The Office of Engineering & Construction requests approval of the proposed Change Order for W.C. 1190. While excavating for the generator equipment pad, an old buried structure was found. After the investigation, it was determined that it was the Roundhouse Foundation built in 1911 and demolished in the 1960’s. The Design Engineer, Whitman, Requardt & Associates, LLP acknowledged that they had inadvertently omitted to show it on the drawings. Subsequent discussions with Whitman, Requardt & Associates, LLP, Environmental Services, the Plant Personnel, and Construction Management took place. It was agreed to move the equipment from the old foundation to preserve the integrity of the Montebello-Cromwell finished water tunnel that is directly underneath the Roundhouse foundation. The Department concluded that placing a fuel tank over the tunnel was too risky, as well, vibration caused by the demolishing of the foundation walls for the duct banks and vaults could jeopardize the integrity of the tunnel. The Office of Engineering & Construction directed Whitman, Requardt & Associates, LLP to redesign the generator, fuel tank, load bank and primary switchgear of the Roundhouse foundation at no additional cost to the City. The Office of Engineering & Construction put Whitman, Requardt & Associates, LLP on notice that the City will seek compensation for the additional construction costs that resulted from their design omissions.

STV, Inc. will provide design and biddable documents for Stormwater drainage system and storm water management projects listed in the WIP.

Bureau of Procurement - Acceptance of Technical Proposal and Opening of Price Proposal

ACTION REQUESTED OF B/E:

The Board is requested to approve acceptance of the technical proposal for B50005249, Diversity and Labor Compliance System from AskReply, Inc. d/b/a B2Gnow, and open their package containing their price proposal.

The Board is further requested to authorize the return of the remaining price proposal to the proposer Early Morning Software d/b/a Prism Compliance Management found to be non-responsive by the Board.

AMOUNT OF MONEY AND SOURCE:

N/A

BACKGROUND/EXPLANATION:

On March 31, 2018, the Board opened two technical proposals for the Diversity and Labor Compliance System. Vendors were solicited by posting on CitiBuy, eMaryland Marketplace, and in local newspapers. One of the proposals received was found responsive and subsequently reviewed by the evaluation committee for technical scoring. The responsive proposal scored by the evaluation committee met the City’s minimum technical score requirements for price opening.

A PROTEST WAS RECEIVED FROM EARLY MORNING SOFTWARE DBA PRISM COMPLIANCE MANAGEMENT.
RE: B50005249/Protest

To the Honorable President and Members:

My company submitted a bid/proposal for the above contract. This solicitation had been issued previously and resulted in a recommendation for award to the same firm presently recommended for award. However, that solicitation was cancelled and rebid due a finding that the Bureau of Purchases had improperly permitted the proposed awardee to submit its bid guarantee after bid opening. The bid check submitted by the proposed awardee with its bid was not certified as required.

Bids for the current solicitation were submitted in two separate envelopes, one for price and the other technical. Bids were opened on March 28, 2018. By letter dated March 29, 2018, we were informed by the Comptroller’s office that our bid was considered non-responsive for failure to include the required bid guarantee. We were told to pick up our bid package by June 27, 2018, or risk that it would be discarded. A copy of that letter is attached as Exhibit 1.

On April 4, 2018, we sent a letter to the Comptroller advising that we had submitted the required bid guarantee in the form of bid bond in the envelope with our price proposal and we included a copy of the bond with our response. A copy of our letter and enclosure is attached as Exhibit 2. We were then told that the Purchasing Agent considered our bid non-responsive because the bid bond should have been included in the envelope with the technical proposal. The Comptroller stated that in similar situations in the past, the City would evaluate the technical proposals pending the opening of price proposals when it could be confirmed as to whether a bid bond had been submitted. We were told that the Purchasing Agent had been made aware of that history, but continued to maintain that our bid was non-responsive.

On June 18, 2018, I had an opportunity to discuss this situation directly with the Purchasing Agent. She indicated that she was upset that her recommendation for award in the first solicitation had been rejected because she continued to believe that it was within her discretion to permit acceptance of the post bid opening certified check. She acknowledged having been advised by the Comptroller’s office of the City’s policy, but because our proposal had been formally declared non-responsive and due to our successful protest of her decision in the first solicitation she lacked the discretion to follow the advice from the Comptroller. Unless directed otherwise by the Board of Estimates, she stated that our technical proposal would not be evaluated.
We then sent a letter to each member of your Honorable Board members seeking a determination that our technical proposal could be evaluated. Because we had not received a response from the other four Board members, the Comptroller having already stated her position, on June 27th, I visited the Comptroller’s office to retrieve our proposal because I believed that was the only way to preserve our work product. The Comptroller’s office did not have the envelope containing our technical proposal and did not know where it was, but did return our price proposal. Before leaving the office, I opened the price proposal envelope so that all could see the enclosed bid bond. I was told that once the bid envelope was returned to me I could not hand it back.

We maintain that we were confronted with this dilemma by the refusal of the Purchasing Agent to permit the evaluation of our technical proposal, in spite of the advice from the Comptroller. We believe that the Purchasing Agent’s stance was motivated not by the best interest of the city or fair and equitable treatment of bidders, but by continuing resentment over the rejection of her initial decision. We should never have been placed in a position where we had to choose between picking up our proposal or have it thrown away. Knowing that we did, in fact, submit a bid bond with our bid, it would be manifestly unfair to award this contract without even evaluating our proposal.

We urge you not to do so but, instead, unless our price proposal can be reinstated, to cancel this solicitation.

Respectfully submitted,

Donna S. Stevenson
President

Re: B50005249, Diversity and Labor Compliance System(s)

Dear Ms. Stevenson:

Please be advised that your bid, opened on March 28, 2018 on the above-mentioned contract, was considered NON-RESPONSIVE due to your company's failure to proffer a bid guarantee as mandated by the solicitation instructions.

For this solicitation, bids must be accompanied by a bid bond, certified check, cashier check or other official bank check equal to $8,000.00. Your company failed to submit a bid guarantee for this contract. Since a bid guarantee was not received with your bid submission at the time of the bid opening as outlined in the solicitation instructions, the City will not accept your bid.

Please make arrangements to pick-up your bid package, which will be available in City Hall, Room 204, until June 27, 2018. Materials not picked up by this time will be discarded.

For complete information on all procedures to follow when submitting a contract for the Bureau of Procurement, please contact them at 410 396-5700. For contracts other than the Bureau of Procurement, please contact the appropriate City Agency.

Sincerely yours,

President: “The first item on the non-routine agenda can be found on Page 89, Bureau of Procurement, Acceptance of Technical Proposals and Opening of Price Proposal. Will the parties please come forward? Will the parties please come forward? Good morning.”

Ms. Erin Sher Smyth: “Good morning. Madam Mayor, Mr. President, Madam Comptroller, honorable members of the Board. Erin Sher-Smyth City Purchasing Agent for the Department of Finance Bureau of Procurement. The Bureau of Procurement is recommending that the Board open the Price Proposal of AskReply, and accepting the Technical Proposal as the only vendor who submitted a responsive technical proposal, in response to B50005249, Diversity and Labor Compliance System. Ah -- the Board found the proposal of Early Morning Software non-responsive and the bidder retrieved and opened their sealed Price Proposal. Which I believe makes their protest moot. Thank you.”

President: “Thank you.”

Ms. Stevenson: “Good morning --.”

President: “Good morning.”
Ms. Stevenson: “Um -- Board of Estimates. Um -- Madam Mayor, ah -- Mr. President and um -- Madam Comptroller. Um -- I stand before you --.”

President: “You got to state your name.”

Ms. Stevenson: “I’m sorry. I’m Donna Stevenson, President and CEO of Early Morning Software. Ah -- Early Morning Software submitted a proposal ah -- timely and responsive. Um -- our bid proposal -- I mean Bid Bond ah -- was placed in our Price Proposal. Ah -- upon being notified that our Bid Bond was not seen in the Technical Proposal and that the ah -- proposal was being rejected, we immediately produced proof from our electronic submission, that the Bid Bond was in the Price Proposal. Um -- in addition, at that time um -- that we notified the Comptroller that we asked them to also notify the Board of ah -- the Bureau of Purchases of the same so that our technical proposal could be considered, and if we failed to produce the um -- Bid Bond in the price proposal then our proposal could be um -- elim -- eliminated. Ah -- we
felt that that was a uh -- fair and um -- equitable um -- solution. In fact we ah -- know that that is a practice that the City has done in the past. Um -- when I did not hear back, I reached out to the Comptroller’s Office and was told that the decision was in the hands of the Purchasing Agent. I then reached out to the Purchasing Agent and -- and was told emphatically that I disrupted her process for awarding this most technical -- um - propose -- um -- award to the most highly technically qualified vendor the last time, and that she would not do so unless; you all directed her to. Um -- and then further, I explained to her I said to her well in the original proposal -- that was let -- you used your discretion to allow the um -- um -- the bidder that she’s proposing today, AskReply, you allowed them to correct their Bid Bond. They didn’t even submit a bid bond. They submitted a company check which again my experience in doing business with the City, those bo -- those um -- proposals in the past have been thrown out, because its not only not -- the right um -- form, but it’s also not um -- proper. They submitted a company check. So, um -- I
asked her why would this be any exception and why she would require the -- the Board’s as opposed to making a decision on her own. And she emphatically -- that’s when she stated that I um -- you know kept her from awarding this ah -- in the original ah -- to the most highly technical um -- bidder. Now I will give you three reasons why um -- aside from the fact that I believe our um -- proposal could have been evaluated in a timely manner, ah -- just by her accepting the recommendation of the Comptroller. Ah -- in addition, um -- there are economic benefits to having um -- two proposals. You know, whether the City received competitive prices or not. If you only evaluate one you don’t even know if you have the best solution ah -- for the City of Baltimore. Further in consideration of our business, being in your City over 25 years and contributing to the -- um -- local economy here both as an employer as well as um -- ah -- owner of a build -- building, we accrue benefits directly to the City. In addition, um -- our solution if fairly evaluated you will realize is actually more technically qualified than the current um -- proposed solution. Because the um -- proposed solution doesn’t even allow you to know
if subcontractors are not being paid, which is the essence of the um -- whole solution that the City needs. And if you don’t have that level of transparency uh -- into your compliance processes, therefore, you would not um -- be able to ah -- render the best economic value ah -- to the City.”

City Purchasing Agent: “I would just like to address just one point in that protest, in that pri -- in the prior solicitation, ah -- we followed what our procedures were at the time, which would allow a cure and we exercised that discretion and the current protestant protested that action which is why we then we recommended rejecting all bids and starting over. So that it was a cleaner process. So, in the first case as the um -- protesting vendor said that we overstepped our discretion; she is now urging that we use that discretion in the same manner. And at this point, ah -- I believe that the Board of Estimates um -- should have a written policy, which is in the works so that we can have clarity and consistency. So, the um -- the Procurement Regulations that are I think going to be recommended shortly will have all of these steps and procedures so that we’re all on the same page going forward and that there can be no um -- charge of discretion and abuse thereof.”
Ms. Stevenson: “So, um -- again, tha -- there goes --.”

President: “What we’re going to suggest is that Purchasing go back and review the proposals. That’s what we’re going to recommend. Okay. Um -- because the new information that I’m just hearing ah -- warrants me to um -- ask that you go back and, you know, review the proposal. Um -- can I get a Motion on that? I just made the Motion.”

City Solicitor: “Also moved Mr. President.”

Comptroller: “I Second.”

President: “All those in favor say AYE. All opposed NAY. The Motion carries. Um -- review you know go back and review it and come back um -- again.”

The Department of Audits conducted a review of claims for potential overpayments that remained either unclaimed or unresolved for three or more years. The Department of Finance, Bureau of Revenue Collections sent 47 claim forms to the potential claimants listed on the City’s Abandoned Property Report for fiscal year 2015, dated July 03, 2018. The claim forms contained instructions to complete and return those forms to the Board of Estimates. Under procedures established by the Board of Estimates, twelve claim forms, requesting refunds totaling $13,278.05, were received by the Board of Estimates and forwarded to the Department of Audits for review and recommendation.

The Department of Audits determined that $9,438.03 represents valid refunds to nine claimants resulting from duplicate payments, miscellaneous tax credits or tax reassessment, and recommends that these refunds be approved for payment. It is further recommended that the $9,438.03 be removed from the listing of abandoned property to be submitted to the State by the Department of Finance, Bureau of Revenue Collections.

The Department of Audits also determined that one potential claim received in the amount of $1,712.64 exceeded the amount to be refunded to the claimant and should not have been included in the Abandoned Property Report. The remaining two claims totaling $2,127.38 did not include the proper documentation with the filed

claims. Therefore, it is recommended that the $2,127.38 associated with these two claims be included in the listing of abandoned property to be submitted to the State.

UPON MOTION duly made and seconded, the Board accepted the report and approved the recommendations of the Department of Audits on the refunds of overpayments for the abandoned property report.
