Account: 1001-000000-3572-772800-603051

On July 25, 2018, the Board approved the Interagency Agreement with the Maryland Department of Health (MDH) for the “Assistance in Community Integration Services” Pilot Program, under which the MOHS will provide 100 medically vulnerable homeless individuals with supportive services after they move into permanent housing. As a requirement of funding, the MOHS will transfer to the MDH, in advance, its 50% matching obligation of the total project cost using local, non-federal funds.

Upon receipt of the MOHS’ matching obligation, the MDH will draw down matching federal funds and will transfer back to the MOHS the combined non-federal funds and its corresponding federal match. Due to an oversight, acceptance of the MOHS’ matching obligation and receipt of funding for the initial period of the Agreement, January 1, 2018 to June 30, 2018, was excluded from the approved memo. Therefore, the State required $22,425.00 matching obligation for the same period is included in this memo with the grant award increase of $344,737.00 totaling $367,162.00.

This Amendment to Interagency Agreement will increase the award by $344,737.00 and extend the grant period through June 30, 2019.

ACTION REQUESTED OF B/E:

The Board is requested to approve and authorize execution of the Loan Agreement with the Neighborhood Impact Investment Fund, Inc. (NIIF). The Loan Agreement is effective upon Board approval through December 31, 2048.

AMOUNT OF MONEY AND SOURCE:

$51,700,000.00 - 9910-908221-9588

BACKGROUND/EXPLANATION:

On June 16, 2018, the Board approved a Lease with the Maryland Economic Development Corporation (MEDCO) relating to the Marriott Garage, the Redwood Garage, and the Water Street Garage (together, the “Parking Facilities”). Under the terms of the Lease, MEDCO provided the City $54,314,393.62 as an Initial Rental Installment payment (the “Parking Facilities Proceeds”).

The Parking Facilities Proceeds were appropriated in the City of Baltimore Fiscal Year 2019 Budget under capital program 588-050, the Community Enterprise Program. The Community Enterprise Program seeks to create a new financing program to catalyze creating a public-private investment fund to provide capital to support real estate and business development in underinvested neighborhoods aligned with the City’s goals and strategic community development efforts.

Under the auspices of the Community Enterprise Program, the NIIF, a Maryland nonstock corporation was formed on November 27, 2018. NIIF was created for the following purposes: (i) to act as a neighborhood investment fund to invest in development and redevelopment within areas of Baltimore City that are distressed and suffer from community deterioration and a lack of private investment as depicted on the Eligible Impact Investment Neighborhoods map included in the Loan Agreement as Exhibit A, (ii) to leverage capital investments to the NIIF in order to provide capital or credit-enhancement to businesses and projects
in distressed communities in Baltimore City and catalyze new
development, industry, and inclusive economic opportunities to
meet core community needs, such as housing, employment, community
facilities, services and wealth-building opportunities, and (iii)
to reduce the burdens of Baltimore City utilizing capital in
efficient ways to combat community deterioration and economic
blight, and strategically encourage and empower private investment
for the purpose of community reinvestment.

The term of the Loan Agreement is 30 years at 0% interest. The
balance of the Parking Facilities Proceeds will support additional
efforts under the Community Enterprise Program, including the
Community Catalyst Grants program launched in July 2018 and
expenses related to the creation of NIIF.

The Loan Agreement includes the following key Borrower provisions
and covenants:

• NIIF is required to furnish an Annual Report to the City which
  will include annual audited statements consisting of 1) a
  balance sheet, income statement and statement of cash flows;
  2) a list of outstanding project investments made by NIIF; 3)
  a description of the economic and community benefits as result
  of NIIF’s investments; and 4) a description of any losses or
  material events of default.

• NIIF must deploy at least $20,000,000.00 as investments or
  credit enhancement for investments by June 30, 2024 in the
  Eligible Impact Investment Neighborhoods. In addition, on
  each five-year anniversary, NIIF will report to the City the
  deployment amount for the immediately preceding five-year
  period, which will have equaled at least $20,000,000.00 in
  new deployment for such five-year period.

• NIIF is required to host an annual public meeting to permit
  investors and citizens an opportunity to review NIIF’s
  investment activity.
NIIF agrees to adopt a Diversity, Equity, and Inclusion Policy to support the growth of local, minority, and women-owned businesses and to promote the hiring of Baltimore City residents.

NIIF will maintain in good standing its existence as a Maryland nonstock corporation.

NIIF will be limited in its ability to amend its charter document and bylaws, including its ability to change its corporate purposes from those described above within Baltimore City.

NIIF intends to utilize the loan proceeds for the following permitted uses under the terms of the Loan Agreement:

- To advance community and economic development efforts in economically disinvested or distressed areas of Baltimore City, defined as Eligible Impact Investment Neighborhoods.

- To finance property acquisition, property improvements, equipment purchases, business operations and reserve funds within the Eligible Impact Investment Neighborhoods.

- To invest directly in property ownership or businesses operating within or expanding into Eligible Impact Investment Neighborhoods.

AMOUNT OF MONEY AND SOURCE:

$24,000,000.00 - 9962-906072-9562-900000-706063

BACKGROUND/EXPLANATION:

On August 10, 2016, the Board approved the award of TR 16020, Comprehensive Conduit Facilities Management Services for the total amount of $26,108,286.00. The award was presented incorrectly. The amount presented was for the first year of a five-year contract, and not the entire contract value.

This modification represents funding for years two and three of the contract period. It is the Department’s intent to request incremental funding, annually, until the contract expiration date of February 20, 2022.

The modification will align the current amount listed and approved in the Expenditure Authorization Request with the actual amount awarded pursuant to the contract. This modification will enable the Department to continue its efforts to revitalize the City’s conduit system – a vital and important piece of City infrastructure that is integral to several current and future City programs.

The funding source for the contract is the City’s Conduit Enterprise Fund, which is funded through revenues from conduit lease payments received by occupants of the City’s conduit system.

Office of Civil Rights – Living Wage Recommendation and Wage Enforcement for FY 2020

The Wage Commission in accordance with Article 5, Subtitle 26, Baltimore City Code (Living Wage Law), is required each year to recommend to the Board of Estimates by December 15th, a revised Living Wage Rate for the City of Baltimore service contracts.

The Wage Commission reviewed the yearly revision of the U.S. Bureau of Census Poverty threshold. After careful consideration of the Bureau’s poverty level for a family of four currently set at $24,563.00, and other wage data, the Commission is recommending to the Board that the Living Wage be increased from the current hourly rate of $11.81 to $12.06. This pay rate will apply to City of Baltimore service contracts as recommended by the City Purchasing Agent and designated by the Board of Estimates.

Methodology for calculation:

$25,094.00 divided by 2,080 (a 40-hour week x 52 weeks) = $12.06 per hour.

UPON MOTION duly made and seconded, the Board approved the revised Living Wage Rate for the City of Baltimore service contracts in accordance with Article 5, Subtitle 26, Baltimore City Code for the City of Baltimore service contracts.

Baltimore City Department of Health (BCHD) - Follow-up Report

On August 22, 2018, the Board of Estimates NOTED the Performance Audit Report, Baltimore City Health Department for Fiscal Years Ended June 30, 2017 and 2016.

The Board requested the BCHD to report in 90 days on the status of its corrective action plans. The BCHD will present the report to the Board on December 19, 2018.

President: "The first item on the non-routine agenda can be found on page 116 item number one, Baltimore City Department of Health Follow-up Report. Will the parties please come forward."

Ms. Mary Beth Haller: "Good morning, Madam Mayor, Council President Young and other members of the Board. I'm Mary Beth Haller, um -- Interim Commissioner for Baltimore City Health Department and I appreciate the uh -- opportunity today to give you an update on where we are with the audit findings with -- with regard to um -- the 2016, 2017 Performance Audit. With regard to the Substance Abuse and Mental Health Service 307, Naloxone Program uh -- there were issues with inaccurate data pr -- preparation some cases uh -- that could present potential data integrity issues. In order to avoid further instances and provide more complete information regarding opioid education and naloxone distribution, we have incorporated a number of data validation measures into a review of
the report, including locking various formulas in Microsoft Excel; worksheets that are reported to the State. These measures will reduce the likelihood of formula errors within our data sets as they are reported to the State. With regard to Service 717, Environmental Inspection Services, the Biennial Audit found that we were not meeting our annual performance targets as set by the State of Maryland. Despite limited personnel available, BCHD has initiated a process of streamlining the inspection process by exploring a refresh of our technological solutions related to environmental inspection services. We’re currently formulating an RFP which will solicit bids to allow for uh -- uh -- a better completion of mobile -- mobile completion of inspection reports. The new inspection technology has the potential of reducing inspection times, thereby freeing up the capacity to increase the volume. Although the solicitation for new technology is in the planning phases, the team will continue to protect the public health by providing thorough and timely inspections with the current resources that are available. With regard to the finding regarding the stockroom storeroom policies and procedures, the
Biennial Audit found numerous weaknesses. Notably, the audit observed that we did not have written policies available to monitor, control, and report on inventory. The audit report also observed incomplete inventory tracking. BCHD has initiated the process of establishing policies that outline procedures for tracking inventory. We have segmented our inventory into multiple categories and we are currently prioritizing our policies and procedures for outreach and promotion -- with promotional materials. We have created an outreach material inventory and tracking policy which was included with the report um -- update to um -- Audits um -- which covers outreach materials and promotional items. In addition to that new policy, BCHD’s Office of Materials Management has initiated a process of centralizing the physical location and inventory to create a storeroom located at BCHD headquarters. The storeroom will initially house outreach and promotional items and will eventually expand to additional materials and supplies wherever feasible.”

Comptroller: “I think its NOTED.”

President: “Thank you. Uh -- the report has been NOTED. Thank you.”

Ms. Haller: “Thank you, Council President.”

On September 18, 2018, Ms. Skinner was informed that the conference had been moved to Carson City, Nevada, and she booked a room on September 19, 2018. Her flight had to be changed, however, according to Ms. Darlene Loff, State of Nevada, Department of Public Safety, by this time hotels in Carson City were at maximum capacity. Therefore, Ms. Skinner had to book a room in Reno, Nevada. According to Mr. Phil Politano, Training Specialist - Course Manager, Federal Emergency Management Institute, there were no arrangements made for transportation between hotels and the new training location 28.3 miles away. Because of this glaring oversight on the part of the hosting agency, Ms. Skinner personally incurred the costs of ground transportation.

Total Reimbursement

UPON MOTION duly made and seconded, the Board approved the Travel Requests and the Retroactive Travel Approval/Reimbursement. The President ABSTAINED on item nos. 1, 2, 3 and 4. The Comptroller ABSTAINED on item No. 5.
The Board is requested to NOTE receipt of the following Audit Reports:

1. City of Baltimore Department of Transportation Performance Audit of Automated Traffic Violation Enforcement System for the period July 1, 2017 through April 30, 2018.

President: "The second item on the non-routine agenda can be found on page 129, item number two uh -- Baltimore City Department of Transportation Performance Audit of Automated Traffic Violation Enforcement System for the period July 1, 2017 through April 30, 2018. Will the parties please come forward."

City Auditor: “Good morning members of the Board.”

President: “Good morning.”

City Auditor: “Audrey Askew, City Auditor. I want to give you um -- first a brief update on the violations summary. This is not a finding just information. The red-light camera um -- they had violations -- fines collected from July 1, 2017 through April 30, 2018. They've collected $4,827,141.00 in that period. For the speed camera violations, the fines collected for the same period came to -- amounted to $7,127,096.00. Finding Number One: Red Light Camera Revenue Report. Red Light Camera Revenue reported as collected by the ATVES in its monthly review report for the period August 1,
2017 through April 30, 2018 did not agree with the Red Light Camera revenues support -- revenue -- revenue recorded in the Department of Transportation accounting records. You want to respond?”

Director of Transportation: “Good morning, Board. My name is Michelle Pourciau, I'm Director of the Department of Transportation. As you can see I'm having trouble with my voice and so Charles Turner, who uh -- is the Director of the ATVES Program will speak on behalf of the Department.”

President: “Okay.”

Mr. Charles Turner: “Good morning Chairman, good morning Board.”

Comptroller: “State your name.”

Mr. Turner: “Charles Anthony Turner, I’m the new Director for the ATVES Program.”

City Auditor: “Well, let me go to Finding Number tw -- two because Finding One -- Findings One and Two are the same um -- for Speed Camera Revenue report. We also noted that there was a difference in the amount reported.”

Mr. Turner: “Yes, the report she's referring to is an internal report that I report to the Director. Um -- the discrepancy was
due to -- we're using a BCIT report and we're going to annotate that report moving forward that that's the source of that particular information and the actual revenue should be coming from the Baltimore City Office of Finance, as she stated, for that period and that will take care of Finding Number One and Two.”

City Auditor: “Okay. For Finding Number 3: Speed Camera Val -- Validity of Violation; the Department of Audits noted an authorized reviewer approver of the Speed Camera Citation signed off as the reviewer approval for second and third reviews. Part of the Department of Transportation ATVES process, a three-step review is performed on each violation. First the vendor reviews the violation, next is the Department of Transportation staff member or police officer will complete the second review. The final review is performed by a police officer who will sign off on -- on violation. This officer must not be the same individual from the second review.”

Mr. Turner: “We accept that finding uh -- Board and we have put into place to make sure that the person that does a quality
assurance review or an officer who does the Quality Assurance review cannot also do the final review.”

Mayor: “Okay.”

City Auditor: “Finding -- Finding Number 4: Vehicles Flagged for Non-Payment of Fines. Uh -- the Department of Audits performed a testing of red light and speed camera violations three of the not -- 248 citations tested for the red light camera violations and seven of the 330 citations tested for speed cameras were not paid and the violators tags were not flagged with the Maryland -- with the Maryland Motor Vehicle Administration.”

Mr. Turner: “That finding um -- Board is uh -- managed under the Bureau of Revenue Collections not ATVES.”

President: “Okay.”

City Auditor: “Finding Number 5; Speed Camera Erroneous Violations Report. ATVES did not maintain error reports for the period of August 1, 2017 through April 30, 2018, detailing erroneous violations submitted by the speed camera vendor, American Traffic, Solutions Inc.”
Mr. Turner: “Um -- we don't accept that particular finding um -- for the Board -- Board ATVES does track these on a daily, monthly, and quarterly basis. In the time frame that's being reviewed, it was below the threshold of 5% at 2.9%.”

City Auditor: “Then we want to note that the Department of Audits was not able to determine the operating efficiency of the speed cameras. The contract agreement with MRA Digital, LLC provided for annual cal -- annual calibration checks for speed cameras beginning July 2017. The first calibration occurred July 2018 and was outside of our audit period July 1, 2017 through April 30, 2018. So, again we were not able to perform that portion of the testing. Thank you.”

President: “You concur with that?”

Mr. Turner: “Thank you.”

Director of Transportation: “There's a testing period associated with the program, so the audit just ended before that could be done.”

President: “Okay. Alright. Um -- the audit has been NOTED.”

President: “The third item on the non-routine agenda can be found on page 129 item 3, Baltimore City Department of Recreation and Parks Biennial Performance Audit Report, Fiscal Year ending June 30, 2017 and 2016. Will the parties please come forward?”

City Auditor: “Good morning.

Director of Baltimore City Dept. of Rec. & Parks: “Good morning.”

City Auditor: “First Finding: Lack of Internal Controls for Document Retention, this is the Aquatics. Total number of visitors to outdoor pools, Baltimore City Department of Recreation and Parks uh -- they do not have any document -- they did not have any documentation to support how actual attendance for the pools were calculated for the performance measure. Total number of visitors to outdoor pools in Fiscal Years 2017 and 16. In addition, Rec. and Parks provided a very little number of -- very limited number of the daily cash collection reports used to account for cash collections from admissions to the pools.”

Director of Baltimore City Dept. of Rec. & Parks: “Good morning, Board members. Reginald Moore, Executive Director of Baltimore City Rec. and Park. Uh -- couple things I want to note here.
This was in our June 30th, prior to my arrival, but since I've been here one of the things we've done is we uh -- community pools are now free. So, that's no longer something we have to track and what we did this year, we implemented a wristband system so we can count. I have a more accurate account of control and what we're looking to go forward is we would like to go cashless. Uh -- similar to what you see with the parking meters uh -- when you -- you grab a ticket. That is our goal what we're exploring now, its -- its hopeful we can implement that this spring. That way there will be no counting of cash at our pools. But that's something -- we do acknowledge the finding -- but this is what we're doing going forward.”

President: “Thank you.”

City Auditor: “Finding Number 2: Failure to Meet Targets in Fiscal Year 17 and 16. Rec. and Parks did not meet its targets for the total number of visitors to outdoor pools during the Fiscal Year 17 and 16. Actual amounts were inconsistently reported in the City's budget books, more specifics are in the audit report. But, you can respond if you want, but this is a finding that we've NOTED and BBMR has already taken responsibility for this particular finding. But, if you want to respond you can.”
Director of Baltimore City Dept. of Rec. & Parks: “I just want to say um -- Ms. Askew is accurate that we’ve sat down with CitiStat Smart as well as BBMR to identify some of our targets to make sure they’re more closely related to where we’re going as an agency and correcting those.”

City Auditor: “Finding Number Three Incorrect Reporting of Fiscal Year 2016 Target, this is for Recreation for Seniors. Total attendance at senior recreation programming events. The Fiscal Year 2016 target amount for the total attendance at senior recreation programming events was incorrectly reported in the Fiscal Year 2016 budget book as 40,000. The correct target amount for Fiscal Year 2016 was confirmed to be 6,000 by the Baltimore City Department of Recreation and Parks Budget Analyst. The correct target amount for fiscal year 2016 was accurate -- accurately reported in the Fiscal Years 2017 and 18 budget book.”

Director of Baltimore City Dept. of Rec. & Parks: “Baltimore City Rec and Parks accepts that finding.”

City Auditor: “Finding Four: Frequency and Timeframes for Grass Cutting. Rec and Parks did not have adequate documentation to show verification of the frequency of grass cutting in Fiscal -- Fiscal years 17 and 16 so -- to support the daily grass cutting reported
by an independent contractor. The independent contractor provides a daily sheet detailing the completed properties, which had their grass cut on a daily -- given day. At the end of a two-week cycle, the independent contractor submits an invoice of the properties for which the grass had been cut.”

Director of Baltimore City Dept. of Rec. & Parks: “Rec. and Parks accept -- accepts that finding and what we’ve established – and now have a quality control uh -- contract employee that works directly for us that's going out monitoring making sure that the contractors are cutting the grass and confirmed those -- and if there's a problem, they're contacting those -- our Lorenz contractor and having them come back out to address that.”

City Auditor: “Last Finding -- Finding 5: Stock Rooms Lack of Documentation. Rec. and Parks, Druid Hill Park facility -- District facility did not maintain any records of its inventory. In addition, the three remaining facilities that we selected for review maintained an inventory of items contained in the stock rooms. However, only the Middle Branch Water Resource Center provided a dollar value of its inventory.”

Director of Baltimore City Department of Rec. & Parks: “And uh -- Board if I -- I’m going to yield to Kenn, Kenn King he’s our Fiscal Chief and he’s going to address that finding.”
President: “Thank you.”

Mr. Kenn King: “Thank You. Chief of Fiscal Services. With regards to -- to inventory, it's a long story uh -- whereby we were told --”

President: “Make it short though.”

Mr. King: “Okay. I’m not going to go into all this.”

Comptroller: “Make it short.”

Mr. King: “Sure, basically -- basically we do operate on a just-in-time inventory system whereby we purchase the items when we need them. We try not to have too many items in storage for a number of reasons; risks, obsolescence and so forth. So, what we're going to do is -- is insist that where these items are stored in small quantities, we’re going to ask – we’re going to require that these items are checked regularly and we're also going to make sure that a price is associated with each item so that we can determine the value. But going forward, we -- we will have a better system in place to account for all inventory, even in small quantities at all of our -- our facilities.”

President: “Okay. Thank you.”

Mr. King: “Is that short enough?”

President: “Please note that the audit has been NOTED.”

President: “The um -- fourth item on the non-routine agenda can be found on page 129, item four uh -- Maryland 9-1-1 Emergency System Program for Baltimore City. Uh -- will the parties please come forward.”

City Auditor: “Good morning.”

Mr. Frank Narvell, Fire Department: “Good morning.”

City Auditor: “This is a short one. The Department of Audits was able to successfully review, support uh -- and agreed the revenue and expenses, as identified in the report. We found no issues and no exceptions to this audit.”

President: “Thank you. The audit has been NOTED.”
