Office of Civil Rights – Living Wage Recommendation and Wage Enforcement for FY 2021

The Wage Commission in accordance with Article 5, Subtitle 26, Baltimore City Code (Living Wage Law), is required each year to recommend to the Board of Estimates by December 15, a revised Living Wage Rate for the City of Baltimore service contracts.

The Wage Commission reviewed the yearly revision of the U.S. Census Bureau’s Poverty threshold. After careful consideration of the Bureau’s poverty level for a family of four currently set at $25,701.00, and other wage data, the Commission is recommending to the Board that the Living Wage be increased from the current hourly rate of $12.06 to $12.36. This pay rate will apply to City of Baltimore service contracts as recommended by the City Purchasing Agent and designated by the Board of Estimates.

Methodology for calculation:

$25,701.00 divided by 2,080 (a 40-hour week x 52 weeks) = $12.36 per hour.

UPON MOTION duly made and seconded, the Board accepted the recommendation of the Wage Commission, in accordance with Article 5, Subtitle 26, Baltimore City Code (Living Wage Law), for the revised Living Wage Rate for the City of Baltimore service contracts, as required each year.

Baltimore Development - First Amendment to Easement Agreement Corporation

ACTION REQUESTED OF B/E:

The Board is requested to approve and authorize execution of the First Amendment to Easement Agreement (Amendment) with Harbor East Parcel D-Commercial, LLC, Harbor East Parcel D-Hotel, LLC, Harbor East Parcel D Residential, LLC, Harbor East Parcel D-Retail, LLC, and Harbor East Parcel D Retail 2, LLC (collectively known as the “Grantors”) for a portion of property (known as the “Event Easement Area”) containing 1,440 sq. ft., to be used as outdoor seating and restaurant related uses ancillary to the Hotel operating at 200 International Drive. The First Amendment to Easement Agreement will extend the period of the agreement through December 31, 2030 and provides for four renewal option periods of ten years.

AMOUNT OF MONEY AND SOURCE:

$15,000.00 - base fee per year

$ 2,500.00 - increase every five years

BACKGROUND/EXPLANATION:

The Grantors own a property adjacent to the Four Seasons Hotel that is located between the Hotel and Waterfront Promenade with various easements, covered under the original Easement Agreement. Among them, the Event Area Easement allows for public access to the Event Space.

The “Event Easement Area” is semi-elevated and abuts the Four Season’s patio. Due to the placement and elevated design of the space, it is not currently very active or well utilized by the public. Grantors request use of the space to provide outdoor seating for a bar/restaurant associated with the Four Seasons Hotel, thus requiring an amendment to the original Easement Agreement.

BACKGROUND/EXPLANATION:

Lexington Market is the oldest continuously operating public market in the United States and is the centerpiece of Baltimore’s public market system. The property is owned by the Mayor and City Council of Baltimore and in 1979 was leased for a term of 30 years to Lexington Market, Inc. (the “Original Lease”), a non-profit quasi-governmental organization charged with the maintenance and operations of the market. On October 30 of this year, the term of the Original Lease was extended.

Founded in 1782 at its current location, the market has undergone many changes through the years, including a 1949 fire that leveled the market sheds, reconstruction of the market building in 1952 and the addition of an atrium in 1982. Having seen no major capital investments since the addition of the atrium, the market is in need of a significant overhaul. A years-long planning and community engagement effort has culminated in a redevelopment plan that will demolish the 1982 atrium structure, extend Lexington Street as a pedestrian-only space on its footprint, build a new market building on a parking lot to the south of the existing east market, and vacate the existing east market building for future reconfiguration and reuse.

In order for this redevelopment to move forward, Lexington Market, Inc. will assign its Lease to a new entity, Lexington Market

Amendment No. 3 to Agreement for Post Award Engineering Services with Patton Harris Rust and Associates, P.C. A Pennoni Company

ACTION REQUESTED OF B/E:

The Board is requested to approve and authorize execution of Amendment No. 3 to agreement (Amendment No. 3) with Patton Harris Rust & Associates, P.C. A Pennoni Company under W.C. 1229. The Amendment No. 3 will extend the period of the agreement for 50 months. The current expiration date is August 19, 2020.

AMOUNT OF MONEY AND SOURCE:

$91,875.00 – 9960-906918-9557-900020-702064

BACKGROUND/EXPLANATION:

The Office of Engineering and Construction is requesting additional funds for the Engineering Design Services that are provided by Patton Harris Rust & Associates, P.C., A Pennoni Company for the Rehabilitation of Vernon Pumping Station project. The additional funds are for designing of the new Druid Lake Overflow Drain that was outside the original scope of WC 1229 – Rehabilitation of Vernon Pumping Station. The existing Druid Lake Overflow drain piping is collapsed beneath the Jones Falls Expressway (I-83) and is a flooding concern. This pipe is adjacent to the Vernon Pumping Station and since there is work planned under this project in this area for the Water Mains, the rehabilitation would be included in this project.
The scope of the original Agreement included the study phase of WC 1229. The Consultant performed a comprehensive assessment of current conditions at the pumping station and identified major deficiencies. To correct these deficiencies, a comprehensive improvement program was developed which calls for major hydraulic, mechanical and electrical improvements to the pumping station, for the provision of an emergency generator facility, and for the architectural and structural rehabilitation of the station structure itself. Improvements to the discharge header and control valves will be made as well as replacing of discharge mains installed directly under the Jones Falls Expressway. The Amendment No. 3 also increase the amount of the contract by $91,875.00, making the total contract value not to exceed $2,408,270.00.

**MBE/WBE PARTICIPATION:**

The Consultant will continue to comply with Article 5, Subtitle 28 of the Baltimore City Code and the Minority and Business Women’s Enterprise goals established in the original agreement of MBE: 27% and WBE 10%.

Department of Audits - Audit Report

The Board is requested to NOTE receipt of the following Audit Report:

President: “The first item on the non-routine agenda can be found on page 32 [page 39], Department of Audits, Baltimore City Office of Information and Technology Biennial Financial Audit Report Fiscal Years Ended June 30, 2018 and 2017. Will the parties please come forward?”

City Auditor: “Good morning Mr. President, Mr. Mayor, Madame Comptroller, Board members. I am the City Auditor. My name is Josh Pasch. I am here to present the Baltimore City Office of Information and Technology Biennial Financial Audit Report Fiscal Years Ended June 30, 2018 and 2017. We present the Financial Statements. We have noted One Internal Control Finding and that is that the Information and Technology Office was unable to provide

supporting documentation for all of our Payroll Testing Timesheets that we selected. When we looked into this, the root cause appears to be that the data was lost during the May 2019 ransomware attack. Based on the Findings there, our recommendation was for the agency to implement and improve their back-up system and to formalize a record retention schedule to maintain those documents so that we will be able to see the support for the transactions that support the financial numbers. We also had one prior year follow-up; this was a Cash Balance Deficit of $12,000,000.00 for the 911 Call Center Grants. During the Audit, we noted that the 911 Call Center was transferred from Police to the Information Technology Department in 2014 and 2015 and the expenditures began -- were being recorded under IT, but the -- it appears the Grant Revenue was -- continued to be associated with the Police, which led to this mis -- mismatch -- leading to a large deficit in balance in the 911 Call Center under the Grants. noted that the revenues were received by the City the issue appears to be more of a presentation in the Financial Statements than anything else and we have presented that to the agency. Thank you.”

Mr. Mark Cherry: “I’m Mark Cherry, CFO of BCIT.”

Mr. Todd Carter: “Todd Carter, Acting CIO for BCIT.”

Director of Finance: “Good morning President Scott, Mayor Young, Comptroller Pratt, Honorable members of the Board. I’m Henry Raymond, Director of Finance. I’ll address the uh -- repeat item that the Auditor referenced. Uh -- as indicated, the 911 function was transferred from uh -- BPD to MOIT now known as BCIT. The revenues and the expenditures were all supposed to be booked to BCIT not BPD. It appears that uh -- some revenue was booked to BPD related to a State 911 Grant and uh -- BCIT attempted to obtain the data in order to do the appropriate journal entry. They weren’t able to get the data from BPD, so now Finance will step in, do the research and prepare whatever correcting journal entry is necessary so that the statements can reflect properly.”
Department of Audits – Audit Report – cont’d

President: “Thank you and thank you. Mr. Director that was actually one of my follow-up questions. Uh -- when do we think the balance will be switched over properly? Do we have a time line for that?”

Director of Finance: “In this Fiscal year, in the fourth quarter.”

President: “And then also for -- for BCIT, if they can tell us uh -- how many times they tried to get it from BPD and why uh -- no one was informed? I don’t think the Mayor was informed. I wasn’t informed. The Comptroller wasn’t informed. The Council wasn’t informed that $12,000,000.00 that was supposed to be on their books was still in the Police Department’s books and why that wasn’t raised -- that level wasn’t raised long before the Auditor came to look at that because it’s a significant amount of money and when agencies are not playing ball with the other agencies as they should, folks have to make folks know so they can make the correct action.”
Mr. Cherry: “So --”

Director of Finance: “Thank you.”

Mr. Cherry: “So, there were several e-mails um -- I would have to go back and -- and pull the documentation to show how many e-mails uh -- went back and forth between the BPD, as well as the State. Uh -- but we can pull that information and let you know uh -- exactly, the exact number.”

President: “If you could uh -- provide that to the Board by the - - before the next Board meeting, that would be greatly appreciated.”

Comptroller: “Just state your name as you did before.”

President: “Oh, sorry. Please state your name.”

Mr. Cherry: “Mark Cherry, CFO of BCIT.”

President: “He stated it at the beginning, yea. My second question, on -- on page 13, the audit noticed that we are losing physical

time sheets at a higher rate in Fiscal Year 19 than we were in Fiscal Year 17 and the audit -- Mr. Auditor recommends a -- a record -- record schedule, but why are we not recommending to -- that we make paper time sheets obsolete and go fully to a digital model?"

Mr. Carter: “Um -- that um -- don’t’ know about the recommendation, but it’s part of the workday ERP implementation. There will be a new time tracking system that will provide a lot of automation. Regarding the actual uh -- back-up that was stated, we do have a new back-up process and procedure. Uh -- we came to you a couple weeks ago about our metrics that are in the uh -- metric book and that’s one of the metrics that we keep. So, we will do the extra, not only the back-ups, but test to make sure that those back-ups -- you can recover and restore from them as appropriately. We plan -- we plan to do that on a quarterly basis.”

President: “Thank you. Any other questions from the Board? Thank you. The Audit Report has been NOTED.”

Department of Transportation – Modification of Amounts Charged to Install Telecommunications Facilities on City Rights-of-Way

**ACTION REQUESTED OF B/E:**

The Board is requested to approve modifications to the amounts charged to install telecommunication facilities on City Rights-of-Way. The proposed fees are the actual and established base costs involved in regulating the initial installation of a telecommunications facility on City rights-of-way.

**AMOUNT OF MONEY AND SOURCE:**

This action does not involve the expenditure of City funds.

**BACKGROUND/EXPLANATION:**

On January 9, 2019, the Board approved a schedule of fees involving the installation of small wireless facilities, known as small cells, on Baltimore right-of-ways. The Board also approved a one-time installation charge of $4,600.00 and $4,670.00, depending on whether an installation required a new or replacement pole. Furthermore, the Board approved an annual charge of $270.00 for each small cell attachment to a City pole.

The fees approved in January reflected the actual cost to the City in permitting primarily Crown Castle installations. Verizon and AT&T, however, reviewed the data that supported the City’s fee schedule and subsequently concluded that the build-out of Verizon and AT&T installations, which they hoped to install on City right-of-way sometime in 2019, would differ from Crown Castle’s installations. They asked the City to review the cost data in light of their proposed installation plans. The City agreed to the review, given the fact that under Federal Communications
Department of Transportation – cont’d

Commission regulations, the City can only charge fees reflective of the actual cost of permitting small cell facilities. The review resulted in the fees proposed in Appendix 1.

In addition to the fees appearing in Appendix 1, additional fees, already approved by the Board, will be charged to reflect the actual cost incurred by the City when a particular installation requires additional services not reflected in Appendix 1. For example, not all installations involve weekend installation or interrupt vehicle parking at parking meters on a block face. When an installation requires those types of additional services, it will result in charges in addition to those listed in Appendix 1.

**BACKGROUND/EXPLANATION:**

In March 2011, the Department of Planning (DOP), in partnership with the Department, issued an RFQ for farmers to participate in
the development of a certain selection of pre-identified City-owned vacant and underutilized properties throughout the City of Baltimore for the purpose of urban agriculture. This offering was intended to 1) develop successful entrepreneurial urban farms throughout the City of Baltimore, 2) ameliorate the problem of food deserts in Baltimore City neighborhoods, 3) transform vacant and unused land to achieve economic, social and environmental benefits.

Mr. Richard Francis is the owner of Plantation Park Heights Urban Farm, Inc. which was formed in June 2014. Its birth came out of a group of Caribbean/American citizens’ desire to affect change and have a positive impact on the lives of young adults that reside in the community. Mr. Francis and the Plantation Team have partnered with a local United Community Network, an elementary school (Belmont Elementary School) and Towson University Girls Rugby Team. They chose these organizations and schools based on the high-risk youth that all the groups interact with on a daily basis. The farm has several raised bed boxes and an erected hoop house where they grow squash, kabocha, tomatoes, okra, peppers, cucumber, mint, kale, collards, cabbage and many other varieties. This farm gives high-risk youth access to cleaner greener foods and focuses on the tenets, and principles to improve the quality of life and access they might not have otherwise to a level of education. In collaboration with the City of Baltimore Urban Agriculture Land Leasing Initiative they intend to build community economic power by promoting access to grow cleaner greener foods.

The Space Utilization Committee recommended approval on June 11, 2019.

As proposed, the project will consist of a gut rehabilitation and a conversion to upper floor multifamily residential use with the ground floor retail use to remain. As proposed, the rental component of 22 Light will contain 40 units, which in turn will consist of 36 affordable units (the “Affordable Units”) and four market-rate units. Of the Affordable Units, one unit will be reserved for a household with incomes at 20% or less of the Area Median Income adjusted for family size (“AMI”), eight units will be reserved for households with incomes at 30% or less of AMI, 11 units will be reserved for tenants with incomes at 50% or less of AMI; and 16 units will be reserved for tenants with incomes at 60% or less of AMI. The Affordable Units will contain 12 one-bedroom units, nine two-bedroom units, and 15 three-bedroom units. Community amenities will include a multipurpose room, laundry facilities, on-site management office, fitness center and tenant storage.
Located in a “Community of Opportunity,” the Project is ideally situated to give lower wage workers access to the highly concentrated job market in downtown Baltimore. The Census Bureau reports that there are nearly 110,000 jobs located within one-half mile radius of downtown Baltimore (Census Tract 401), of which approximately 40,000 are lower skill jobs with annual salaries less than $40,000.00. No other location in the State offers so many job opportunities for low-wage workers in such a small concentrated area. The project is also located at the nexus of Baltimore’s public transportation system, with Metro, Light Rail, and bus all within a 10-minute walk or less. Communities of Opportunity, as defined by the State of Maryland’s Department of Housing and Community Development, are based on several indicators, including (but not limited to) income levels, population growth, poverty rate, vacancy rate, unemployment rate, and school test scores. In addition to the access to jobs and public transit, the immediate area around 22 Light Street exhibits higher than statewide average for most of these quality of life indicators. By contrast, many of the other Communities of Opportunity in Maryland are located in rural areas where access to employment and transit are limited.

Per the City’s zoning, no parking spaces are required. There are however, two garages located adjacent to the property offering monthly spaces. It should be noted that many apartment communities in the Central Business District do not offer parking particularly those involving adaptive reuse of existing structures. Of the 2,700 units of “upper tier” communities identified in the market study, 1,550 units do not have on-site parking.

The project will have six Section 811 units that are covered by a Section 811 Rental Assistance Contract administered by the State of Maryland’s Department of Housing and Community Development for
Department of Housing and - cont’d
Community Development

a period of 20 years. In addition, the two three-bedroom units targeted to households earning 30% or less of AMI will be rent-assisted through a 15 year Housing Assistance Payment contract ("HAP Contract") administered by the Housing Authority of Baltimore City or the Borrower (defined herein) will provide a long term operating subsidy equal to $400 per unit per year for a period of ten years as indicated in the CDA application.

The HOME Loan will be used solely to finance a portion of the hard construction costs of 36 units (the “Affordable Units”) within a larger 40 unit development the remaining four unit will be market rate.

An appraisal was prepared on June 27, 2019, by Novogradac and Company. The future prospective value of the completed and stabilized project, assuming affordable rents, was determined to be $4,100,000. The future prospective value of the completed and stabilized project assuming no affordable housing restrictions was determined to be $7,600,000. The appraised value is below the total cost of the project. This is common in transactions involving LIHTC and affordable housing. The LIHTC provides equity, which achieves its return through a federal tax credit rather than through the value of the property. Without the value of the LIHTC financing, projects with restricted rents could not be financed. Since the reduced rents decrease the appraised value, the combined debt is well under the appraised value, leaving only the equity exposed, which is, as noted above relying on tax incentives rather than the property. The Department is comfortable recommending the HOME Loan under these circumstances.

On January 15, 2019, the City filed a condemnation action to acquire the Leasehold interest in the real property located at 1109 Sarah Ann Street. The Board previously approved $10,450.00 to acquire the Leasehold interest in the subject property based upon the higher of two independent appraisals. The appraisal report was later updated and the new value was determined by the City to be $25,700.00. The Defendant filed an Answer contesting the fair market value of the property and asserted that the value of the property was $55,000.00. The parties attended a Pre-Trial Conference and settled on a fair market value of $30,000.00. Therefore, the Board is requested to approve an additional $19,550.00 ($30,000.00 less the previous approval amount of $10,450.00) to settle this case.

**UPON MOTION duly made and seconded, the Board approved the above Payment of Settlement.**
