Department of Audits - Audit Reports and Related Audit Digests

The Board is requested to NOTE receipt of the following Audit Reports and related Audit Digests.

President: "The first item on the non-routine agenda can be found on Page 16, item 1, Department of Audits Performance Audit Report, Department of Finance, Fiscal Year ending June 30, 2016 and 2015. Will the parties please come forward?"

Deputy City Auditor: "Good morning, Honorable Board members. My name is Audrey Askew, Deputy City Auditor. As stated, the first report will be the Department of Finance, the Biennial audits for performance. There are five Findings for the Department of Finance. I’ll briefly state the highlights of each Finding and the recommendation. The first Finding -- the first two Findings relate to Procurement, Percentage of Purchase Orders issued meeting benchmark timeframes. Finding number one in fiscal year 2015, the performance measure target for the percentage of purchase orders issued meeting the benchmark -- mark timeframes ah -- was changed in the FY 2016 budget book. In finding number two, the Bureau of Purchases was unable to generate the turnaround time
report to support the percentage of purchase orders issued, that met benchmark timeframes for 2015. We recommend uh -- performance measures and changes be approved by the Department of Finance and Bureau of Purchases develop purchase um -- procedures to um -- monitor the -- their records. Findings three and four, Accounts Payable, Percentage of Invoices paid in twe -- uh -- in 30 days. Finding number three, BAPS did not the -- meet its FY 16 and 15 performance measure targets for the percentage of invoices paid in 30 days. We recommend training to improve the tracking ah -- of these targets -- of these measures. Finding number four, the documentation to support the actual results of 2015 for the percentage of invoices paid in 30 days did not agree with the amount reported in the City’s budget book. In addition, for fiscal year 2016, the amount reported agreed to the amount reported in the budget book, but did not include the construction contracts. So for that Finding, we do recommend that the Department of Finance um -- maintain records to support the actual performance measure results. The Department of Finance did agree with the first -- concur with the first four Findings. Finding number five,
Operating Budget Management. Dollars saved from recommendations. The Bureau of Budget and Management Research was unable to report its fiscal years 2016 and 2015 targets of $3 million dollars for each year for the dollars saved from recommendations. Um then we recommend that support for actual results be used and not estimates and again um -- the Department of Finance did not agree with this Finding.”

Director of Finance: “Good morning Mayor Pugh, President Young members of the Board. I’m Henry Raymond, Director of Finance. Um -- as the Deputy Auditor has indicated, ah -- the Department of Finance uh -- concurs with the first four Findings. We have implemented the corrective action plan, ah -- which Department of Audits agreed with. So those four -- the first four are complete. The fifth Finding ah -- we have also implemented the corrective action plan. The issue is for the -- the -- ah -- disagreement, Finance did not like the language that was used for the Finding. In the Finding, the language that was used was ah -- stated as that we overstated and misled information related to the measure. I found that to be slightly inflammatory.
Which is the reason for the disagreement, because the Finance Department, under my leadership, would never intentionally do something to overstate or mislead. Now, we admitted that the language we used was in need of revision. So, with -- with that said, ah -- all five have been implemented. We appreciate the ah -- Audit work that the -- the Department of Audits performed, and we look forward to using the audit and the corrective action plans for continuous improvement of our processes within the Finance Department.”

President: “Okay. Um -- I had a question um -- on number three. Ah -- what were some of the causes of invoices not being paid in 30 days? What were some of the --”

Director of Finance: “Several factors ah -- including not receiving ah -- all of the appropriate documentation in a timely manner, whether it be from the vendors or from the agencies.”

President: “Okay.”
Director of Finance: “So, the corrective action plan um -- as the Deputy Auditor indicated is ah -- continued training of agency staff, continued training of vendors -- ah -- we did make upgrade to CityDynamics and we’ve created instructional videos that are on-line to assist agency staff in the correct processes.”

President: “Okay. Any more questions?”

Mayor: “Yeah, especially for the um -- I mean the agency should be in compliance. But the vendors, because sometimes they use MBE’s. So when they’re delayed, then the MBE’s are delayed and that becomes a real problem. So, we really need to make sure that we’ve got stringent um -- reform in that area.”

Director of Finance: “Yes Ma’am.”

Mayor: “Thank you.”

President: “Alright. The Audit has been NOTED.”

Health Department – cont’d

BACKGROUND/EXPLANATION:

The Adolescent & Reproductive Health program runs several successful community outreach programs through its Health Education and Outreach components. The Abstinence, Personal Responsibility and Education and Teen Pregnancy Prevention Programs are charged with decreasing the teen birth rate among teenagers in Baltimore City.

All programs are responsible for recruiting clients for the clinic and implementing two community-based programs. An estimated 1,000 adolescents and adults are expected to benefit from the clinic activities and incentives. Sam’s Club/Walmart cards, Target cards and Shopper’s cards will be provided to program participants based upon attendance.

The Health Department adopted a consolidated policy for the purchase, distribution, and documentation of all incentive cards. The central tenants of this policy account for: 1) a single means of procuring all incentive cards through the Board of Estimates, 2) the documentation of each incentive card and its recipient, 3) a monthly reconciliation for all purchases that account for all distributed and non-distributed cards, and 4) periodic internal reviews of programs’ activity vis-à-vis the internal policy, which are to be shared with the Department of Audits.

UPON MOTION duly made and seconded, the Board approved and authorized the purchase of gift cards for distribution to clients that participate in program activities.
