Parking Authority of Baltimore City - Multi-Space Meter Maintenance Agreement

**ACTION REQUESTED OF B/E:**

The Board is requested to approve and authorize execution of a Multi-Space Meter Maintenance Agreement with IPS, Inc. (Maintenance Agreement). The period of the Maintenance Agreement is effective upon the date of the first installation of an IPS multi-space meter in the City and will continue for two years, with a two-year renewal option.

**AMOUNT OF MONEY AND SOURCE:**

$456,000.00 - 2076-000000-2321-252800-607001

**BACKGROUND/EXPLANATION:**

The PABC was asked to oversee the City’s metered parking program roughly fifteen years ago. In 2004, the PABC began replacing most of the City’s aging mechanical single-space meters with multi-space meters manufactures by CALE. The PABC contracted with CALE for the maintenance of their meters in the City. The CALE meters that were installed beginning in 2004 are now up to 15 years old, have exceeded their useful life, and require replacement.

On May 1, 2019, the Board of Estimates approved a $5,000,000.00 award to IPS, Inc. (IPS) to provide new multi-space meters to the City. The IPS will begin delivering and installing these meters in the fall of 2019.

This Maintenance Agreement now before the Board will ensure continued success of the PABC’s metered parking program by requiring regular preventive maintenance by the IPS technicians on the newly installed IPS multi-space parking meters, tracking repair alarms/complaints, and requiring response times by IPS technicians when meters require repairs.

The Board is requested to approve and authorize execution of a Subgrant Agreement with the International Rescue Committee, Inc. (IRC). The period of the agreement is October 1, 2019 through completion of services but no later than September 30, 2020.

AMOUNT OF MONEY AND SOURCE:

$333,978.00 - 5000-535920-1250-775700-603026

BACKGROUND/EXPLANATION:

In May 2019, the Mayor’s Office of Immigrant Affairs (MIMA) responded to the Request for Proposals for the Vocational Training and Employment Services program issued by the Department of Human Services, Office of Refugee and Asylees. As a result, the City was selected as the contractor and MIMA as the administrator. The employment and English Language training services required by the grant will be provided by the IRC in Baltimore as the subcontractor.

The funds for the agreement originate from the Federal Office of Refugee Resettlement (ORR). The employment program is designed to enable employable refugees in the Baltimore Metropolitan Region to achieve economic self-sufficiency as soon as possible through job development and placement, removal of employment barriers, participation in vocational training, case management, and follow-up after job placement.

Department of Audits – Audit Report

The Board is requested to NOTE receipt of the following Audit Report:

President: “The first item on the non-routine agenda can be found on Page 6, Department of Audits, Audit Report. Will the parties please come forward.”

Mr. Pasch: “Good morning Mr. President, Mr. Mayor, Madam Comptroller, Board members. My name is Josh Pasch, I’m the City Auditor. I am here to present the Biennial Financial Audit of DPW. At the September 25, 2019, Biennial Audit Oversight Commission meeting, I presented an estimated report issue date of October 16th for this report. The dates presented at that meeting were estimates, and it is not uncommon for actual dates, issue dates to be different for various reasons. The goal of our Audits is to identify issues and to promote improvements among different government agencies. As such, when we present any Findings that we find we request management to come up with action plans. It is
not uncommon for an agency to request additional time to review the Findings and to prepare the Management Action Plan as happened in this case. The Department of Audits realizes some fixes and improvements require and involve um -- multiple people and agencies and accepts reasonable requests for additional time to respond. The Department also takes some time -- the Department of Audits also takes time to review the management responses, to the Findings to make sure that they address the issues noted. I would like to -- we are presenting the Financial Statement Audit and I would like to go over some of the Findings we had during our Audit. Finding One was there was idle revenue of $5.6 million dollars in a grant account with no corresponding expenditures and this amount was sitting on the books since 2007. As a result of the Audit, DPW did research and found -- identified the funds and had them transferred to services where they could be used. So those funds have now been released and are part of the future budget. Um -- our recommendation was to perform periodic account analysis to identify and manage these different accounts so that things don’t slip through the cracks. Finding two, disposal site controls are
missing including segregation of duties and management oversight example with cash collections, depositing of funds and cash credit memos being issued, and also the camera systems that were there were not operating. Our recommendation was to address this segregation of duties um -- management oversight and other controls and to fix or um -- address the camera issues. Finding three, was we noted there were inter -- internet outages at disposal sites and that these outages shut down weighing operations increasing wait times for residents, city personnel and private haulers. And our recommendation was to review other options to provide back-up service for the internet service and to reduce those wait times caused by such. Thank you.”

Mr. Chalmers: “Good morning John Chalmers, Bureau Head for the Department of Public Works, Bureau of Solid Waste. We acknowledge and agree with the Findings of the Auditors and we will effectively working to implement ah -- the recommended changes.”

President: “Thank you. Thank you gentlemen. A quick question. Ah-- Mr.-- the Auditor identified the $5.6 million that was sitting, ah -- can you guys tell me ah -- how and where that money
has been moved. It wasn’t reflected in the BOE was it just moved in the budget, but also ah -- how you decided to push it to Quarantine Landfill ah -- over the other pressing solid waste needs in the City.”

Mr. Chalmers: “Ah -- we moved that money because there was a shortfall ah -- in the funding that we needed to ah -- get some things done at the Quarantine Road Landfill. So we thought it was appropriate to use the money at the time to ah -- fix some shortfalls. And he’s right, mandatory compliance issues at the Landfill.”

President: “Yep and that’s reflected in the budget, right, is it?”

Mr. Chalmers: “Right.”

President: “Okay. Thank you. Thank you. Any questions? Thank you.”

Comptroller: “So Noted.”

President: “So the Audit Report has been Noted.”

Baltimore City Office of Information and Technology (BCIT)

The Board is requested to NOTE receipt of the Performance Measures Update.

On September 11, 2019, the Baltimore City Office of Information and Technology appeared before the Board of Estimates for its Biennial Performance Audit Report for Fiscal Years ended June 30, 2018 and 2017. During the meeting, the agency was advised that it had not met the previous fiscal years’ recommendations as set out in the Audits. As a result, the Board allowed BCIT a total of 60-days to review, revise and resubmit the FY20 Performance Measures for the City’s budget book.

The following has been determined after a full review of the current performance measures:

1) Removal of any irrelevant metric from the budget books
2) Revision of specific current metrics to satisfy the business needs and direction of BCIT
3) Addition of new metrics to satisfy the business needs and direction of BCIT

The BCIT will be meeting with the Finance Department to discuss the proposed revisions of BCIT’s original submission for the FY20 annual budget book.

Department of Audits – cont’d

The Board of Estimates requested an update on how BCIT has been improving on this. The Department of Audits received and reviewed BCIT’s response sent by Memo to the Board of Estimates dated October 25, 2019.

The BCIT’s response addressed Items 2, 3, and 4 from Table 1. Items 1 and 5, developing policies and procedures for performance metrics was not addressed in the Memo. However, BCIT did verbally communicate, to the City Auditor, their plan to implement policies and procedures, including documentation retention to support metrics presented.

Note: The Department of Audits did not evaluate the performance measure revisions proposed by BCIT in the Memo. Per the FY2020 budget book: Agencies work with the Bureau of the Budget and Management Research (BBMR) and the Mayor’s Office of Sustainable Solutions (MOSS) to develop performance measures for each service.

President: “The item -- the second and third items on the non-routine agenda will be called together. They can be found on Page 48 Baltimore City Office of Information Technology Performance Measures Update and Page 49 through 50, Department of Audits BCIT Performance Measures. Will the parties please come forward.”

Mr. Carter: “Good morning Council President,--”

President: “Sir, pull the mic up,”

Mr. Carter: “Good morning Council President, Mr. Mayor ah -- Madam Comptroller. Ah -- we were here --.”

Comptroller: “State your name.”

President: “Yep.”
Mr. Carter: “Ah -- my name is Todd Carter, the Acting ah -- CIO for Baltimore City. Ah -- we were here approximately 45 to 60 days ago and we came with ah -- an Audit Finding where we did not appropriately address ah -- the specific Findings. At that time we said that we were in the process of redoing our metrics and that the metrics that we had or did not address as part of the Audit Findings ah -- were to be replaced. Ah -- one of the things, one of the questions that you had was we -- what happened. One of the things I did was a root cause analysis. We looked at the timing of the communications from Audits. Ah -- we looked at what each individual member of the team did or did not do. This happened at a time actually, the Audit was issued on May 6, the day before ransomware. Um -- after that period of time August 1st was when we re-engaged with the Audit Department, and at the end of the day, there was just a lack of accountability on the team’s part to address the Audit Findings. I went through that with the leadership team. Um -- we had a good discussion about what we needed to do differently in the face of ah -- just from an accountability standpoint. Ah -- that after that we brought Audit
in and started the process to look at our metrics and what you have before you or what was submitted was a new copy of the metrics that we um -- we changed. That included metrics, it -- it pulled away metrics that were associated with the mainframe. Ah -- and added more metrics associated with security and availability of some key systems. We are still in the process of building the, the back end pieces such that on a monthly basis these metrics are um --- are reported and communicated and reviewed um -- so we also use these metrics in combination with other metrics as part of the ah -- CitiStat process. Our next steps are to once we get approval from the Board to work with the Finance organization and get the final metrics into the Budget Book.”

City Auditor: “The Department of Audits was asked to review the response issued by BCIT. We did review the response in the context of the follow-up Findings that were not addressed in the last Audit. The Findings were basically related to making sure that the metrics were applicable to the current IT processes and environment and those were items two, three, and four, which we noted that BCIT did address. We did not evaluate the Performance Metrics as that is an agency objective and goal to meet City
initiatives and that really falls between the agency and the Department of Finance budget um -- people. So, we did note that items one and five were referring to developing policies and procedures to promote consistency um -- that was not addressed in the memo, but I did note in my response that when we met with BCIT, that they did have a plan to um -- develop those policies and procedures for consistency. We also, they did present to us that they have a data retention plan and what initiatives that they were moving towards. We don’t have any concerns as this time.”

President: “Thank you. With no questions ah -- from the Board, the report has been Noted.”
