EBD is in the process of transferring ownership of the property to the Baltimore City Housing and Community Development. After the acquisition is finalized, the DHCD will allow the Mayor’s Office of Human Services to occupy the premises. The property is to be used by the Mayor’s Office of Human Services to operate a Community Action Partnership Site, providing low-income City residents with utility assistance and supportive services. In order to avoid a disruption of services to City residents while the property acquisition is completed, the Mayor’s Office of Human Services requests that the Board execute this Right-of-Entry Agreement.

The Board is requested to NOTE receipt of the following Audit Reports:

President: “The first item on the non-routine agenda can be found on page 70 item 1, The Department of Audits, Audit Reports Baltimore City Police Department Death Relief Fund for Years Ending December 31, 2017, 2016, and 2015. Will the parties please come forward?”

Acting City Auditor: “Good morning members of the Board.”

President: “Good morning.”

Acting City Auditor: “My name is Audrey Askew, Acting City Auditor. The first audit is the Baltimore City Police Department Death Relief Fund Audit of the Financial Statements. Our audit objective was to determine if the Death Relief Fund Financial Statements were properly stated at the end of each calendar year 15, 16 and 17. In our opinion, the Financial Statements present fairly, in

all material respects, the financial position of the Baltimore City Police Department Death Relief Fund for the Years Ended December 31, 2017, 16 and 15. If you turn to page 3, when we look at the balance sheet the total assets comprised primarily of Investments. Investments decreased in 2016 due to the large number of payments and death benefits. There was no debt associated with the Fund. For the Statement of Revenue Expenditures and changes in fund balance given the amount of expenditures related to the death benefits in 2016, the change -- the change resulted in a large deficit balance and this -- this is the nature of the funds so that would occur. Death benefits for the -- by year for 2017 there was 4 deaths, resulting in $40,000.00 in payments. Sixteen, (2016) 14 deaths, $140,000.00 payments, and 2015 there were 2 deaths, $20,000.00 payments and we’re talking about deaths of sworn officers, civilians, the Crime-Lab Accounting Department active

member deaths. The next audit, so they received an unmodified opinion, which is a clean opinion. The Mayor’s Office of Human Services Performance Audit.”

Director of Finance: “-- before you get started.”

Acting City Auditor: “Okay.”

Director of Finance: “Good Morning, Mayor Pugh, President Young, members of the Board, Comptroller Pratt. Uh -- as it relates to uh -- the audit which the um -- Ms. Askew just spoke to on behalf of the Police Department uh -- we want to say thank you for uh -- the Audit Performance that was done and the Baltimore City Police Department concurs with the audit results.”
Acting City Auditor: “Mayor’s Office of Human Services Performance Audit, Fiscal Years Ended June 30, 2016 and 2015. Our audit objective um -- was for the performance Audit was to determine whether MOHS, the Mayor’s Office of Human Services met it target.”

President: “Um -- um -- Audrey, hold up for one minute. Um -- the second item on the non-routine agenda can be found on page 70 item number 2, Department of Audits, Audits Report, Performance Audit Report Mayor’s Office of Human Service, Fiscal Years Ending June 30, 2016 and 15.”

Acting City Auditor: “Again, I repeat that the audit objective -- the objective of our Performance Audit was to determine whether MOHS met its targets for selected Performance Measure Targets of the Head Start Program and the Homeless Service Program for Fiscal Years Ended June 30, 2017, 16, and 15. The first Performance Measure was on Head -- Head Start, it was the percentage of enrollment during the contract period. Um -- the target was met. MOHS reported and the Department of Audits verified that -- that the Head Start program met its Fiscal Years 2016 and 2015 targets
of 100% for the percent of enrollment during the contract period. Targets for number of students or children receiving Early Head Start/Head Start Services for both years was 759. Also, there was adequate documentation to support the number of children enrolled in the program at any given point in time. The program’s target is based on the total amount of funding received from the Department of Health and Human Services divided by the average cost per child. If you turn to page 7, the next Performance Measure or measures we looked at was number 1, Homeless Prevention. The percent of households who received Eviction Protection Grants that remain housed for at least 3 months, and the permanent housing for the homeless, the number of eligible clients who maintain permanent housing for 6 months or longer. Finding 2016-001: MOHS was not able to support its Fiscal Year -- Fiscal Year 16 -- 2016 and 2015 targets and actual amounts for the above Performance Measures. According to MOHS, the person who submitted MOHS -- MOHS’s targets for FY’s 2016 and 15 Performance Measures
included in the City’s Budget Books is no longer employed by MOHS. Accor -- also, according to a note in the City’s 2018 and 2017 Budget Books, these measures were updated in 2017, as the United States Department of Housing and Urban Development revised data standards and definitions. In addition, supporting documentation to assist with amounts supported were not maintained by MOHS. We recommend MOHS develop a system and implement controls to maintain records to support established targets and actual amounts for the above measures, even if Performance Measures are no longer reported in subsequent years Budget Books. Would you like to address this one or would you like me to --”

Mr. Terry Hickey: “I’ll do both – when you get done, if you don’t mind.”

Acting City Auditor: “Okay -- Okay. When you get done?”

Mr. Hickey: “Thank you.”

Acting City Auditor: “If you turn to page 9, the next Performance Measure was on Temporary Housing for the Homeless. We looked at

MINUTES

the percent of persons moving from temporary to permanent housing. Finding 2016-002: MOHS reported that it did not meet its 2016 and 2015 targets. During audit testing, we noted that the amounts reported in the City’s Budget Books were unreliable. For 2016 Target Performance Measure reported in the City’s Budget Book was 100%. However, according to a Homeless Service Program Analyst, the correct target should have been 60%. The actual amount reported in the Fiscal Year 2018 Budget Book was 30%. But, according to MOHS Program Analyst, the correct amount should have been 42%. Regardless, the target was not met. For Fiscal Year 2015, the Target Performance Measure reported was 60%. The actual amount reported in Fiscal Year 17 Budget Book was 50%. But, was changed to 41% in the for -- in the 2018 Budget Book. We were later advised by MOHS that the correct amount should have been 48%. Regardless, that target was not met. We recommend MOHS establish procedures to ensure that Performance Measure Targets and actual amounts are
accurate, reliable, and supported by adequate documentation. In addition, we recommend MOHS identify and address causes for not meeting the established targets. Finally, we recommend revisions to prior year Performance Measures Targets and/or actual amounts not be made prior to approval by the Department of Finance. However, those targets should not be changed in subsequent year Budget Books without adequate disclosure, in order to avoid misleading performance results. In conclusion, based on testing performed on MOH -- MOHS Performance Measures, the Department of -- of Audits concludes with several deficiencies. Number one, Agency changes made to Actual Output for Performance Measures makes it challenging to regulate the Budget Book process. This minimizes users’ ability to rely on the accuracy of the information/data in the Budget Books and Number two, there’s limited to no controls within the Agency or BBMR related to fluctuations made to the Performance Measures.”
President: “Okay”.

Mr. Terry Hickey: “Good morning Madam Mayor, Mr. President, Madam Comptroller members of the Board. Um -- first of all I want to note --”

Comptroller: “State your name.”

Mr. Hickey: “Oh, I’m sorry, Terry Hickey, the Director of the Mayor’s Office of Human Services. Um -- MOHS concurs with the recommendations that are in the audit report. Uh -- we note the successful audit of Head Start, but we think that as far as the Homeless Services context goes, it’s a contextual piece and so we drafted a uh -- detailed response to the audit report that’s included within. But if I may, I wanted to highlight a couple of key points here. Um -- this Performance Audit looks back to 2015, 2016. It was time of um -- great turbulence and change for MOHS. Uh -- they were in the process of a major effort to increase the quality of its data collection and align its outcome measures to brand new HUD standards, the first in decades. We were converting
To a brand new database. We were implementing new Federal Performance Measures and we were also trying to convince all of our grantees to enter their data into our system, often for the first time. We are completely dependent upon the data entered by the groups that we fund to drive performance outcomes as mainly a funding entity. Um -- my team has uh -- worked um -- uh -- the events that -- um the discrepancies in the audit in large part were led to by our staff trying to correct a lot of these historical issues when we came on board -- um soon after the Mayor took office. My team has worked closely with BBMR over the last year to address these issues. Our outcome measures have been carefully planned and communicated. We have a strong data team. We’ve a brand new stable database and clear outcomes aligned with Federal and State requirements and clear Mayoral priorities. I can assure the members of this Board and also the general public we’ve already taken steps to address all of the Auditors’ concerns and put new systems in place. Um -- and I want to make clear to the Board, and
also the taxpayers its important to note that MOHS is a careful -- car -- caretaker of tax dollars. Our agency is subject to extensive Federal oversight. We are required to submit an Annual Action Plan, Annual Performance Reports, and reports now on data quality annually. We document all our program expense, provide oversight on all of our non-profit agency partners. HUD ensures we complete our mission and remain in compliance by reviewing and approving these reports, conducting an annual program and fiscal monitoring. In addition, we are subject to the Annual Single Audit that is also reviewed by HUD, and finally, we report all of our outcome data regularly to the Continuum of Care on System Performance and we are getting ready to publish a Comprehensive Performance Report, and a publicly accessible dashboard that will let citizens in real time go on the website any day and see where we are towards our performance goals.”

President: “Any questions. Okay. So, um -- both audits are so

NOTED.”
