UPON MOTION duly made and seconded, the Board approved and authorized execution of the grant to the Parent Activity Fund, for the Baltimore City Head Start Policy Council.
Department of Housing and Community Development (DHCD)

ACTION REQUESTED OF B/E:

The Board is requested to approve and authorize execution of a memorandum of understanding (MOU) with the Bon Secours Urban Medical Institute (UMI) and the Bon Secours Baltimore Health Corporation (Bon Secours).

The Board is further requested to authorize the Commissioner of the Department of Housing and Community Development to execute any and all legal documents to effectuate the terms and conditions in the MOU, subject to review and approval for form and legal sufficiency by the Department of Law.

AMOUNT OF MONEY AND SOURCE:

No additional City Funds are required

BACKGROUND/EXPLANATION:

On August 3, 1995, the Board approved a loan of $2,000,000.00 to the UMI, a subsidiary of Liberty Medical Center, Inc. (Liberty) (City Loan). At that time, Liberty Hospital owned and operated an acute care hospital (Liberty Hospital) located at 2600 Liberty Heights Avenue (Liberty Campus). Between 1993 and 1995, Liberty Hospital raised a total of $6,000,000.00 through $3,000,000.00 in State grants, the $2,000,000.00 City Loan and $1,000,000.00 of its own reserves for design, construction and equipping of a 40,000 square foot building to house a comprehensive health-care institute to serve a chronically poor population suffering from an ever widening disparity in its health status. Construction of the building by the UMI was completed in 1996.

The City’s investment consisted of a $370,000.00 Community Development Block Grant Loan and a $1,630,000.00 Community Development Bond Loan. Under the terms of the City Loan, the rate of interest was zero percent per annum and repayment of principal and interest, if any, is deferred as outlined below:
DHCD – cont’d

"Notwithstanding any other provision herein contained to the contrary, payment of the principal amount of the Loan, all interest and all other sums due hereunder either shall be (a) deferred until Maker (i) sells or refinances (without Lender's approval) the property which comprises the Project, or (ii) significant (in Lender's sole judgment) changes in the use or purposes of the Project from that described in the Memorandum of Approval of the Loan by Lender's Board of Estimates, dated August 2, 1995, (iii) failure to comply with the Regulatory Requirements to the extent applicable, or (iv) if repayment of the Loan is accelerated pursuant to the terms of the Loan Documents, the principal amount of the Loan and all accrued and unpaid interest and other sums shall immediately become due and payable; or (b) forgiven upon the expiration of twenty (20) years from the date of issuance of a certificate of occupancy following completion of construction of the Project."

In 1996, Bon Secours Baltimore Health Corporation (Bon Secours), which owns and operates Bon Secours Hospital acquired and assumed operation of the Liberty Hospital and the UMI. In 1999 Bon Secours closed the Liberty Hospital facility. While Bon Secours has continued to operate outpatient healthcare services on the Liberty campus, it has incurred significant financial losses and has made a decision to sell the Liberty property and consolidate its healthcare operations in its other West Baltimore sites. Accordingly, Bon Secours has entered into a Letter of Intent with Baltimore City Community College (BCCC) to sell 18.929 acres of the Liberty Campus, including the UMI site to the BCCC. The sale of the property will assist Bon Secours in stabilizing and strengthening its operations in West Baltimore. The programs operated by Bon Secours and the UMI will be consolidated with programs in other Bon Secours facilities.

The MOU will waive the repayment obligations and forgive the debt for a deferred $370,000.00 Community Development Block Grant Loan and a deferred $1,630,000.00 Community Development Bond Fund loan to the UMI.
Under the terms of the City Loan, the sale of the UMI after the expiration of only 14 of the 20 years would require repayment. Bon Secours has requested that the City agree to waive any repayment obligation upon the sale of the UMI property to the BCCC for the following reasons:

1. In recent years, Bon Secours has experienced significant financial losses, including deficits in nine of the last ten years. The cumulative loss for the five years that ended August 31, 2009 exceeded $42,000,000.00. Over 68% of that $42,000,000.00 loss was recorded in the last two years of the five year-periods, with losses of $19,500,000.00 in FY2008 and $9,500,000.00 million in FY2009. Bon Secours has had serious concerns that continued losses at this level would jeopardize its ability to sustain its operations in West Baltimore. Thus, in an effort to stabilize its operations, Bon Secours developed a plan to achieve long-term financial sustainability while serving the health-care needs of the people in the communities it serves. In order to help maintain its operations while it implements its plan, Bon Secours requested a one-time $5,000,000.00 operating grant from the State of Maryland. In its 2009 session, the General Assembly agreed to give Bon Secours $5,000,000.00 of operating support because it recognized the importance of Bon Secours as a health-care provider in the West Baltimore community.

2. While the $5,000,000.00 operating grant from the State was enormously helpful in stabilizing operations, Bon Secours must find every way possible to improve the efficiency of its operations. The sale of the Liberty campus will provide Bon Secours with another one-time infusion of operating capital through payment of the $6,800,000.00 purchase price. Additionally, with the consolidation of the programs from UMI into other facilities already owned and operated by Bon Secours, the system will achieve significant operating savings without compromising the services provided to the residents of West Baltimore.
3. Bon Secours is a major provider of charity health care in one of Baltimore's most underserved communities, with an average of $6,600,000.00 in charity care annually over the past four fiscal years, as well as an average of $13,200,000.00 annually in other direct community benefit services (community health improvement services, community building activities, financial and in-kind contributions, etc.) over the past two fiscal years.

4. In addition to providing health-care services to some of Baltimore's most vulnerable residents, Bon Secours is an important anchor in a community that has few strong institutions. Bon Secours is a major employer in its community, employing approximately 1,000 people in full-time, part-time or contractual jobs at the Hospital and through its wide-ranging community-based services. Bon Secours has also built much of the affordable housing in its community, with 558 units of affordable housing for families and seniors throughout West Baltimore.

An appraisal was prepared by Colliers Pinkard and indicates an estimated market value of the property to be $8,300,000.00

With the full support from its corporate parent, Bon Secours Health System, Inc., Bon Secours has committed that all of the proceeds from the sale of the UMI will be retained within the Bon Secours Baltimore Health System. The sale proceeds will allow Bon Secours to maintain and expand its critically needed health-care services in the West Baltimore community, especially those focused on primary and preventative care, chronic disease management, mental health and substance abuse. Through its own serious and sustained efforts, and with the very important $5,000,000.00 grant from the State, Bon Secours has made great progress toward its goal of financial sustainability. If Bon Secours were required to repay a portion of the City Loan, the payment would further jeopardize Bon Secours' financial sustainability as an institution and would be a significant setback to the progress Bon Secours has made.
DHCD - cont’d

Bon Secours has also committed that it will continue to provide the services that have been provided at the UMI for the balance of the original 20-year period. These services will be provided from other Bon Secours’ facilities as outlined in the MOU. If Bon Secours were forced to close all of its operations in Baltimore for any reason before the end of the 20-year period, it will repay a pro rata portion of the City Loan based on the unexpired portion of the 20-year period.

Because of the changes that have been realized in and around the neighborhood, and in light of the financial circumstances associated with Bon Secours, the Department believes it is in the best interests of the City to waive the obligation to repay the loan upon the sale of the Liberty Campus despite the fact that the loan obligation still has six years to run. The waiver of the repayment provisions in connection with the loan upon the sale of the project will further ensure Bon Secours ability to maintain and expand the critical programs and services needed in the West Baltimore community.

Bank factory, serves as both studio space for M.F.A. students and office space for the community, including the Greater Baltimore Cultural Alliance. MICA’s request to the CLP will offset streetscape costs as part of a larger renovation of MICA’s Studio Center. In addition to the funds requested through the CLP, the MICA is contributing $158,000.00 of its own funds.

4. THE REINVESTMENT FUND (TRF)               $500,000.00

   CLP

The TRF is seeking funding to seed two revolving loan funds
designed to support sustainable projects that reconnect
low-income city residents to the regional economy and to
reinvest in the Baltimore’s core neighborhoods.

While available for projects that benefit low-income
communities across Baltimore, the project will focus on
projects in East Baltimore. Together these funds will
target projects in communities that share a set of
characteristics: 1) they are places where the TRF has done
extensive data analysis and supported planning efforts, 2)
they have great demand for affordable housing and high
quality amenities, 3) they have strong anchor institutions
that can serve as community assets, and 4) they are also
places where the TRF has a strong track record of activity
and deep community relationships.

The first is a loan pool to support housing development
priorities. The second is a loan pool targeting projects
that further strengthen neighborhoods by supporting the
development of community amenities such as quality charter
schools, community facilities, food markets and businesses.
Combining these varied investments, the TRF aims to
stabilize and diversify neighborhood real estate markets.

UPON MOTION duly made and seconded, the Board approved and
authorized execution of the foregoing local government
resolutions. The Comptroller ABSTAINED on Item No. 1.
UPON MOTION duly made and seconded, the Board approved all of the Personnel matters listed on the following pages: 3295 - 3307

Department of Law - Settlement Agreement, Release, and Covenant Not to Sue

ACTION REQUESTED OF B/E:

The Board is requested to approve and authorize execution of a Settlement Agreement, Release, and Covenant Not to Sue with Lowestfare.com, LLC, Travelweb, LLC, and priceline.com Incorporated.

AMOUNT OF MONEY AND SOURCE:

($390,000.00)

BACKGROUND/EXPLANATION:

The Law Department recommends a settlement of the claim asserted by the City against Priceline.com and related companies in its internet booking hotel tax litigation that has been pending in U.S. District Court for several years. Under the terms of the settlement, the City would receive $390,000.00 from these defendants to settle their past and estimated future liability up to and including September 15, 2014. The settlement amount represents a compromise on estimated liability, which reflects various considerations involving the risks of litigation and the benefits of early payments of amounts that would be due in the future. From the 2014 date forward, the settling defendants and the City would either resume their litigation disputes over the applicability and validity of the hotel tax law as applied to them, or reach a final settlement and accord.
Law Department – cont’d

Outside counsel will be entitled to a contingent fee out of these settlement proceeds in accordance with the City’s retainer agreement with them and a portion will be payable to the Baltimore Area Convention and Visitors Association as in the case of other hotel tax proceeds. Settlement discussions are either pending or awaiting resumption with three other defendant groups.

Department of Law - Contract for Legal Services

**ACTION REQUESTED OF B/E:**

The Board is requested to approve and authorize execution of a contract for legal services with Ballard Spahr, LLP. (Ballard). The period of the agreement is effective upon Board approval through December 31, 2011.

**AMOUNT OF MONEY AND SOURCE:**

$55,000.00 - 9916-913900-9197-910025-703032

The $55,000.00 is the initial amount. The total amount cannot be estimated at this time.

**BACKGROUND/EXPLANATION:**

The Department desires to retain the Law firm of Ballard to assist the Department of General Services (DGS) in its evaluation of strategies to promote energy conservation and efficiency for the City, City residents, and commercial and industrial concerns.

The total amount to be expended for the engagement cannot be estimated at this time. The initial part of the work is at a set price of $55,000.00. Any additional work will be done on an hourly basis at a discount rate of 17% for partners, and 13% for associates, or a blended rate for partners and associates, whichever the City deems appropriate. The funds for these services are a Block Grant from the Federal U.S. Department of Energy Conservation.

The Maryland Department of Energy estimates of power supply requirements for the next decade show a need for additional energy sources. The DGS is using funds from the Federal Energy Efficiency and Conservation Block Grant to evaluate strategies to address this projected deficit and to ensure an energy supply for City operations. The legal services under this agreement will assist DGS in evaluating these strategies.
The Law Department issued an RFP to seven law firms, with responses due in three weeks. After reviewing the responses, the Law Department and the DGS recommend selection of Ballard. Ballard has the required expertise and experience to assist the DGS in this matter. Its proposal has the best combination of price and expertise.

Ballard will provide all legal services necessary for the City to explore and evaluate energy efficiency and conservation for itself, its residents, and commercial and industrial concerns located in the City. The services will include review of the legal feasibility of having an entity that can facilitate public and private financing of energy efficiency, conservation, and alternative energy production facilities. Depending upon the results of the legal feasibility study, the service may include legal work associated with implementing such strategies or creating such entities as the City determines are appropriate. There are four phases to the work: permissibility of a Baltimore City Energy Utility, implantation of utility recommendations, feasibility of a property assessed clean energy or other loan guarantee option, and implementation of such an option. The City has the right to decide whether it wishes to continue with Ballard for any phase after the first phase, and determine the permissibility of a Baltimore City Energy Utility.

President: “The first item on the non-routine agenda is located on Page 94 #17, Solicitation No. B50001027. Will the parties please come forward?”

Mr. Joe Mazza, City Purchasing Agent: “Good morning. The Bureau of Purchases recommends that the Board approve an increase for Solicitation No. B50001027 for Office Supplies to Rudolph’s Office and Computer Supply, Inc. in the amount of $1,424,000.00. This increase is in accordance with the additional award which states that the vendor will meet the City’s requirement more or less, and this is an increase to meet the requirement for the remaining year.”

Mr. Arnold Jolivet, Maryland Minority Contractors, Association, Inc.: “Thank you. I sent your Honorable Board a letter this morning and I am not going to rehash anything that was put in the letter. I think I made my position somewhat clear. I have since early this morning talked to Mr. Mazza and I think that
with a few exceptions I would like to withdraw the protest on this particular item. Mr. Mazza and I did talk and I don’t agree with the terms and conditions of these types of contracts, because it allows an indefinite amount of money to be put into it, but that is perhaps is a moot issue. I am not going to rehash that here. When these contracts come out again, I think that the public ought to have a right or the opportunity to see what is the contract is being structured because they tend to perpetuate themselves and they tend to favor one or two vendors. But, that is an issue that I think would be unfair to ask this Board to address this morning. I will, of course, take it up with Mr. Mazza and the Purchasing Bureau at a later date, and I don’t want to as I said I don’t think it would be appropriate for me to address the Board on that. So, if I can, I would like to respectfully withdraw just that protest on that item.”

President: “Okay. What about Page 95 #18?”

Mr. Jolivet: “Well, I did talk to Mr. Mazza on that also. I am not -- I am not necessarily in agreement with what the Board has proposed. But, in the real world, I understand that the Board has -- the City has to continue with these services. On the other hand, I would ask this Board to be sensitive to the fact that we are not following the tenor and letter of the Charter. The Charter says that these types of contracts have as a manner of mandatory requirements, have to be bid. I have said this repeatedly before this Board, I don’t want to rehash that. But, I think Mr. Nilson understands that. He knows this law as well as anybody in the whole world, and all I’m saying, I have clients who have asked me to appear before this Board this morning to try to impress upon this Board the need to have the -- to be fair in the procurement, and when you allow an agency to award a contract to the same entity where the contract has

officially expired that is a clear violation. I think I made it clear in my correspondence to the Board what the law is on that. I don’t want to rehash that. There is no need. So, I am asking the Board just to be sensitive to what the requirements are. That is all I am asking. I am not asking the Board to do anything other than being in conformity with the clear dictates of the law, and Mr. Nilson, can’t argue with that. I find it difficult for anyone to argue with that. One last thing I want to point out and I’ll stop. There is a yearning need; some small minority firms and not necessarily minority firms, but there are firms out there who want to compete with the City, for City business. But, they feel constrained and left out or excluded largely because the process sometimes is and I don’t think it is intentional. I have been here in the City probably as long as anyone, and I have watched it and I have observed it, it can be intentional, of course, at times, but many of it is not necessarily intentional. But, nonetheless, the effect is same,
and what I am saying is, the system tends to perpetuate itself and favors persons who already doing business with the City. We need to urgently open this system up to other people, because the private market now is not that good. There are a lot of people who are depending on business opportunities with the City, and I am hoping that the City would be sensitive that we ought to be fair and open to everybody.”

President: “We hear you loud and clear and I did meet with Mr. Mazza with the same concerns that you just raised. So, thank you for withdrawing your protest and I am quite sure that Mr. Mazza heard exactly what you said and the Board heard what you said and we will be paying attention to what is going on with the bidding.”
