drawing a contrast because the contractor or vendor that is proposed today for the \$600,000.00 increase is the same identical contractor that we came before the Board last week - ah- for which the Bureau of Purchases proposed a \$200,000.00 actually \$2,000,000,000.00 increase on a very similar contract and even -ah- though different. Ah -- nonetheless, it is very similar, and the process - the process I believe -ah- again on the initial contract that we considered last week was a requirements contract and I said last week that I believe very strongly that the way the City -ah- Bureau of Purchases is administering the requirements contract, ah -- almost in every instance -ah- makes the contract, makes the contract illegal and that it violates the spirit and the intent of the purpose of the competitive bidding Charter provision -ah- and that provision Article VI, Section 11 provides that -ah- the City shall award the contract. responsive, responsible bidder or in case of Request for Proposals to the highest scoring bidder, and apparently this was a request for proposal where they awarded the initial contract in 2011. Ah -- it's not showing, it doesn't really say but I would presume it was ah -- pursuant to a competitive request for proposal, because if you notice my exhibit no. 2, ah -- it has ah - it has a price initially submitted by the bidder ah -- whom the Bureau of Purchases proposes to award an additional \$600,000.00. But that price was \$555,632.07. Now, the term pertinent relevant terms of the request for bid required this bidder to provide these services for a minimum of two years without an additional increase in the price. That was the sale of terms of the RFP and presented in the contract. Now my contention here this morning before this Honorable Board is that if we're going to administer requirement contracts or for the other matter any contract, well the bidder can bid the contract in such a way; a low price combined with other factors and get

the contract and not comply with the duration or the term of contract to provide those services for the price that -- price stipulated in its original bid, and I would submit to your Honorable Board today that I keep seeing these kind of contracts that come before the Board and if you look at my exhibit no. 2. Neo Tech, which is one of our small minority firms, African American firm. The original bid Neo Tech was one of the bidders but I submit to you that their bid was not low, but when you consider this \$600,000.00 that the Bureau of Purchases is proposing to award -ah- as an increase then I submit to you that this would have made Neo Tech a small African American firm this would have made this firm the low bidder. But anyway, I think I've made my point and I don't want to beat a dead horse."

President: "Mr. Jolivet, on last week when you raised the issue about the \$2,000,000,000.00 I supported your argument and I also told you that coming from a background being a manager at Johns Hopkins, where I had um to order my supplies, remember when I

told you about that? And how the manufacturer gave us one price and we can always go and you know increase the price when our inventory gets low from the same place. So, I gave you my word on that and I talked to Mr. Nilson just this morning. The Finance Director is also you know, concerned about these types of increases and we promise you we are going to try to tighten it up."

Mr. Jolivet: "And I want you to know I was very appreciative of you taking your time to explain to me how your experience at Johns Hopkins. I was moved. I was particularly moved that you would take the time to enlighten me, -ah- and I was of course compelled to come before the Board on this matter because when this matter first came before the Board in 2011, I represented Neo Technology, and I felt at that time and I believe I

presented a plausible argument that Neo Technology was unreasonably and unfairly disqualified and my point today is that in all due respect to Mr. Krus, if we are allowing these requirement contracts and the contractor to get additional funds before the original term of the contract expires, then there's no competitive bidding Mr. President. That is not competitive bidding. It's fundamental based on the proposition that all bidders must be placed and bid on the same proposition. Same proposition and the thing that Mr. Krus knows is wrong is that in each one of these requirements contracts, the agency does not know and the agency does not identify in the request for proposal exact quantities. So therefore, if the agency cannot identify and state in the request for proposal the exact quantities that will be utilized during the term of the contract I submit to you that we need to disband and discontinue this process, because it allows one bidder to trump the system and every time the award of the contract and come back before the term of contract is over with and get additional monies."

City Solicitor: "It seems to me Mr. Jolivet just two observations. Number one, you're suggesting that requirements contracts be abolished totally. Because they are fundamentally designed for a situation, where the agency or the collection of user agencies in the aggregate can't identify with particularity their needs over the next year or two years so you're advocating not for restraint but for abolition. I'm sorry termination of the practice. And secondly, so you're remarks about Neo Tech it doesn't appear that Neo Tech was disqualified. It appears that Neo Tech was a high bidder on this requirements contract by several hundred thousand dollars, which was already a not very good price score and they're not getting the contract. So, I'm sort of and then I'm not sure how you know they ended up getting harmed by the fact that now this contract is being increased at the same relatively lower price for the commodity that um -- Rudolph's bid in 2011. So, I'm not following the argument about Neo Tech's harm here."

Mr. Jolivet: "The harm comes about largely and solely because by Neo Tech you're absolutely right. Neo Tech was not the initial low bidder. That -- you missed my argument and that argument was they were not the lowest bidder at the time but now that you've given that the Purchases Bureau is giving or proposing to give additional \$600,000.00 Mr. Solicitor it would definitely make Neo Tech if you add that additional \$600,000.00 you would definitely make Neo Tech a lower bidder, if not the lower."

Platt Electric Company v. City of Seattle. I want you to read that case Mr. Nilson. I'd like for you to read Platt and presumably, it would be good if you had the benefit of the court decision in that case where the court says that when you're doing competitive bidding essentially the bid specification must be uniform. So, you can't have one bidder bidding on one item or one quantity and another bidder and the quantity is left to another bidder to surmise what the quantity will be."

Um -- As I noted last week this is a common public purchasing practice to establish requirements contracts. Last week we talked about Rudolph's who was an awardee on a competitively bid MWBOO compliant requirements contract for office supplies. That's for commodities. When we increased that commodities contract the price of the commodities doesn't go up, the usage by City agencies increases. This time we're talking about

Rudolph's who separately competed for and won an award for toner and ink cartridges, again a commodity. Had Neo Technology been awarded this contract and City usage had increased, we would have been coming here for an increase for Neo Technology on usage of cartridges not necessarily the increase in the price of those cartridges. So, I just wanted to make that clear as we look at this and Mr. President, we're happy to engage in this discussion with you."

President: "Okay. Comptroller, you got to talk in the mic."

Comptroller: "Mr. Krus, Rudolph's has been a vendor for over a decade."

Mr. Krus: "Correct."

Comptroller: "Okay, and so don't they have a history of the usage for supplies and cartridges?"

Mr. Krus: "They do. Madam Comptroller, I would point out that when we typically go forward with the award of the solicitation we start with usage for the initial term. So, the vendor may

bid a certain amount of money and the contract may have several renewals. We would typically come to the Board for the amount that we think is going to be needed for the initial term. Because we're required to come back to the Board to award the renewal, at that time we come with the amount that we believe is necessary for the renewal term. So, in a lot of these cases you'll see a contract value summary that has a number of regularly scheduled renewals along with the estimates at the time of renewal."

Comptroller: "So, that the usage when you take a look at the usage over a period of time, the historic information. Are we seeing that they're bidding on um -- supplies or toners um -- that they need at that time so that they wouldn't have to come back for increases, because it I understand Mr. Jolivet's point. If the bidder, like Rudolph, who has been doing business with the City for over a decade, they have historical information of how many toners the City uses and they bid low knowing that in

the interim that they are going to have to come back to ask for an increase because we need more toners or more supplies. It just seems a little unfair since they have that historical way of --."

Mr. Krus: "Well, they are bidding the unit price and in the event that the particular types of cartridges that we put on the solicitation don't encompass all that are used, they're also bidding a discount of their catalog price. So, every vendor has a level playing field in that and what we try to do on the solicitation is establish a pricing sheet and a method of award that allows us to compare apples to apples. We're not necessarily going out to the vendor and to the potential bidders and telling them what we think the City might be willing to spend on this because we don't want all the prices to gravitate toward that amount. So, we are trying to have a fair solicitation and then come to the Board for approval to award the City's requirements over a period of time with those prices constrained. We have price escalation and de-escalation clauses in those contracts. But in these cases, they are all relating

It's not clear but assuming that is the case, the City Solicitor is uniquely aware that the Board, this Board or any Board cannot ratify a contract that wasn't awarded pursuant to law. Hornbook law has been the law for years so what I'm saying to you, I asked the City Solicitor to look at Tuxedo Cheverly Volunteer Fire Company v. Prince Georges County. I asked him to look at that because ah -- it clearly showed the court in that case where the court was asked to ratify a contract that had never been bid pursuant to the law, and the court said that a contract executed in derogation of a mandatory competitive bidding Charter provision is void and un-enforceable. So, what the

Purchasing Bureau is asking the Board is for you to ratify a contract that is already void and un-enforceable. So, I'm just-- I'm just appalled how the Board could agree with the Purchasing Bureau when the Purchasing Bureau is so fundamentally wrong."

Mr. Krus: "Mr. President if I could just define something?"

Mr. Jolivet: "No you can't. I thought I had the floor."

President: "Come on Mr. Jolivet."

Mr. Jolivet: "Please, let me finish after being so rudely interrupted. I would like to simply say that everything that the Purchasing Bureau has asked this Board this morning does not comport with the competitive bidding requirements of the Charter, and this Board, I don't need to tell this Board but the Board knows that it has an obligation to award these contracts pursuant to the law. If there's a competitive bidding requirement and I raised these arguments largely because I represent a group of small fledging minority firms, African American they would like to bid a job like this. But they never

get opportunities to bid and to show how competitive they are if the Board is going to just surreptitiously embrace what Mr. Krus has brought to you this morning. There's a pattern here Mr. President there's a pattern where all of these non-bid contracts come before the Board and they are wrong but the Board doesn't send a message to Mr. Krus that they're not going to put their stamp of approval on something that is wrong. The Board has failed the minority contracting community and the contracting community as a whole because the Board is approving contracts that they know is wrong. Thank you Mr. President."

Comptroller: "This item was not bid it was done as a selected source?"

Mr. Krus: "No, it was bid. It was awarded on May 30, 2007."

City Solicitor: "By the Board of Estimates?"

Mr. Krus: "By the Board of Estimates, correct, and the first amount you see on the contract value summary was an award in the

amount of \$850,628.70 for a two year contract to begin on July 1, 2007 with three 1-year renewals, which you see further executed on this contract value summary. So it was competitively bid. It was competitively bid with MBE/WBE participation and that participation has been compliant throughout the term of the contract. So, any increases or renewals, those MBE's and WBE's would benefit from a percentage increase in those amounts."

Comptroller: "Ms. Taylor would you like to respond?"

Deputy Comptroller: "Certainly. Currently on the Board Agenda is Solicitation 06000. Can you explain that why it appears that way that is the question as why it appears as selected source?"

Mr. Krus: "06000 I think may have appeared on the memo because of the ratification of spending. The contract as always, has been enforced and will be enforced through June. Um as you know in any large government or organization it's possible to have the invoices that are submitted to the City for work that

occurred prior to the release of the purchase order. We release interim purchase orders on these requirements contracts over time and in this case there were invoices that appeared prior to those releases off of this blanket contract. So I think that's how that ended up in the subject."

Deputy Comptroller: "That might be --"

Mr. Krus: "I don't understand where that would be."

Deputy Comptroller: "That might be because it appears that it's selected source and that is the basis of Mr. Jolivet's protest also. One of the bases."

Mr. Jolivet: "Mr. President one final comment."

President: "Yes."

Mr. Jolivet: "If I for any reason gave the Board the impression that I was contesting the MBE/WBE that is not my issue. I have to applaud Mr. Corey, he made sure that there is MBE/WBE but I have not made that argument and it's good that there is MBE here. But my larger argument is that the increase and the

ratified amount simply does not comport with the Charter and that is really the gist of my argument Mr. President. Thank you for allowing me to be here."

President: "Thank you."

Mr. Krus: "Tim Krus, if I may Ms. Taylor? I've discovered why that subject changed and that is fact that we had an extension approved by the Board on May 6th. So whenever we would extend a contract it would become a selected source even though initially this competitively bid contract."

President: "I'll entertain a Motion."

City Solicitor: "Move approval of the recommendation of the Bureau of Purchases and rejection of the bid protest."

Department of Housing and Community Development (DHCD) - Land Disposition Agreement

ACTION REQUESTED OF B/E:

The Board is requested to approve and authorize execution of a land disposition agreement with Baltimore Green Space, a land trust for community managed open spaces, developer, for the sale of the property located at 1816 Brentwood Avenue.

AMOUNT OF MONEY AND SOURCE:

\$1.00 - Purchase Price

BACKGROUND/EXPLANATION:

The DHCD's Land Resources Division strategically acquires and manages vacant or abandoned properties, ultimately enabling these properties to be returned to productive use and improving Baltimore's neighborhoods. The Mayor's Cleaner Greener Initiative, as well as the new Sustainability Plan, calls on the City to develop and support a land trust to help communities retain control of appropriate open space upon their commitment to maintain the space.

The transfer of 1816 Brentwood Avenue, which has been used by the Greenmount West Community for the past five years as a community garden, into a land trust is cost-effective. The transfer will provide the neighborhood with amenities such as community gardens and other beautification and recreational spaces. Through their own labor and investments, as well as outside funding, the residents will increase property values while creating social and environmental benefits.

The property was journalized on October 18, 2012.

MINUTES

DHCD - cont'd

STATEMENT OF PURPOSE AND RATIONALE FOR SALE BELOW THE APPRAISED VALUE:

The assessed value of the vacant lot is \$17,200.00. Sale of the property to a land trust, whose sole purpose is to ensure the preservation of the community managed open space, below the assessed value is reflective of the City's understanding that community managed open spaces serve a specific benefit to the immediate community. The community gardens provide a specific benefit by elimination of blight.

Department of Housing and - Amendment No. 1 to Land
Community Development (DHCD) Disposition and
Development Agreement

ACTION REQUESTED OF B/E:

The Board is requested to approve and authorize execution of amendment no. 1 to land disposition and development agreement (LDDA) with Poppleton Development I, LLC, Developer, for the Poppleton Redevelopment Project.

AMOUNT OF MONEY AND SOURCE:

N/A

BACKGROUND/EXPLANATION:

In 2005, the City awarded a development site in the Poppleton neighborhood to La Cite Development, LLC, which formed the entity Poppleton Development I, LLC. On September 27, 2006, a LDDA was approved by the Board. The LDDA called upon the City to acquire the remaining privately owned properties in the development site, clear the site of structures, and convey the property to the Developer. The Developer committed to develop approximately 1,650 units of new housing and 100,000 square feet of new commercial retail space over 4 phases of the Project. An impasse was reached in 2012 between the City and the developer over the obligations of each party under the terms of the agreement. The Amendment No. 1 (Amendment) will make the necessary revisions to the LDDA to allow the Developer to proceed with implementation of the development plan, and for the City to comply with its obligations under the Amended LDDA. The Amendment will serve to resolve pending litigation between the City and Developer.

The Amendment to the LDDA will revise the list of properties to be conveyed, clarify the purchase price for the properties to be conveyed, and revise the timetable and certain terms for the development of the Project.

MINUTES

DHCD - cont'd

The following properties will be removed from the Project through the Amendment:

329 N. Carey Street	1044 W. Fayette Street
222 N. Carrollton Avenue	1046 W. Fayette Street
1040 W. Fayette Street	1228 Rankin Place
1042 W. Fayette Street	914 W. Saratoga Street

The following properties will be added to the Project through the Amendment:

1016 W. Fayette Street	1043 W. Fayette Street
1018 W. Fayette Street	1517 W. Lexington Street
	1521 W. Lexington Street

The 2006 LDDA set the purchase price of the property as \$1.00 per property plus a Reimbursement Amount. For the Property in any phases or sub-phases of the Project that includes all market-rate housing or commercial space, the Amendment sets the reimbursement amount at the appraised value of \$16.00 per square foot. For the property in any phase or sub-phase of the Project in which at least 20% of the housing units are offered at affordable rental or sales prices, the Amendment sets the reimbursement amount at \$1.50 per square foot. A reduced reimbursement amount for affordable housing was included in the 2006 Agreement to allow for the provision of affordable housing units in an otherwise market-rate project. The Amendment simplifies the calculation of the Reimbursement Amount by replacing a set of Affordable Housing Credits with a specific dollar amount per square foot. The Purchase Price plus the Reimbursement Amount will be paid by the Developer from private funding sources at the time of settlement.

DHCD - cont'd

STATEMENT OF PURPOSE AND RATIONALE FOR SALE BELOW THE APPRAISED VALUE:

The Property is to be conveyed from the City to the Developer for below the appraised value to allow for 20% of all housing units developed to be affordable. The Project calls for the construction of approximately 330 units of affordable housing, of which 90 will be affordable rental units and 220 will be affordable homeownership units. This sale will provide the following benefits:

- The community will receive the benefit of the development of 90 affordable rental units. These units will be affordable to households earning 80% or less of the Area Median Income, with many of the units affordable to households at 50% or less of the Area Median Income, and will remain affordable for no less than 15 years. The community will receive the benefit of 220 homeownership units affordable to households earning 100% or less of the Area Median Income, with many of the units affordable to households at 80% or less of the Area Median Income. In addition, attractive new market-rate rental and homeownership units will be constructed, which will revitalize the community.
- The Project will bring approximately 100,000 square feet of new retail space to the neighborhood, including a grocery store.
- This development will eliminate neighborhood blight caused by the City-owned vacant properties and revitalize the Poppleton neighborhood.

The community is in support of this Project.

MBE/WBE PARTICIPATION:

The developer has signed a commitment to comply with Article 5, Subtitle 28 of the Baltimore City Code and MBE and WBE goals.

PROTESTS WERE RECEIVED FROM THE CONCERNED CITIZENS OF POPPLETON, SCOTT KASHNOW OF THE FRANKLIN SQUARE COMMUNITY ASSOCIATION AND SOUTHWEST PARTNERSHIP, AND MS. LAVANYA MADHUSUDAN.

A PROTEST WAS RECEIVED FROM MS. KIM TRUEHEART.

The Board of Estimates received and reviewed Ms. Trueheart's protest. President: "The third item on the non-routine routine agenda can be found on Page 10, Department of Housing and Community Development, Amendment No. 1 to Land Disposition and Development Agreement. Will the parties please come forward Okay?"

Mr. Engel: "Good morning my name is Peter Engel I'm the Deputy Commissioner for Project Finance Development the Department of Housing and Community Development. The item before the Board is the first amendment to a Land Disposition and Development Agreement that was approved by the Board and signed in 2006. Ah -- the agreement covers something over 13 acres of the Poppleton Community. Ah -- a little background, um the City was required on the agreement to acquire a large number of parcels in the Poppleton area, that work was ah -- undertaken in 2010. The City gave notice to the developer that it had acquired all the parcels necessary to move ahead with the first phase of the project. The developer then had 18 months to essentially close on the property ah -- and show that it had financing. Um -- in 2012 the City gave notice to the developer that it had not

MINUTES

DHCD - Poppleton Redevelopment Project - cont'd

complied and had not uh -- closed on that financing uh -- and sent a termination notice under the agreement and the developer contested that notice, sued the City back claiming the City had not filled all of its obligations nor to allow that contract to move forward uh -- and uh -- after the resulting litigation the parties entered into discussions to try to resolve the matter. The agreement before the Board, the amendment is the result of those negotiations um and settles -- would settle the uh -- litigation. If approved, the litigation will be dismissed with prejudice we would get a full release for the City and this would provide a real opportunity for the developer to demonstrate that it can actually perform, that it can move this project forward. It gives them 18 months to close on the first phase and three months more to start construction uh and if the developer can't perform it will allow the City to take other look at other opportunities to make something happen in the Poppleton community which really is our overall objective actually to both us and the developer and I would guess for most

MINUTES

DHCD - Poppleton Redevelopment Project - cont'd

of the community as well to really see something happen there. Um I want to emphasize that the litigation has put constraints on us, we've been in confidential negotiations with the developer up until literally 15 minutes before the Board deadline we get this item into the Agenda um -- and we have a deadline of tomorrow to report back to the Court which is why we really wanted it to be at this meeting today in order to have the action taken. Um -- the protests received largely deal with the fact that we have not gone out to brief the community and I think that's a legitimate point um -- and in a perfect world we would have done that given the constraints of the litigation we didn't feel that was possible. We're happy to sit down with the community now in going forward on a continuing basis to talk about this development, what the community is doing in the area and how we can all improve this together. A second piece of the important part of the protest was that one of the parcels included in the amendment to the LDDA was 220 N. Carey Street, that parcel is part of several other parcels which the community

MINUTES

DHCD - Poppleton Redevelopment Project - cont'd

has gone out on their own initiative, gotten funding and created a park and several of the other parcels in that park were actually part of the 2006 LDDA are already going to be part of the development but this new parcel is being added. We've talked to the developer they're willing and we're willing to remove that parcel for now to indicate that we really do want to have a discussion with the community about that park. So, we are asking to amend the motion before the Board to take out 220 N. Carey Street and we will sit down and talk about the park. The fact that that's been created there is a real plus and could be a real amenity for the development going forward. It's possible that when that site would be developed in another five to ten years that it might be better to have housing on that site or something else and that there might be another place for the park. But, in the meantime we will sit down and talk to them um -- and I want to mention that ah -- also that um -- it's while that is important the agreement signed by the community under the park for the Adopt A Lot Program is year to year and does

MINUTES

DHCD - Poppleton Redevelopment Project - cont'd

allow the City to terminate the use -- their use to the lots with a 30 day notice. Now we have no intention to do that. We do want to sit down and talk about the future of the park but I thought that was important to mention. Thank you."

President: "Thank you. You have to pull the mic down and talk into the mic."

Mr. Kashnow: "Scott Kashnow, I live in the Franklin Square neighborhood. The first thing that I want to do is thank you all for a quick response and for taking 220 N. Carey out of the contract. This -- can I just give this (business card) to you? That's what you protected yesterday. That's what the neighborhood has been working on for the last 2½ years with many partners, and it's been a great source of pride and it's been a fantastic project that's really about the community getting together. I think it's really getting us on the right track. That's one of the things that is our interest today I think is what is really good for the neighborhood. What are we actually

MINUTES

DHCD - Poppleton Redevelopment Project - cont'd

going to accomplish and we understand totally the contract that we signed. That it's the Adopt A Lot agreement. It can be pulled out at any time at the City's discretion to do whatever it is that the City wants to do with it. We understand that, and we took the chance on that with doing this because in the interim period, we recognize that this is better for our neighborhood than a vacant lot. That's one of the discussions that I'd like to have with Housing and with the developer is that the Poppleton Development at this point and for the last 6½ years is a vacant -- is vacant. It's empty there's nothing there and it's not a benefit to the neighborhood in the way that it is right now and as I understand the project going forward, the schedule as if it's approved today the way that it's going to go is that the best case I'll skip the interim things but, the best case is that in four years from now we will have two potential buildings at the corner of Lexington and Schroder, and that's as far as the project goes at this point from what I understand.

MINUTES

DHCD - Poppleton Redevelopment Project - cont'd

That's if financing can be established. So, there's a much larger project that's going to go on in that area that it's still going to be just a vacant plot of land because nothing happening on it and I don't see that really in that perspective being good for the neighborhood and really redeveloping the neighborhood the way that we would really like to see it happen. The other piece of this is that uh -- the lot at 220 N. Carey Street being included in this contract and the fact also that there's two lots that I understand now are also included in the contract that we had no idea about maybe it would have changed the way the community went about what we did and where we did it if we had known that is a clear indication that there's a communication breakdown there's a clear communication breakdown some place in the Department of Housing between two pieces of housing with a Adopt-A-Lot and the other group that created this agreement, and also between Housing and the community and what Housing is doing in the community and what the community is doing in the community and we're not aligned on that, and I

MINUTES

DHCD - Poppleton Redevelopment Project - cont'd

think we need to figure out how to go about being aligned on it. I understand that there are stipulations that maybe they can't say everything because of the legal thing and all that, but I think and the reason I'm here today is to ask you how we can do that. How can we go forward? How can we take this mess that we are in now and turn it into an opportunity going forward to eliminate this from happening again so that we all are on the same page. I have one quick suggestion about how to do that. I understand there's a lot of community associations in the area, but what we had done is we've come together and created the Southwest Partnership which is multiple communities together that includes a Bio Park, the University of Maryland, Bon Secours is there. We are inviting the developer and the Department of Housing, the Department of Planning is already working with us on this and we have a monthly meeting and maybe the suggestion is that Housing comes to that monthly meeting and if we can do that, then maybe we would have an ongoing conversation with somebody in Housing that knows what's going on

MINUTES

DHCD - Poppleton Redevelopment Project - cont'd

in Housing could tell us, we could tell them, we could work together then we could figure out what's the best thing that everybody should be doing for our neighborhood. So, that's what I'm going to ask you guys to include in here. And one other quick point that I want to make to Housing is this, um -- you mentioned that you would come out and brief the community and I don't know if it was your choice of words that you meant but I think that we want to have a discussion with the community. I think you should be talking with the community. The community should be talking to you and we should come to more of an agreement rather than a one sided briefing and I don't know if that was on purpose but I'd like to put that in there also. So that is what I have to say and that is what I am asking you to do. I hope can you commit to that today? Can we have Housing come to the group or do you need to work on that?"

Mayor: "I think they've already committed to that and that hasn't I mean Peter -- Mr. Engel is very clear the reason why

MINUTES

DHCD - Poppleton Redevelopment Project - cont'd

the discussions haven't happened was because of the legal requirements. I think that up to that point I think you would make your suggestion that this was a briefing and not a collaborative work. It -- It I think does not represent the history. The reason why the law suit was filed was because of my frustration, our frustration with the lack of progress. So, you are both missing -- the thought that we're not on the same page and working for the same goal I think is not an honest representation of the history of my administration because I have been pushing very hard for this project to move forward. I was just as frustrated or you know we shared in the frustration when the court ruled as it did and made for an extension of the vacant lot in the community because we were pushing very hard for there to be progress. So, you know I don't I know you are frustrated, we're frustrated and I'm not the problem. My administration, the Housing Department, has been working and Peter Engel just committed to sitting down and discussing and working on plans moving forward."

MINUTES

DHCD - Poppleton Redevelopment Project - cont'd

City Solicitor: "And I think it's absolutely the intention of Peter and the Mayor and the entire administration that this is a conversation it's not a one way briefing, and it will start as soon as it can. Not today perhaps but maybe when all of this is filed and the deal is done in court which we hope will be by tomorrow so, you know immediately after that, subject to scheduling constraints the conversation will begin or resume in earnest."

Mr. Kashnow: "That's fantastic for this particular piece of the issue that we're talking to today. As far as the conversation ongoing between the community and Housing it has not been I have not had the experience that Housing has been helpful. That they have been forthcoming with information and that they're forthcoming with a plan and that we are working together and just very quickly the 1600 block of Fayette Street is in Franklin Square and it's basically vacant. Basically empty north and south and there's a Vincent Street Park to the north it's a small City park that's hidden by houses on Fayette

MINUTES

DHCD - Poppleton Redevelopment Project - cont'd

Street. Last year I got a call from Housing because they had to call us because they got federal funding to potentially take down certain houses. They are talking about the north side of Fayette Street and five houses and my question to them these are historic houses in a historic neighborhood that's why they have to call and address this and my question was we don't want to lose our historic houses, we want to save them but we recognize that you can't always save all of them and sometimes it's better for the neighborhood to lose some in the interest of moving forward and making progress. But my question is what is the overall plan for that area and let's just talk about just that block. There's a park behind it, there are houses that are across the street that are also vacant are you just taking down five houses or do we have a plan for how we're going to redevelop the houses that are across the street and maybe bring that park into a bigger park and create something there that is an amenity to the community. Well, the answer that I got from

MINUTES

DHCD - Poppleton Redevelopment Project - cont'd

Housing was we have money to take down the houses and that's what we can do, and that was it. And that's my frustration with my conversation that I'm having with housing ongoing and what leads me to this conversation that I'm having today which is it's not a two way conversation. We're not working together and we need to figure out how to do that so that we're all are creating a plan for the neighborhood that's going to work. Not just on this project but for the overall area and that's why we've created the Southwest Partnership also so that our communities are doing the same thing and we're all working together with the Bio Park University. Everybody all on the same page going forward, and that's what I'm asking you guys to commit to is can you have housing come work with us on all the issues that we're working on. This issue and everything else on a regular basis with a regular conversation and we won't have a mistake like this happen again where the community has created something that is good for the community and I can only imagine

MINUTES

DHCD - Poppleton Redevelopment Project - cont'd

that Housing didn't know that it was there. That's my best case I hope that that's the case that they didn't recognize that it was there and they wouldn't have stuck it in there thinking because that is already good for the community. We have tons of other vacant lots that would have been better suited for redevelopment than this one."

Mayor: "Did --."

President: "I think --."

Mayor: "I'm sorry."

President: "I think the Mayor made it clear that her agencies will be meeting with you all. Coming to the community to have that dialogue and that discussion and um -- for my understanding of seeing what they planned is - is -- Phase I, Phase 2; it's a couple of phase's right?"

Mr. Engel: "There are four phases."

President: "There are four phases. So it's not like the community is going to be left with all of these vacant lots. The developer is given the opportunity and I supported the

MINUTES

DHCD - Poppleton Redevelopment Project - cont'd

developer and supported the extension. But the Mayor didn't her agency didn't. They went to court and so there was some disagreement because I didn't want to see this delayed and waiting for another developer to come and then you have to wait longer like we did over in East Baltimore. So, I think the Mayor was very clear in saying that her agencies will be in dialogue with the community to come up with you know some suggestions from you all on how to move this project you know forward. Is that correct Madam Mayor?"

Mayor: "That is correct and my continued commitment is you know I don't for a second think that there haven't been missteps -- uh -- but the goal has been clear and my focus has been clear to move this forward for the community. So, just as we've done in the past we'll continue to uh -- work in partnership with the community to make sure that we get projects not just one project but projects that are fitting for the community and really move this community forward."

Mr. Kashnow: "Well, I thank you for your commitment to work with us. Thank you."

Ms. Carey: "Jobie Carey, President of the Hollins Roundhome-- Roundhouse Neighborhood Association. Part of Hollins Roundhouse is also included in the Poppleton Urban Renewal Plan which was amended to include the La Cite project. In the urban renewal plan, it says any changes must be approved by a Poppleton Project Area Committee. I don't know which one, which legal thing trumps what but, um there has been no legal meeting with the community as you know. The other is Housing and Planning aren't talking to each other. We have been-- planning as part of our committee. Planning has come to us for the last two years asking about who in Poppleton can they get in touch with to try to reform the association, and that is and that is a progress in work which Lavanya will talk about. But you know my concern is, even your own writing for the right in the write up for today, says the community supports this. What community? I mean where's the community on the support side of this because

MINUTES

DHCD - Poppleton Redevelopment Project - cont'd

we haven't been involved. And we've been trying very hard to partner with the City to take the Mayor's direction that says, we need communities to step up to the plate and partner with us. But partnership is the dialogue and I-- and I hear the words that we will now dialogue but again actions speak louder than words when you can put in writing that the community supports something and you're not even abiding by your own urban renewal plan you know I don't understand that, so I don't understand why you know why the um -- there couldn't be communications with given the lawsuit. The lawsuit asks you to come up with an agreement and come back. The community is part of that. If we had to hire the community law center to represent us, we would have because the community should have been included. Again, your own urban renewal plan says any changes have to be approved."

City Solicitor: "Yeah, I would just ask all of you to understand and appreciate two things; number one there is no change in the

MINUTES

DHCD - Poppleton Redevelopment Project - cont'd

Urban Renewal Plan by today's action. It's a change in the particulars of the agreement between the City and the developer for the purposes identified earlier by Mr. Engel and secondly please also understand that everything has been in a state of limbo for the last year. Not because we wished that to be so, but because our effort to terminate got caught up in federal litigation which restrained us and prevented us from doing that so we've been in this litigation land with hands tied and uncertainties arising out of that litigation which we hope we are now emerging from."

Ms. Carey: "Which brings another question up, when does the 18 months start? Does the 18 months start from the court date when the court gave them 18 months or does the 18 months start from today? Because again, we have -- been waiting --"

City Solicitor: "It starts from today."

Ms. Carey: "Okay -- six and half years and this and Mr. Blythewood told us two years ago that he was breaking ground that fall. So, I mean you know it is very frustrating but we really do want to be involved and I think --."

Ms. Carey: "The bottom line is you know --."

City Solicitor: "We totally share your frustration."

Ms. Waters: "Um -- My name is Elizabeth Waters and I'm really repeating everything else, so I'm not going to talk for long but I was a Poppleton Board member and I know we approved this many, many years ago, but the reality is nobody is involved now. There is no review committee. As a Board we haven't met for six years. So, you guys are going to have to reestablish a whole another Poppleton group to deal with these changes. Because you can't just move forward without getting some kind of agreement. So, as far as I know there is no Poppleton Development Corporation anymore, um -- and so we need to address who will be the group that represents them."

Ms. Madhusudan: "Good morning. My name is Lavanya Madhusudan I'm a Master's of Social Work student at the University of Maryland. I've been working um with several residents in Poppleton to organize a new neighborhood association. We're in the progress of doing this and we really hope that going forward

you would please reach out to us, especially Housing um -- because there's a lot of vacancies in Poppleton and with the plan to redevelopment the residents have not been included. We had our first meeting in March. Ten people came out, none of them knew anything about the plans for redevelopment and they've been living in Poppleton for an average of 20 years and um -- we just don't think that's acceptable. The community -- the residents are most affected by redevelopment and they have every right to be included in the process as equal partners and we really hope that and we appreciate your statements today and your statements of commitment and we really hope that the actions will follow. I am here representing the group in Poppleton, Concerned Citizens of Poppleton. Mr. Sterling Walker is here he wasn't able to sign up to speak but I was wondering if you might request, if you might give us permission for him to make a brief statement as well, he's a resident of the community."

Mr. Walker: "Good morning everybody. I'm a retired Corrections Officer."

President: "State your name."

Mr. Walker: "Sterling Walker, I'm a retired Correction Officer after 40 years over City Jail, um -- Vietnam Vet. When I first got out the service I moved out into Baltimore County and in '86 I'd seen something in the paper where the City was building some houses over there on ten hundred block of Vine and Lexington Street and it was a good deal so I'm like I'm going to move there because I come from that neighborhood. I come out of the 900 block of Saratoga Street in the Poe Home projects. I was born and raised there, so I moved back into the neighborhood which was a good deal for me. But when I moved a lot of friends and all thought I was crazy. So, I stayed with all the trouble we had, drugs and everything, been about maybe five or six years ago, they came up with the plan where they were going to build. They had a meeting over the school and the whole neighborhood turned out, but after that, we wasn't hearing anything else other than rumors, and the rumors was the University of Maryland

MINUTES

DHCD - Poppleton Redevelopment Project - cont'd

was buying up everything. The University of Maryland was going to buy the houses. So nobody really knows what's going on and the Neighborhood Association that we did have just started breaking up. Now when you come back, they don't really want to get involved because they got to the point where they really don't believe what's going on. You know it's like we just go on with what we hear about rumors. Like the rumor now is they supposed to tear the Poe Homes down, stuff like that. So, we really don't know what's going on and we'd really like to know what's going on. Now, I just finished paying for my house and I really ain't trying to go nowhere. You know."

Mayor: "Congratulations."

Mr. Walker: "So, I need to know what's going on. Because I mean, I fixed my house up nice and the development was there in '86, good deal, \$500.00 dollars down you know move in the mortgage \$521.00 a month. Hey came right back --."

President: "Good deal."

Mr. Walker: "You know, so I'd like to stay there but I also like to know what's going on with my neighborhood. You know,

MINUTES

DHCD - Poppleton Redevelopment Project - cont'd

because I could go back and if I could bring something back to them, show them the brand and see what's going on, they'd come. But, their thing right now is why keep going to meetings and then after two or three months there's no more meetings and then you got to go on rumors like the grocery store or you know ah Starbucks stuff like this. This is all we're getting. So we really need to go, if it wasn't for them coming to us about three weeks ago to get a community organization going we wouldn't be here right now knowing all what's going on."

Mayor: "How do they feel about the Starbucks?"

Mr. Walker: "Right now they're a little nervous because they feel as though once you move Starbucks in you're going to move them out."

Mayor: "I'm teasing. I just like Starbucks."

Mr. Walker: "Well I was one of them saying if Starbucks come they going to move us out."

So, I know that's it been difficult and it's been a struggle to make sure that everyone is in the loop. Their struggle has been made

more complicated by the restrictions of the lawsuit, but we're not done and the commitment that I made in front of all of you is that we will work together and make sure that this is a project that speaks to the needs of the community. Again, I want you to know that I share your frustration about the lack of progress and that's why we went forward and you know we're in our attempt with the lawsuit to push to force the hand and get something going there because I know that community deserves more than what's there and we will you know now that this settlement will shortly be resolved be in a position to bring the plans and then talk about how we can expand the plans that we have."

Mr. Walker: "Well, I mean the community welcomes the new development, they have no problem with it. They just don't know what's going on."

MAYOR'S COMMENTS

President: "Madam Mayor."

Mayor: "Thank you very much, and I thank you Mr. President. Last night the House of Delegates gave final approval - ah to the billion dollar school construction and renovation plan for Baltimore City Schools and by passing this landmark legislation, the General Assembly renewed its commitment to Baltimore City School students. Just, so we note that the members ARE here know that the meeting isn't over. Alright, I'll start again. Last night the House of Delegates gave final approval to a billion dollar school construction renovation plans for Baltimore City Public Schools and by passing this landmark legislation the General Assembly renewed its commitment to Baltimore City Public School students. I want to thank Governor O'Malley, Senate President Miller, House Speaker Bush all of them for their support of this landmark City State partnership to rebuild our school buildings for Baltimore children. Their commitment shows a deep concern for the well being of Baltimore City students. Together we will ensure that every City student will sit in a clean, modern and safe school building. This was a team effort

and I really want to thank my legislative team that worked so hard keeping all the buzz up in the air and making sure that we connected the dots ah -- to push this forward. I want to thank the City Council for supporting the Bottle Tax which was a significant part of the commitment to the plan. It was a difficult decision but proved to the legislators in Annapolis that we were willing to make the tough decisions to put resources on the table so we could make this happen for Baltimore schools. I want to thank Dr. Alonzo, Dr. Alonzo excuse me and the members of the school board for developing the ten year facilities plan. This plan helped us as well. It helped guide -- it will help guide us as we build 15 new schools and renovate 35 others but it also showed the legislators that we understood that we had to be the stewards of the buildings that we have but also plan for the future and in right-size, our school system. I want to particularly thank City Council President Young who joined us in Annapolis to show his support and his commitment to our schools. Thank you very much Mr. President. Public education is a cornerstone for a growing City.

fundamental right to access a good education and quality school buildings and providing more opportunities for families to send their children to good public schools will help get Baltimore growing again. It was these principles that my father fought for - ah - in the 90's he knew and always told us that the only reason he was able to move from Poe Homes to be in the legislature and to be the Chairman of the Appropriations Committee was because of his education and he credited the education that he got in the Baltimore City Public Schools and made it clear to us how important it was for us personally but also for our community and that is one of the reasons I fought so hard to make sure that we were able to get this done. He knew it was about making sure that we had resources but we also had to have responsibility and accountability to improve the students outcomes and that City State partnership has made a significant -- the one in 1997 -- has made a significant difference in student achievement and really set the path for the positive trajectory of the Baltimore City Schools. Last night with the House vote the State again is renewing its

MINUTES

Commitment to Baltimore's 85,000 students with resources, flexibility, and shared accountability to rebuild our schools. I know that we will be able to grow Baltimore by 10,000 families, but it will be because of things like this, where we are improving our schools and sending a clear message to current Baltimore families and future Baltimore families that their children will have the same chances to have a quality education in quality schools as anyone throughout our State. Again, my belief that Baltimore's best days ahead of us are renewed by what was done by the legislature last night and after the vote I think things will look even brighter. So I want again thank you Mr. President for all of your support and I'm very, very pleased at where we are today. Thank you."

\$230,000.00 - FY 2015

Account: 4000-422714-3030-279200-404001

BACKGROUND/EXPLANATION:

Sub-grantees may apply for up to two years within Fiscal Year 2014 and 2015, defined as July 1 through June 30; second year funding will be contingent upon performance measures and the availability of funds. Total awards to subgrantees may range from \$10,000.00 to \$45,000.00.

Title X categorical funds are allocated by the Federal Government to states for the provision of reproductive health services to the uninsured and underinsured. Title X exists specifically because of the contribution of family planning in addressing birth outcomes. Equal access to reproductive health services is one approach in reducing the infant mortality rate in the U.S.A. and targets the disparities that exist for low-income and minority women.

The Maryland Department of Health and Mental Hygiene (DHMH) is the grantee for the Maryland Title X funds. The mission of DHMH focuses on reducing unintended pregnancies through equal access to reproductive health services, and its mission is reflected through the DHMH and other sub-grantees of the Title X funds through the State.

The Board is requested to approve and authorize execution of an agreement with the Tufts University. The period of the agreement is upon Board approval through December 31, 2013.

On March 13, 2013, the Board approved the acceptance of a \$50,000.00 grant from The Abell Foundation for the Decision Modeling Tool for Vacant Structure Demolition and Redevelopment Project.

The purpose of the project is to develop strategies to reposition chronically vacant lands and structures for primarily non-residential and greening uses in weaker markets. The project proposes to build local environment amenities on the sites of vacant and abandoned parcels, as well as holding select properties for future development. The project will build upon the Housing Market Typology (HMT) and pursue new approaches and tools for neighborhood economic development.

The Department will be the lead agency and work in partnership with Baltimore Housing, the Sustainability Office and the University of Massachusetts and Tufts University as contractors. The project will be guided by a Decision Modeling Advisory Group which will include members from the Department, Growing Green Initiative and Baltimore Housing. The group will make recommendations for data analysis and test the applicability of the model to impact decisions around vacant, distressed lots.

MINUTESDepartment of Planning - cont'd

The model, which will be delivered in Microsoft Excel, will include multiple objectives reflecting social impacts, economic efficiency and social equity. The deliverables for the project include a narrative and mathematical model of Baltimore City's vacant lot repositioning problem within the context of the Growing Green Initiative. The Tufts University, as one of two subcontractors, will conduct the analysis and develop the model for the project.

Department of Housing and - Land Disposition Agreement
Community Development (DHCD)

ACTION REQUESTED OF B/E:

The Board is requested to approve and authorize execution of a Land Disposition agreement with Adopt-A-Block, Inc., developer, for the sale of the property located at 1718 Holbrook Street.

AMOUNT OF MONEY AND SOURCE:

\$2,000.00 - Purchase Price

BACKGROUND/EXPLANATION:

The project will be funded using private as well as public funds. The Developer proposes to rehab the vacant property into a single family homeownership unit. The developer plans to invest approximately \$56,000.00 into the project. Once the vacant property is rehabbed, it will then be given away to a family in need. For the last 10 years, Adopt-A-Block, Inc. has rehabbed and given away a house per year to a deserving family. With the rehabilitation of the property, this will complete the block. The organization continues to work with the City to eliminate blight.

STATEMENT OF RATIONALE FOR THE SALE BELOW THE WAIVER VALUATION PRICE:

In accordance with the City's appraisal policy, the Waiver Valuation Process was used in lieu of an appraisal. The property was valued at \$4,150.00 and will be sold for \$2,000.00.

The property will be sold to Adopt-A-Block, Inc. for the price of \$2,000.00. It will be sold below the price determined by the waiver valuation process because of the following factors:

- 1) the sale and rehabilitation will help to promote a specific benefit to the community,

MINUTES

DHCD - cont'd

- 2) the sale and rehabilitation will eliminate blight,
- 3) the sale and rehabilitation will promote economic development through the placement of the subject property on the tax rolls, and
- 4) the sale and rehabilitation will increase homeownership in the City.

MBE/WBE PARTICIPATION:

It should be noted that the property is not subject to Article 5, Subtitle 28, of the Baltimore City Code, because the property is being sold for less than \$49,999.00.

UPON MOTION duly made and seconded, the Board approved and authorized execution of the Land Disposition agreement with Adopt-A-Block, Inc., developer, for the sale of the property located at 1718 Holbrook Street.

Department of Housing and - Land Disposition Agreement
Community Development (DHCD)

ACTION REQUESTED OF B/E:

The Board is requested to approve and authorize execution of a land disposition agreement (LDA) with Mr. LaRoyce L. Johnson, developer, for the sale of the property located at 1420 Mosher Street.

AMOUNT OF MONEY AND SOURCE:

\$1,000.00 - Purchase Price

BACKGROUND/EXPLANATION:

The City will convey all of its rights, title, and interest to the property to Mr. Johnson. Mr. Johnson will use private funds for acquisition and rehabilitation of the property as his home.

STATEMENT OF PURPOSE AND RATIONALE FOR SALE BELOW THE PRICE DETERMINED BY THE WAIVER VALUATION PROCESS:

The property is being sold for \$1,000.00. The waiver valuation process was used in lieu of an appraisal and determined the value of the property to be \$5,000.00. The property is being sold to Mr. Johnson for less because:

- 1) the renovation will be a specific benefit to the community,
- 2) this transaction will eliminate blight from the block, and thus eliminate blight from the neighborhood,

MINUTES

DHCD - cont'd

- 3) the sale and rehabilitation will return the vacant property to the tax rolls, and
- 4) the property is being sold for less than the waiver determined value because of the condition of the property which will require extensive and immediate remediation.

MBE/WBE PARTICIPATION:

The property is valued at less than \$49,999.99, therefore, MBE/WBE is not applicable.

UPON MOTION duly made and seconded, the Board approved and authorized execution of the land disposition agreement (LDA) with Mr. LaRoyce L. Johnson, developer, for the sale of the property located at 1420 Mosher Street.

ACTION REQUESTED OF B/E:

The Board is requested to approve and authorize execution of a land disposition agreement with Reverend Terrance L. Brown, developer, for the sale of the property known as 804 E. North Avenue (Block 4002, Lot 003).

AMOUNT OF MONEY AND SOURCE:

\$2,000.00 - Purchase Price

BACKGROUND/EXPLANATION:

The property is a vacant house that the developer plans to stabilize for storage usage.

STATEMENT OF PURPOSE AND RATIONALE FOR SALE BELOW THE VALUE DETERMINED BY THE WAIVER VALUATION PROCESS:

In accordance with the City's appraisal policy, the waiver valuation process was used in lieu of an appraisal for the property, 804 E. North Avenue (Block 4002/Lot 003). The property was priced at \$5,967.00 and will be sold for \$2,000.00.

The comparables used to substantiate the price were 336 21st Street, which sold for \$4,900.00; 2462 Greenmount Avenue, which sold for \$5,000.00; and, 618 Dumbarton Avenue, which sold for \$8,000.00. In determining to sell the property below \$5,967.00 the following factors were considered:

1. the sale and construction of new housing units promotes specific benefit to the community,
2. elimination of blight,

MINUTES

DHCD - cont'd

3. the sale of this property will promote economic development by returning the property to the City's tax rolls, and
4. the sale will eliminate the City's current cost to maintain the property.

ACTION REQUESTED OF B/E:

The Board is requested to approve and authorize execution of a land disposition agreement with Mr. Ibrahim Abou-Taleb, developer, for the sale of the property located at 722 Lennox Street (Block 3443, Lot 011).

AMOUNT OF MONEY AND SOURCE:

\$16,000.00 - Purchase Price

BACKGROUND/EXPLANATION:

The project will consist of the conversion of the vacant property, to be sold as a single-family unit. The purchaser plans to invest approximately \$30,000.00 into this project.

The sale of this property once developed could generate an estimate of \$1,000.00 in real estate property taxes to the City. Once transferred and redeveloped the property will be active on the tax rolls of Baltimore City, thereby preventing tax abandonment.

The property will be sold at market value.

AMOUNT OF MONEY AND SOURCE:

\$8,000.00 - Purchase price

BACKGROUND/EXPLANATION:

The property is a vacant lot on which new construction will be built and it will be used as a for-sale single family home.

STATEMENT OF PURPOSE AND RATIONALE FOR SALE BELOW THE APPRAISED VALUE:

An appraisal was obtained for the property located at 1214 Union Avenue and it was valued at \$10,550.00. The sale price is justified because of the following factors:

1. the sale and construction of new housing units promotes specific benefit to the community,
2. elimination of blight,
3. the sale of this property will promote economic development by returning the property to the City's tax rolls, and

Department of Housing and - Operating Expense Loan
Community Development (DHCD)

ACTION REQUESTED OF B/E:

The Board is requested to approve a HOME Investment Partnerships Program Community Housing Development Organization (CHDO) Operating Expense Loan to Episcopal Housing Community Development Corporation in its capacity as a certified CHDO. The Board is further requested to authorize the Commissioner of the Department of Housing and Community Development (DHCD) to execute any and all documents necessary to effectuate this transaction subject to review and approval for form and legal sufficiency by the Department of Law.

AMOUNT OF MONEY AND SOURCE:

\$25,000.00 - 9910-921994-9610

BACKGROUND/EXPLANATION:

The Cranston-Gonzalez National Affordable Housing Act of 1990 created the federally funded HOME Investment Partnerships Program. The HOME Program created the non-profit entity called a CHDO with the specific purpose of carrying out elements of the participating jurisdiction's housing strategy.

The Episcopal Housing Community Development Corporation was certified as a CHDO on January 15, 2013.

The policy of the City's HOME Program stipulates that CHDO operating expense loans must be tied to a specific housing development project which will assist in defraying the additional costs to the organization. The Episcopal Housing Community Development Corporation agrees by the acceptance of the CHDO Operating Expense Loan that at a minimum it will continue to develop a viable HOME project known as Ashburton Apartments. The 24 unit substantial rehabilitation project is located in the Central Forest Park neighborhood and must be

If the borrower does not commence a HOME project within the 24 months, the operating expense loan funds advanced will become a fully amortizing loan to be repaid in equal monthly installments over a two year period commencing at the end of the 24 month period, with interest equal to the prime rate of interest declared by the United States Treasury plus four percent.

LOAN TERMS AND REPAYMENT

A. Interest Rate

During the Operating Loan Period the interest rate will be 0% per annum on sums advanced.

B. Term

The Operating Loan will not exceed 24 months.

C. Repayment

Episcopal Housing Community Development Corporation has begun the development of Ashburton Apartments, 24 Units of rehabilitated rental units. This project is tied to this Operating Expense Loan such that the HOME requirement of having a HOME project being developed within 24 months of closing on the Operating Expense Loan (the "Closing Window") is met. The outstanding principal balance of the Operating Expense Loan will be forgiven at project completion.
