President: “Good morning. The March 11, 2020 meeting of the Board of Estimates is now called to order. In the interest of promoting the order and efficiency of these hearings, persons who are disruptive to the hearing will be asked to leave the hearing room. Meetings of the Board of Estimates are open to the public for the duration of the meeting. The hearing room must be vacated at the conclusion of the meeting. Failure to comply may result in a charge of trespassing. Before we go any further, I would like to take a moment to uh -- address the public health situation that’s being presented by COVID-19, also known as the Coronavirus. I think we all know by now that calls have begun to come in to cancel events and meetings where the public gathers. Uh -- meetings like this
one, obviously. As the Chair of this body, I take seriously my responsibilities to the public. We will be guided by the science and continue to consult with Baltimore’s Health Department and health providers in how we go about making our business and our business decisions. And we have to make sure that our residents are informed so they know where to go for the most up-to-date information and updates. That’s something our colleagues at the federal level, not to mention residents, have been unclear about. I spoke last night with Senate President Ferguson, who faces many of the same decisions with respect to balancing the imperative to continue to do the people’s business while doing so in a way that does not risk the health of citizens and members of the community. So for now, we will continue on. Mr. Mayor, it is times like this that we call for us to put politics aside and work together to make sure that the people of Baltimore are getting what they need and expect from their leaders during this crisis, and I am happy to say that is exactly what’s been happening here in Baltimore. Uh -- last week we had a hearing at the City Council -- the Health
Department was great -- the collaboration has been great -- the information was great, and we will continue to do that. We know that this is a serious issue. We know that we have to protect the citizens of Baltimore at all costs. We have started to inform people that they can watch on live stream. Hopefully that’s what they’re doing to protect themselves and we will continue to push the information out there. Uh -- we look forward to making sure that all of Baltimoreans are as safe as possible during this crises and we -- and that we will work together, as always, to make sure that Baltimore’s business carries on, but carries on in a safe way. I will direct the Board members’ attention to the Memorandum from my office dated March 9, 2020, identifying matters to be considered as routine agenda items together with any corrections and additions that have been noted by the Comptroller. I will entertain a Motion to approve all of the items contained on the routine agenda.”
Acting City Solicitor: “Mr. President, I move approval of all items on the routine agenda.”

Comptroller: “I Second.”

President: “All those in favor say AYE. All opposed, say NAY. The Motion carries. The routine agenda items have been adopted.”

Union representatives and the Labor Commissioner on successfully concluding new two-year agreements. The MOU ratified by the Board this morning recognizes the diligent work of our front-line employees and supervisors who keep the City government working, day in and day out. Our Union workers provide vital public services, often under difficult conditions with little or no public recognition. By providing a 3% wage increase in Fiscal Year 2020, an additional 2% in Fiscal Year 2021, today’s agreements give our employees a tangible benefit in times of increasing economic uncertainty. I strongly support the City Union workers and that’s why I proudly endorse these two new contracts. Thank you.”

The Office of Engineering and Construction is requesting an additional 293-calendar day extension of which 283 days are compensable in accordance with the Chief Division Level Hearing held on May 2, 2019. During construction, the Contractor encountered an abandoned buried structure where the generator, fuel tank, and load bank were to be located. Demolition of a portion of this structure poses a significant risk to the Montebello-Cromwell Tunnel, located directly below this structure. Therefore, the Consultant Engineers had to relocate and redesign the conduits and appurtenances for the generator, fuel tank, load bank, and in consequence the primary switchgear. The Office has previously processed an EAR for the Change Order 006 work. Also, in accordance with project controls a determination was made that the Contractor would receive 211 calendar days’ time extension in which 140 calendar days are non-compensable and 71 days would be compensable for a value of $134,536.00. The $134,536.00 EAR was approved by the Board, however, the Contractor disagreed with the decision and requested a division level hearing with the Chief of the Office of Engineering and Construction. Per the division level hearing it was determined to grant a total time of 293 calendar days...

Therefore, Change Order 007 is for the aggregate amount of $410,239.00 and a 293-calendar day time extension in which 283 calendar days are compensable.

BACKGROUND/EXPLANATION:

The Department’s community development strategies focus resources in disinvested and overlooked communities where City funds will spur growth and transformation and attract additional investment. The Department created the Community Catalyst Grants Program (CCG), a $5,000,000.00 initiative to leverage assets and support community-led organizations to increase their capacity and ability to undertake neighborhood revitalization initiatives. Up to $2,000,000.00 of the CCG Funds were allocated to supporting operating costs and up to $3,000,000.00 to supporting capital projects.

In October 2018, the Department released the CCG Operating Grant Guidelines and Application.

On March 7, 2019, the Mayor awarded 35 organizations a total of $1,750,000.00. The balance of $250,000.00 will be maintained for the Department’s administrative cost.

On September 18, 2019, the Board approved the award of the 35 organizations and the Form Agreements to be used in the Community Catalyst Operating Grants Program.

In October 2019, the Board approved all 35 organizations budgets and scope of work.

The Department is requesting the Board’s approval to change the Community Catalyst Grant Operating Program funding source from 9910-906222-9588 - Community Catalyst Grant to 1001-000000-5930-599700-607001 - Community Catalyst Grant Support for Individuals.

The Bill bans the use of plastic checkout bags and imposes a fee on any other checkout bags that are given out by retailers. In addition, Section 4 of the Bill requires that the Baltimore City Department of Health and the Baltimore Office of Sustainability lead an outreach and education campaign to all affected retailers and their customers informing them of the new Ordinance. As part of this campaign, the agencies are committed to supplying as many no-cost reusable bags as possible to low-income households to make the impact of this waste reduction bill more equitable. The agencies expect to work with multiple City agencies and outside partners to ensure that the campaign successfully educates retailers on their responsibilities, increases the use of reusable bags, and decreases plastic waste.
To achieve this goal, donations (monetary or in-kind) will be solicited to support the education and outreach campaign required by the Bill. Specifically, donations of reusable bags and/or materials to make reusable bags, programming, special events, and various other support and services will be solicited.

A potential donor list will be comprised of individuals, corporate entities, faith-based institutions and other non-profit organizations, and foundations that contribute to the economic, social, and cultural vitality of Baltimore City. Most of the individual and corporate entities fitting that description are not controlled donors. However, those potential donors who are controlled donors, with respect to the City Council or the Board of Estimates, will not be targeted or singled out in any way and will be solicited, if at all, in the manner as the other potential donors.

Baltimore City Code Article 8, Section 6-26, prohibits solicitation or facilitating the solicitation of a gift. An exception was enacted in 2005 to permit certain solicitations that are for the benefit of an official government program or activity, or a City-endorsed charitable function or activity that has been approved by the Ethics Board. Ethic Regulation 96.26B sets out the standards for approval, which includes the requirement that the program, function, or activity to be benefited and the proposed solicitation campaign must be endorsed by the Board of Estimates or its designee.

UPON MOTION duly made and seconded, the Board endorsed the Governmental/Charitable Solicitation Application for submission to the Board of Ethics of Baltimore City to allow the Office of Sustainability to solicit donations from individuals, organizations, businesses, and foundations, who have an interest in reducing plastic waste in the City, to support implementation of the Comprehensive Bag Reduction Bill.

Department of Transportation – Increase to Contract Value

ACTION REQUESTED OF B/E:

The Board is requested to approve an increase to the contract value for Project 1246, Automated Traffic Violation Enforcement System (ATVES) with American Traffic Solutions, Inc. (ATS).

AMOUNT OF MONEY AND SOURCE:

$7,602,000.00 - 1001-000000-6971-659100-603051
GF (HUR)

BACKGROUND/EXPLANATION:

On May 17, 2017, the Board approved a five-year award to the ATS in the amount of $5,400,000.00, for fixed and portable school and work zone speed cameras. The contract expires May 17, 2022, and contains two renewal options of two years each.

The original contract provided that the Department anticipated starting the contract with 20 speed cameras (10 fixed and 10 portable). Importantly, the Department recognized that if the speed camera program was a success, the number of cameras would be increased over time. Accordingly, the contract expressly provides that, “At any time, the City may increase or decrease the number of complete camera systems installed for the ATVES program.”

The cost of the camera system is based on an agreed flat price for each installed camera system as per law, (pursuant to Maryland Code Annotated, Transportation Article, §21-809 (i)(2), Use of Contractors; Restrictions on Fee). The Contractor does not receive any portion of the fines levied or collected by the City. The per camera price was set forth in an attachment to the contract dated May 17, 2017. The prices as of May 17, 2017 remain in effect now.
Department of Transportation – cont’d

The total amount now requested by the Department covers the installation and deployment of cameras over 3 fiscal years. The total amount requested for FY20 and FY21 is $5,187,000.00 and $2,415,000.00 respectively.

Based on an analysis of collected crash data, pre-installation speed camera testing and community requests, the Department has increased the number of installed camera systems from the original 20 to a current total of 115. The installation period of the 115 speed cameras took place between May 2017 and April 2019. Based on the pricing structure and the number of deployed systems, the Department has calculated that to continue operation of the speed camera system, requires an increase in the approved funding in the amount of $7,602,000.00 over the original Board approval amount of $5,400,000.00. Additionally, the Department anticipates, based on past demand and need that the number of deployed cameras will increase over the remaining term of the 2017 agreement. The Department cannot accurately predict how many additional cameras may be needed and respectfully notes that it will be necessary for the Department to return to the Board later to request additional funding for the remainder of the contract term.

The ATS has not met the WBE goals for this contract. However, on the February 26, 2020 payment verification form, the CEO of Greibo Designs, LLC stated that there is a good working relationship with the prime and that more work is forthcoming. After many attempts, MWBOO was not able to verify any additional information with Greibo Designs, LLC. ATS has exceeded the MBE goal, and made an effort to utilize the WBE subcontractor. Therefore, MWBOO has found ATS compliant based on a good faith effort.

RECOMMENDATIONS FOR CONTRACT AWARDS/REJECTIONS

Department of General Services

1. GS 18833, Baltimore  Trionfo Builders, Inc.  Visitor Center  Renovation  $ 533,000.00

On October 30, 2019, the Board opened four bids for GS 18833. The bids ranged from a low of $319,000.00 to a high of $398,554.00. The low responsive bid is 43% above the Engineer’s Estimate due to several factors such as the location of the Visitor Center, which raised the mobilization cost, the small quantity of storefront, and required glazing, which drove up the cost as it lacked the efficiency and quantity of a large-scale project. The Department of General Services recommends the award of the base bid, plus Alternate No. 1, Roofing & Fascia for $189,000.00; and Alternate No. 2 for $25,000.00, Soffit Panels for a total amount of $533,000.00.

MBE/WBE PARTICIPATION:

The Chief of MWBOO has recommended Trionfo Builders, Inc. as being in full compliance with Article 5 Section 28 of the Baltimore City Code. As part of their bid, Trionfo Builders, Inc. has committed to utilize the following:
