Parking Authority of Baltimore City (PABC) – Expenditure of Funds

ACTION REQUESTED OF B/E:

The Board is requested to approve an expenditure of funds to pay CALE America Inc.

AMOUNT OF MONEY AND SOURCE:

$34,500.00 – 2075-000000-2321-252800-609033

BACKGROUND/EXPLANATION:

The Expenditure of Funds is to pay CALE America Inc. for the upgrade of 60 EZ Park Multi-Space meters to the most recent Americans with Disabilities Act (ADA) standards in support of the Parking meter accessibility Program (Project Space).

On May 17, 2017, the Board approved a three-year Maintenance Agreement with CALE America Inc. (CALE). The Maintenance agreement provided upon the request of the PABC the required scope of work and cost associated with upgrading the CALE EZ-Park specifications.

CALE has provided and installed the EZ Park Meters since 2004, and the meters were ADA compliant until new ADA standards were issued. CALE must provide the required parts and services to upgrade the meters because the equipment is proprietary.

This expenditure of Funds will pay for ADA upgrades for 60 of the existing EZ Park Meters allowing the Parking Authority to implement Phases 5 and 6 of Project Space in the Hampden, Mt. Washington, Station North, and Midtown areas of the City.

The PABC worked for several years with the Mayor’s Commission on Disabilities to improve the parking situation in Baltimore for people with disabilities. The PABC developed a program called Project SPACE to address this problem.
PABC – cont’d

The goal of Project Space is to make all meters ADA compliant and provide hundreds of reserved on-street parking spaces for people with disabilities while requiring all parkers to pay for metered parking, including those displaying a disability placard or license plate.

Phase 1 of Project SPACE launched in the Central Business District (Franklin Street to the North, President Street to the East, Pratt Street/Key Highway to the South and Martin Luther King, Jr. Boulevard to the West) on July 13, 2014. Persons that had been abusing disabilities placards for the free parking that the placards previously provided, no longer had the incentive to park all day at meters, resulting in more turnover and availability of metered parking spaces. Phase 1 of Project Space exceeded expectations and led to Phase 2 which began on September 27, 2016 in the Fells Point and Harbor East areas of the City. Phase 3 began in the Federal Hill area on April 17, 2017. Phase 4 began in Mt. Vernon in October 2017.

The Board is requested to NOTE receipt of the Department of General Services FY 2018 Vehicle Audit Status Report.

Last year, the Board of Estimates requested the Department of General Services to report back to the Board with an update the Audit of City Vehicles. The Department of General Services (DGS) has completed a comprehensive audit on all of the City’s vehicular assets to ensure that the information contained in the DGS Fleet Management’s database was accurate and that all assets were properly recorded. The Audit conducted covered the time frame from April 4, 2018 to July 27, 2018.

Results:

Out of 4,294 vehicular assets considered for audit, DGS Fleet Management received information on 4,294 assets (response rate 100%). The DGS Fleet Management also physically inspected 94 assets (2.1%).

During the audit period, 338 vehicles that were overdue for preventative maintenance were brought in for service.

At the conclusion of the audit, 166 assets were reported as untraceable. Impacted agencies were instructed to file police reports for those vehicles. Upon receiving police reports for the untraceable assets, DGS Fleet Management will remove them from the database.

During the audit process, DGS Fleet Management discovered that 741 assets needed account number changes in the system. Subsequently, DGS Fleet Management updated the account information for all of those assets.

The Board NOTED receipt of the Department of General Services FY 2018 Vehicle Audit Status Report.
