys to work and we will give them the tools and facilities and a foreman to manage these eight guys that Kim has. President: “Thank you. I have a couple of questions and then both the Mayor and Comptroller have questions too. So ah -- for DPW -- ah because you guys do a lot these kind of contracts.”

Mr. Minott: “Yes.”

President: “Can you tell me how you guys are pro-actively because we talked about this over the summer time with you. How you’re proactively looking for opportunities in contracts to award organizations who are doing work like Ms. Trueheart is doing. So that we are making sure that young people in the City where the opportunities arise that they are benefiting and organizations who are hiring them are benefiting from the contracts instead of the contracts continuously going to the same individuals.”

Mr. Minott: “Um -- the Lorenz, Lorenz’s contract that we have used for I would say the last six years. They’ve been mowing and ah -- cutting all of our water facilities. Um - we just renewed a contract with them for another three years, because of the work we got from them. We did ask other vendors to ah - to submit a

bid on this particular job because it’s not in the scope of Lorenz’s current contract. Ah -- none of -- the vendors that I met with refused to give a quote.”

President: “I hear you. But that’s not the question that I’m asking. I’m asking how is DPW proactively seeking out when you’re putting out your contracts, seeking out organizations that are hiring young people, young men from Baltimore City. Young women from Baltimore City in their work. Right. When you -- when you were talking to Lorenz about this contract or any other contract or any other contractor that DPW is hiring for this kind of work, right. Landscaping work. Are you asking them how many people our young people from the City are you employing? Is there a way for you to hire young people to do this? Are these -- are these the kind of questions that you’re asking the organization when they come forward?”

Mr. Minott: “I don’t as a -- as a member of DPW I don’t ask those questions. Those are asked by Procurement. Those are -- and I’ve see that language in all of the contracts that we um -- put out. Um -- we in DPW don’t necessarily, we don’t solicit the business, we usually get recommendations from Procurement. But every contract that I’ve seen has that language written in it.”

President: “So for this one then, do you know how many Lorenz employs?”

Mr. Minott: “How many Lorenz employs.”

President: “Yeah. How many they employ. If it’s in the contract ah -- do you know?”

Mr. Minott: “No. I don’t -- I don’t know how many --.”

President: “Ms. Sher do you want to talk about that and how you guys are doing that?”

President: “That’s not the question. The question is, how you guys are acti -- proactively seeking out organizations. We talked about that this summer. The three of us talked about this summer, when we had another issue with Ms. Trueheart and some other folks about how we want you guys to proactively look out and look for organizations, businesses in Baltimore that are hiring young people.”

Ms. Sher: “So I think my answer will address that. So in this case, you know I looked at the scope and I didn’t think it was appropriate for -- for youth. And I still don’t feel that it’s appropriate. And I understand that they -- they -- ah -- the company may be able to hire one or two and train them, but the job is complex and what we did is, DPW had identified local contractors that could do landscaping, so that when we look at the abandoned lot programs, the cleaning and the mowing, that we are more proactively going for those landscapers that is in those neighborhoods and that’s the list that I pulled from to ah -- recommend to DPW that these are the landscapers in the neighbor-

**President:** “So I want I want to push back a little bit. So is there anything in Law that says you know in Baltimore. We say youth right up to 21 or 24 and some in some instances that precludes them from working on this project. For example ah -- when I was 14 years old as a HVAC apprentice, I worked on it on helping to put air conditioners in the new Lexington Terrance project, had to wear a hardhat every day. No one said that that work was to unsafe for me to do. Right. Because by Law I could be there. Is there anything by Law that says that young people can’t be on this, on

this project, or this job, or this kind of work?”

Comptroller: “Right I got -- I got an email from you that says, that this project will require equipment. What type of equipment that it require that Ms. Trueheart’s youth --.”

Ms. Sher: “There will be um -- excavating required to dig out the roots. These you know these invasive species have roots that need to be removed. It is not merely like weedwacking or lawn cutting, it requires chain saws, um and additional equipment, and I can actually let DPW answer that more of it. We can teach them a skill set to use a weed wacker to get to the root. They can get around the chain. The guy -- we can make a compromise here where you have Lorenz do a section of the heavy-duty work. You know in every construction site, you have different skill sets, and in the skill set that these guys can do, they can do the weed wacking and access to that stump, but they can’t you can’t just eliminate them and say they have nothing that they can do. It’s simply not acceptable. It’s they can weed whack they can help the excavator. The excavator can come in. Lorenz can do their section, but you’ve got to give these guys a skill set. And I have asked since I’ve been sitting in this seat and long before, I’ve been sitting in this seat that we look at our contracts and as many contracts as we can have young people, um -- -- participating on, that’s what we want. BACKGROUND/EXPLANATION:

Council Bill 04-0007, Senate Bill 846 and House Bill 831 established the Compensation Commission for Elected Officials and Appointed Commissioners and the Chairman of the Liquor Board. The Commission’s recommendation concerning the compensation of elected officials and the Liquor Board Chairman and Commissioners was
codified in Council Bill 07-0612, Senate Bill 846, and House Bill 831. These bills passed the Baltimore City Council in December 2007, and the Senate and House authorized pay increases for the Mayor, Comptroller, President City Council, Vice President City Council, Council Members, Appointed Liquor Board Commissioner, and the Chairman of the Liquor Board.

The terms of the legislation stipulate that elected officials are entitled to receive an annual salary increase equal to 2.5% of their respective salaries only if at least one of the following employee groups, i.e. AFSCME, CUB, FOP, IAFF, or MAPS receive an increase in compensation during the fiscal year that began the preceding July. AFSCME received 3%, MAPS received 2.5%, IAFF received 2% cost of living adjustments, effective July 1, 2019. The Senate Bill 846 and House Bill 831 stipulate adjustments to the above classes’ salaries based on cost of living increases available to the members of the City Council.

Therefore, the Honorable Board of Estimates is requested to NOTE that the adjustments of the above classes are in compliance with the law and are effective January 1, 2020.

Although not required by Council Bill 07-0612, the Department of Human Resources, in an effort to be fully transparent, has presented the salary increases to the Board of Estimates.
Baltimore City Police Department – Governmental/Charitable Solicitation Application

ACTION REQUESTED OF B/E:

The Board is requested to endorse a Governmental/Charitable Solicitation Application for submission to the Board of Ethics of Baltimore City to allow the Baltimore City Police Department and staff to solicit donations from local individuals, businesses, civic leaders, the foundation community and the general public to fund a Recognition and Appreciation Day for The Baltimore City Police Department Civilians, showing appreciation for their hard work and outstanding support throughout the year. The period is effective upon Board approval through November 6, 2020.

AMOUNT OF MONEY AND SOURCE:

No general funds are involved in this transaction.

BACKGROUND/EXPLANATION:

The Civilians Appreciation Day June 2020 effort will solicit donations from Baltimore businesses, civic leaders, the foundation community and the general population. A potential donor list will be comprised of individuals and corporate entities that contribute to the economic, social, and cultural vitality of Baltimore City. Most of the individual and corporate entities fitting that description are not controlled donors. However, those potential donors who are controlled donors with respect to the City Council or the Board of Estimates will not be targeted or singled out in any way and will be solicited, if at all, in the same manner as the other potential donors.

Civilian Appreciation Day is a way of honoring the hard work and dedication, and many contributions of the Baltimore City Police Department’s civilian staff. It is important to acknowledge their collective sacrifice and dedication to the mission of the Baltimore City Police Department ensuring the civilian staff remain just as

committed to the Department’s core values and maintaining consistent operations. The acknowledgement is to show recognition to the Baltimore City Police Department Civilians and appreciation for the hard work and outstanding support that they have been displaying throughout the year to the Baltimore Police Department Sworn members.

This recognition and appreciation will consist of awarding with certificates, awards, door prizes, food and entertainment, acknowledging a work environment in which people can feel good, important, and appreciated. Employees who are rewarded, are recognized and thanked for the services they provide, and the best customer care. When employees and their work are valued, their satisfaction and productivity rises, and they are motivated to maintain or improve their good work. Praise and recognition are essential to an outstanding workplace. People want to be respected and valued by others for their contribution, of their performance and the good they do for the company.

Donations will be used as door prizes, gift giveaways, to purchase food, and as additional gifts to the Baltimore City Police Department Civilians.

Baltimore City Code, Article 8, §6–26 prohibits solicitation or facilitating the solicitation of a gift. An exception was enacted in 2005 to permit certain solicitations that are for the benefit of an official governmental program or activity, or a City-endorsed charitable function or activity. Ethics regulation 96.26B sets out the standards for approval, which includes the requirement that the program, function, or activity to benefit from the proposed solicitation must be endorsed by the Board of Estimates or its designee.

General Obligation Bonds are borrowed funds that must be reviewed and approved by the Planning Commission, the Board of Finance, the Board of Estimates, the City Delegation to the Maryland General Assembly, the City Council, and the voters of Baltimore. This loan package will go to referendum in November 2020 and must be approved by a majority of the voters before funds can be appropriated and expended. This fund source is secured by the full faith and credit of the City and, therefore, comprises a portion of the City’s annual debt.

On November 14, 2019, the Planning Commission recommended approval of the 2020 Loan Authorization Program in the following allocations:

$ 12,000,000.00 - Affordable Housing
38,000,000.00 - Schools
38,000,000.00 - Community and Economic Development
72,000,000.00 - Public Infrastructure
$160,000,000.00 - Total authorization (over two years)

The Board of Finance recommended approval of the Loan Authorization on December 18, 2019.

President: “Ah -- Madam Comptroller.”

Comptroller: “Yes. I would just like to Mr. President like to address the um -- 2020 Loan Authorization Program on page 88 of the Agenda. The Loan Authorization includes $38,000,000.00 in general obligation bond for Baltimore City Public Schools Capital Improvement Program. Later this week our partners in the City’s Legislative Delegation who must approve the 2020 Loan Authorization Program will begin their discussions in Annapolis on how to fund the recommendation proposed by the Kirwan Commission on Innovation and Excellence in Education. Improving public education in Baltimore City is one of the most important issues for us as elected leaders this year or any year. Our children deserve modern, updated facilities where they can get a world-class education. The $38,000,000.00 we approved this morning is a tangible sign of the City’s commitment to our students. It will help pay for renovations and ex -- expansions at the Maree G. Farring Elementary School and Armistead Gardens Elementary School that will cease -- that will ease overcrowding and provide state-
of-the-art learning environments. It will also help fund air conditioning, fire safety, and healthy school facility projects around the City. As we continue to work with our partners at the state level to find ways to fund the Kirwan Commission recommendations, I strongly support the Loan Authorization and the investment it represents in our students and our future. I look forward to the City Delegation and the voters approving it later this year. Thank you.”
