Department of Audits - Audit Reports

The Board is requested to NOTE receipt of the following Audit Reports:

President: “The first item on the non-routine agenda can be found on pages 9 Department of Audits, Audit Reports item 1 Baltimore City Fire Department Biennial Performance Audit Report Fiscal Years ending 20 -- June 30 2018 and 2017 will the parties please come forward.”

Thandee Maung, Deputy City Auditor: “Good morning Mr. President, Mr. Mayor, Madam Comptroller--"

Comptroller: “Speak up.”

Deputy City Auditor: “Good morning Mr. President, Mr. Mayor, Madam Comptroller and members of the Board of Estimates. My name is Thandee Maung. I’m the Deputy City Auditor. I am honored to be here to present you the Audit results from the Baltimore City Fire Department (BCFD), Biannual Performance Audit. Before starting my presentation, I would like to formally thank the BCFD team for their cooperation throughout the audit. Also, I would like to thank
my team to work very hard to be able to issue the audit report timely today. This audit has three objectives. Objective number one was to determine whether BCFD met its performance measures targets. Objective number two was to determine whether BCFD has adequately designed internal controls related to the selected performance measures, and objective number three was to follow up on prior finding recommendations and -- findings and recommendations included in the previous report issued in March 2018. Our audit scope was Fiscal Year 2017 and 2018. The three selected performance measures and the -- this audits are Service 609 Percent of Emergency Medical Services fees collected versus total billable, 611 Percent of fire code violations corrected within 30-days of issuance and 614 Percent of emergency calls answered in 10 seconds or less. According to the Fiscal Year 2017, 18, 19 and 20 budget books BCFD did not meet the targets of these selected Performance Measures. As a result, we did not validate the accuracy of the actual results reported in the budget books. However, we evaluated the internal controls designed for the processes of these selected Performance Measures based on our Audit’s limited scope. We did not find any significant control
design weaknesses. We followed up on the 13 prior year recommendations. One recommendation is no longer relevant to a performance measure. One recommendation is related to a performance measure, which is no longer used. One recommendation will not be implemented until FY 2021. This is because of the citywide payroll system implementation. Of the remaining 10 recommendations, we concluded that seven recommendations were fully implemented, and three were partially implemented. Of the three partially implemented recommendations, two are related to Service 608 - Emergency Management. The selected Performance Measure for this service is the percentage of City agencies with a Complete Continuity of Operations Plan (COOP). We concluded the recommendations were not fully implemented because some agencies are not participating in the Continuity Planning Program. The program is led by the Mayor’s Office of Employment — I’m sorry the Mayor's Office of Emergency Management (MOEM). The plan is a multi-phase program designed to help agencies build a basic COOP Plan from scratch. The Administrative Manual 110-01 requires all City agency to develop a COOP in coordination with MOEM. However, our review indicated that only 17 agencies
are currently participating in the Continuity Planning Program. Also, we found that MOEM is not tracking and monitoring City agencies’ most current version of their COOPs. This is because of two reasons. One -- the first reason is because MOEM is not a repository for all City agency to submit their COOPs. Reason number two is because the current Administrative Manual does not require MOEM to track and monitor City agencies implementation or revision of COOPs. MOEMs operational role is to coordinate inter-agency's response and recovery in case of emergency. Without the knowledge of the updated status of the COOPs, MOEM cannot effectively fulfill this operational role. So, our recommendations are to revise the current Administrative Manual 110 to require all agency to participate in the continuity planning program and periodically communicate with MOEM and report the current version of their COOPs. We also recommend the Director of MOEM to follow the AM 110-01 when revised. The last partially implemented recommendation is related to the Service 611, Fire Code enforcement. The BCFD has processes in place to follow-up with businesses and individuals after renewal notices are sent. The purpose of this follow-up is to ensure expired permits are properly renewed and do not need to
be renewed. BCFD follows the processes. However, it has not formally documented these processes through policies and procedures. Formal policies and procedures promote compliance, accountability, consistency and sustainability. This concludes my presentation and I will be happy to answer any questions if you may have. Thank you.”

Lulandala: “Thought I was short enough, all right. So I’m here today to present the audit report for the Department of Finance, their Biennial Audit Report for Fiscal Years Jan-- June 30, 2018, 2017. In our report we expressed an unmodified opinion, uh -- and noted one internal control finding, which is related to payroll if you flip to page 16 within the report. So within the finding -- the finding -- is related to -- they were unable to present all the documentation that we requested from our sample selections,
uh -- and in return we -- we recommended the Director of Finance develop a record retention schedule for the department. File the retention schedule with the City Archivist and require directors of -- Bureau of Accounting and Payroll Services keep payroll documentation as required by the record retention schedule for the department and filed with the City Archivist. Uh -- something else that's going on now as you know is the Workday implementation that's something that will help the whole City as a whole get away from uh - paperwork.”

Henry Raymond, Director of Finance: “Good morning President Scott, Mayor Young, Comptroller Pratt, members of the Board. I’m Henry Raymond, Director of Finance. We acknowledge receipt of the Financial Audit for the Department of Finance by the Department of Audits. We concur with the finding related to employee payroll timekeeping. Uh -- as auditors indicated, this was an issue of missing documentation primarily related to uh -- time sheets. Uh -- this issue is related to one bureau out of the seven bureaus in the Finance Department, so it was not a system-wide issue, in terms of the Department. Corrective action has been taken immediately to ensure that we retain the documentation so that
It’s available in the future for audits. And as the auditors indicated when the process of implementing Workday for payroll and with the implementation of Workday uh -- that will resolve issues related to these manual paper processes, because everything will be electronic.”

President: “Thank you, thank you, thank you. The report has been NOTED.”

MWBOO GRANTED A WAIVER ON FEBRUARY 1, 2019.
President: “The third item on the non-routine agenda can be found on page 92 number 12, Informal Awards Renewals Increases to Contracts and Extensions. Will the parties please come forward. Thank you Mr. Raymond and Mr. Gibson. So I asked for this contract to be placed on non-routine today because I think that this something that the public should hear about the Master Lease. How the Master Lease was awarded, what the Master Lease actually is, and why this contract is needed.”

Henry Raymond, Director of Finance: “Good morning, again. I'm Henry Raymond Director of Finance. I’ll address the overview related to the Master Lease. The Master Lease Agreement was awarded through a competitive process. There were uh -- two vendor, uh - there’s only one remaining. The purpose of the Master Lease was to provide for financing for large-scale equipment items that the City needs and it gave the City the flexibility of being able to finance it, to preserve our cash flow. As for you know as I indicated large ticket items like load packers and motor vehicles and larger pieces of equipment. Um -- it gave the City flexibility as it allowed us to preserve cash flow. So financing for short periods for large equipment purchases has been helpful to the City.”
City Solicitor: “Mr. Raymond can you break that down a little bit for people--”

President: “Mr. Solicitor one second--”

City Solicitor: “If I may be recognized--”

Mayor: “You need to be recognized.”

President: “Mr. Solicitor, you have been recognized.”

City Solicitor: “Thank You Mr. President. People may not really understand financing through lease transactions and I think it might be helpful Mr. President if the Director could just explain the difference between paying $10,000,000.00 for example for some capital equipment as opposed to leasing it and paying it out over a period of time and why that’s saves the City money. And by the way I believe this Master Lease goes back at least to 2003. Does it not?”

Director of Finance: “That is correct.”

City Solicitor: “It’s been renewed for well over ten years.”

Director of Finance: “Yes.”

City Solicitor: “So could you just address those issues. Thank You Mr. President.”
Director of Finance: “To begin again, the Master Lease provides flexibility as opposed to paying out of pocket cash just expensing say for example $10,000,000.00 of vehicles in one year. We’re able to use master lease financing to finance the vehicle -- vehicles over a period of time. It smooths out the uh -- operating budget for the City, allows us to more properly allocate resources against all of the other priorities that the City has. As the Solicitor indicated, we've had this in place since at least 2003. It was obtained through a competitive process and essentially what it allows us to do is allows us to keep more cash on hand, as opposed to making cash outlays, and allows us in some instances to procure more of what we need over a period of time by financing, as opposed to procuring a smaller dollar amount that does not allow us to obtain the quantity primarily of vehicles that we need.”

President: “So thank you for that, and Mr. Gibson for you this particular uh -- contract what -- what -- what does it accomplish for you in Fleet Management.”

Mr. Gibson: “Again it allows us that if vehicles come in, get some of the older stuff out of the fleet that’s -- that -- that’s cost us a lot of money and maintenance and the -- should be able to you
know there with new equipment’s under warranty for a certain periods of time and we're helpful to reduce our cost and keep this vehicles in service so, we can service the citizens of Baltimore for a longer period of time.”

President: “Ah for this one, it’s about air pressure. Can you go into detail what that is.”

Mr. Gibson: “Air compressors.”

President: “Air compressors -- for the vehicles themselves.”

Mr. Gibson: “These are for uh -- for the -- for the Water Department and they’re for, you know when they have water main breaks and stuff like that they can go out there and -- and cut the -- cut -- to make the cuts they have to make. Have the proper equipment make sure things are running at optimal performance. Some of the uh --older equipment like again I said is cost -- more costly to keep going, more breakdowns, and with this new equipment we feel that it’ll be better -- better -- more beneficial to the citizens and to the Water Department, our customer to make sure that they can get things done in a timely manner.”

President: “Do you know Mr. Gibson if there is like a backlog or if there -- you're in the emergency situation with compressors as far as the urgency of this particular contract?”
Mr. Gibson: “Yes sir, especially this time of year it is because some -- some of the compressors we have are -- have we're -- having issues even getting parts for some of them. Some of the companies moved overseas that we've currently owned -- have now, the brands and I've waited as long as nine months for some parts.”

President: “And then but do we Mr. Gibson, do you have, say for example right now over at say Biddle Street right so, at Biddle Street do you have vehicles that are sitting there that DPW Water Wastewater can't use because you need air compressors?”

Mr. Gibson: “Yes, there is some equipment that is down right now at this time, that I -- they don't have available to them.”

President: “That at all. How long have they been sitting there and how quickly do you think you can get them back out on the street?”

Mr. Gibson: “Various lengths of time, like I said some of them you know could -- could be as long as a couple days and some of them been there for months.”

President: “Okay, thank you. And Mr. Director for you, you said that there were two vendors and now there’s just one. Can you talk about that process and how one was not selected, how the other was selected, etcetera?”

Director of Finance: “Going back to 2003--”

President: “A long time ago, it was my freshman year in college by the way.”
Director of Finance: “It was -- that was back when I was a budget director. So we went on a competitive process, we selected two vendors. The purpose of having two vendors was so that every time we had a transaction we wanted to execute, we could go to both of the vendors to get the lowest interest rate, and the process worked well. What occurred was a couple of years ago, the second vendor was purchased by a larger entity. When they were purchased by this other entity that entity decided that that subsidiary that they had just purchased was no longer going to be into the financing field. So uh -- we were left with one vendor. Again, we went out on a competitive process, because we wanted to have at least two vendors always competing against each other so, that the City could get the lowest interest rate. The second vendor -- the second vendor that had applied, was deemed to be non-responsive and that was during this past year. So, that left the present vendor that had a responsive bid. We have not moved to the Board for that bid yet, and what the Finance Department is doing is because we’re still in the position of only having one bidder -- we're uh -- redoing the bid process. So that we can have multiple bidders again to compete against each other for every transaction that the city needs financing for.”
President: “And how long do you think that process is going to take.”

Director of Finance: “Well we want to expedite it especially under the current circumstances so, I would say in the next three months, within the next three months.”

President: “Thank you and I guess this is uh -- Mr. Solicitor or someone else from the Law Department. So at last week’s meeting I uh -- asked about options uh -- if either the Inspector General or the Federal Investigation came back and saw that there were some improprieties in contracts awarded before, long ago, and the Solicitor opined that we did have options. Can someone explain what those options would be Mr. Solicitor? Either you or you on the Board if you want someone else to explain it, or Mr. Raymond can explain it.”

Director of Finance: “The contract has provisions that if uh -- the allegations uh -- are indeed accurate, there are uh -- steps we will take to uh -- terminate the agreement and as I indicated last week to debar the vendor. And these were -- are all outlined in the general conditions of the contract.”

President: “So knowing that Mr. -- Mr. Raymond, Direct -- Director and hearing what Mr. Gibson uh -- just said about this contract
and knowing that you’re expediting this and this was what I spoke about last week. And listen I have the utmost uh -- respect and uh -- utmost confidence in both the ongoing Federal investigation and the Inspector General’s investigation that are ongoing and know that no one has -- has not been charged other than the former Mayor and I think that that’s important information for everyone to know. That we have to let these investigations play their course and act accordingly after that. But with all that information even understanding at that this uh -- equipment is needed and we can’t rush to judgment on anyone and know that the situation that we in is bigger than any one person, uh -- really this goes to me to the core of a -- a outdated government structure that we have to change and address in -- in posthaste, that allow these kind of situations to grow with. But for me, it begs again the question and this is what I’m going to ask the Board if -- if we should defer these items until you’re able to one, expedite the process to have multiple vendors and two until the investigations have taken their course. So uh -- members of the Board I would like to make a motion to defer this item until the investigations have taken place.”

City Solicitor: “Mayor -- Mr. President may I uh--”
President: “Yeah, sure.”

City Solicitor: “May I be recognized? Mr. Raymond can you tell the Board how many, if any additional transactions are in the pipeline and are anticipated to be presented to the Board over the next two or three months?”

Director of Finance: “Not sure over the next two or three months. I do know that there are two minor uh -- transactions scheduled for the next uh -- Board of Estimates, uh -- probably with a uh -- value of less than three $300,000.00 or so.”

City Solicitor: “Wha -- what are those products -- are those -- do you recall?”

Director of Finance: “Ms. Sher.”

Erin Sher-Smyth, City Purchasing Agent: “So we will regularly have -- sorry --”

President: “Please state your name.”

City Purchasing Agent: “Erin Sher-Smyth, City Purchasing Agent. We generally have one or two items that use Master Lease funds financing on every agenda, and for the next one, I know we have a stake body truck, which is less than $50,000.00. There is another
item but they are small, but they are regular and the solicitations are already out. We are expecting to award so while the Board might look at the air compressors as something that could be held um -- there’s going to be others that are continuing and some will be a lot more urgent than others. So, my office is expediting the rebid of the Master Lease, but I would ask that because it touches on so many procurements already in the works that we continue with the -- the those -- that will be using a Master Lease.”

City Solicitor: “Now if I may Mr. President. If the Board decides to shut down the Grant -- the financing opportunity entirely, what are the options for the City?”

Comptroller: “We don’t have any. We pay cash.”

City Solicitor: “The City just pay cash--“

Comptroller: “Yeah.”

Director of Finance: “Yeah -- we -- we pay cash uh -- until the issue’s resolved uh -- we will look at if there are opportunities to utilize other governmental contracts from uh -- neighboring jurisdictions, pig-- piggybacking on contracts.”

City Solicitor: “And then finally, Mr. Raymond has the Law Department given you any indication that so far based on what we
know, there’s any legal impediment to continuing to utilize the Master Lease?”

Director of Finance: “The answer would be no. No legal impediment to using the present and existing contract.”

City Solicitor: “Okay. Thank you Mr. President.”

President: “Thank you. Questions, Madam Comptroller? Mr. Mayor? Thank you, thank you Mr. Gibson, thank you.”

Director of Finance: “Thank you.”

President: “All right, well is it a motion?”

City Solicitor: “I don’t uh --”

President: “Well that motion died, there was no second.”

City Solicitor: “There was no second.”

President: “Yes, sir.”

City Solicitor: “Uh -- is the motion withdrawn?”

President: “Yes, sir.”

City Solicitor: “Okay. I move approval of the item as recommended by Procurement.”

Deputy DPW Director: “Second.”

President: All those in favor say AYE. All opposed say NAY. The President ABSTAINS. Thank you.”

19-0341 - An Ordinance concerning the Franchise - Baltimore Region Rapid Transit System Sections A and C For the purpose of granting a franchise to the Maryland Transit Administration ("MTA"), formerly known as the Mass Transit Administration, of the Department of Transportation of the State of Maryland to use and maintain the existing Baltimore Region Rapid Transit System Sections A and C, located within the boundaries of the City of Baltimore, as shown on the documents entitled “Baltimore Region Rapid Transit System Phase 1, Section A Route Map”, dated September, 1976 and filed in the Department of Public Works on October 1, 1976, and “Baltimore Region Rapid Transit System Section C Route Map”, dated April 1, 1988 and filed in the Department of Public Works on April 15, 1988, subject to certain terms, conditions, and reservations; and providing for a special effective date.

The Law Department notes that the bill as drafted omits a section in which the Board of Estimates can record the determined amount of compensation for this franchise. Moreover, the bill’s reference to the “Director of Transportation” is unclear as to whether the phrase means the Director of the State Department of Transportation or the City’s Department of Transportation. For this reason, the Law Department seeks to amend and clarify the bill as indicated below:

Amendment No. 1

On page 2, in line 44, and, on page 3, in lines 5, 7, 8, and 40, in each instance, before “Director,” insert “Grantor’s.”
Amendment No. 2

On page 3, after line 24, insert

“SECTION 5. AND BE IT FURTHER ORDAINED, That as compensation or the Franchise, the Grantee shall pay to the Mayor and City Council of Baltimore a franchise charge of $0.00 a year. The franchise charge must be paid annually, at least 30 days before the initial and each renewal term of the Franchise.”

Amendment No. 3

On page 3, in lines 25, 32, and 36, and, on page 4, in lines 1 and 9, strike “5”, “6”, “7”, “8”, and “9”, respectively, and substitute “6”, “7”, “8”, “9” and “10”, respectively.

With the adoption of these amendments, the Law Department is prepared to approve the bill for form and legal sufficiency.

19-0468 - An Ordinance concerning the Child First Authority - Updating For the purpose of amending certain statutory provisions governing the Child First Authority to better reflect the Authority’s status under City Charter Article II, §64(b), as an “independent unit” of City government; conforming certain provisions to long-standing existing practice; and repealing certain obsolete provisions.

The advice of the Law Department regarding City Council Bill 19-0468 provides:

City Council Bill 468 amends the statutory provisions governing the Child First Authority to better reflect its status under the Baltimore City Charter, Art. 11, §64 as an “independent unit” of City government.

Specifically, the bill strikes the existing provisions regarding the composition of the Board of Directors and replaces it with language providing that the Board be appointed as provided in the Authority's by-laws. The bill removes Board of Estimates approval of the by-laws. Board of Estimates' approval of the financial plan is removed and submission of the Authority's yearly plan to the Board of Estimates is no longer required. The roles of the Mayor in the appointment of board members and the Executive Director are struck as well. Finally, Board of Estimates’ oversight of the fiscal operations of the Authority is also removed.
CITY COUNCIL BILLS:  - cont’d

Authority for the creation of the Child First Authority was granted to the Mayor and City Council by the General Assembly in the 1996 session. Section 64 was added to the City's Express Powers in Art. II of the Charter. The Mayor and City Council exercised that power by ordinance later that year. The City Council legislation was enacted just a year before the City public schools were taken over by the State. At the time, it made sense for the City to be involved in creating an entity to ensure the provision of after school enrichment programs. After the divesting of authority over the schools the City has not been the party seeking the Authority’s services, The Child First Authority has been active ever since its creation in providing the programs that it is charged with providing. For most of that time, however, the City has not been in charge of the BCPS.

The Authority wishes to further enhance its independence from the City by updating the law to remove all City involvement in its affairs. The Law Department has been advised that the Authority does not receive any City funding so Board of Estimates' involvement is not necessary.

The Law Department is concerned about this because the enabling legislation in the Charter allows the City to provide funding and services. If this were to occur, involvement of the Board of Estimates would be necessary to appropriate any such funding. It is therefore suggested that to clarify this, the bill be amended to add on page 2, line 21 after “procedures”, “Provided, however, if the Authority is given direct City funding, receipt and expenditure of such funds are subject to the power of the Board of Estimates.”

Subject to the foregoing, the Law Department could approve the City Council Bill 19-0468 for form and legal sufficiency.

ALL OTHER REPORTS RECEIVED WERE FAVORABLE.
CITY COUNCIL BILLS: - cont’d

UPON MOTION duly made and seconded, the Board approved City Council Bill Nos. 19-0341, 19-0342 and 19-0468 and directed that the bills be returned to the City Council with the recommendation that they also be approved by that Honorable Body. The Mayor ABSTAINED. The President ABSTAINED.
Department of Finance - Modification to Procurement Card Program Policy 309-1

ACTION REQUESTED OF B/E:

The Board is requested to approve modifications to Procurement Card Program Policy AM 309-1.

AMOUNT OF MONEY AND SOURCE:

N/A

BACKGROUND/EXPLANATION:

The major changes to this policy are as follows:

- expands the use of P-Cards from a purchasing method to include a payment method,
- provides a list of restricted items,
- requires that a receipt or invoice for each transaction is submitted to the Bureau of Procurement rather than only when audited,
- allows for user to submit a missing receipt affidavit, and
- formally introduces a waiver process for removal of restrictions, increase of purchase and payment limits, and adjustment of Merchant Category Codes.

The Bureau of Procurement will implement a new online management system that will replace the manual P-Card reconciliation process and will allow for easier submission and tracking of documentation. Additionally, a user guide will become available shortly. The user guide will work in conjunction with this policy and will provide details and outline specific procedures for user to get the most of this program.
Procurement Card Program

The Department of Finance has established the Procurement Card Program (PCP) that facilitates the procurement of goods and services on a direct or emergency basis; the payment of recurring expenditures; and the payment of invoices as set by the terms of an approved purchase order (PO).

Under the authority set and enforced by the Department of Finance, Bureau of Procurement (BOP), this policy establishes standards for the issuance and use of the procurement card (P-Card). This policy works in conjunction with a PCP user guide, which provides details and outlines specific procedures that must be followed. Agency heads may impose stricter requirements than those stated in this policy for their agency.

This program requires each agency to:

- have a minimum of two eligible employees to participate. At a minimum, one eligible employee can serve as the cardholder and agency coordinator. An agency approving official can be a cardholder.

01/01/20 (replaces 07/01/09)
m. **Procurement Card Program**

However, he/she cannot serve as the agency approving official of his/her P-Card. A proxy must be designated for the agency approving official.

- Include a BAN on each applicant’s *New Procurement Card Application*. This account number must be active prior to submitting the application to BOP. The cardholder’s total monthly expenses will be charged to it. Capital BANs are unacceptable. Only general fund BANs are acceptable. Other BANs will only be accepted from agencies that do not use general fund BANs.

**Card Use**

P-Cards can be used for two primary purposes as follows:

1. **Purchase of**
   - goods (point of sale and emergencies); and
   - travel-related services, emergency services, and other services as described in the FCP User Manual.
2. **Payment of invoices** as set by the terms of an approved PO (to be determined in advance by BOP).

Agencies must have a significant number of P-Cards to meet their operational needs. However, agencies may have shared cards as long as sufficient internal controls are in place and the cardholder remains primarily responsible for all duties related to it.

**Card Restrictions and Purchase and Payment Limitations**

P-Cards cannot be used to purchase goods and services when a requirements contract is in place for the desired goods and services (excluding exceptions identified by BOP).

The City is exempt from paying sales taxes. Violators must reimburse the City for any sales tax improperly paid and may be subject to enforcement action.

Items intended for personal use (e.g. serves no legitimate government purpose) may not be charged, even when there are intentions of reimbursing the City. Violators must reimburse the City and may be subject to enforcement and/or disciplinary action.

Additionally, the following is a list of some items for which purchase is restricted on the P-Card (excluding specific exceptions identified by BOP):

- Alcoholic beverages
- Capital equipment
- Cash advances
- Computers
- Construction and renovations
- Consulting services
- Entertainment (e.g. amusement park, theatre, zoo)
- Firearms and ammunition
- Furniture and furniture related items
- Gasoline or diesel fuel
- Incentive cards (e.g. gift cards)
- Jewelry
- Prescription drugs or other controlled substances
- Printing services

01/01/20 (replaces 07/01/09)
m. Procurement Card Program

- Rental/lease of vehicles
- Tobacco products
- Wireless devices

Agencies that wish to use their P-Card for educational courses can only do so after receiving written confirmation from the Department of Human Resource (DHR) that the desired course is not offered by the DHR.

Each P-Card account is coded with the following:

- Purchase limits:
  - credit limit for the cycle
  - dollar limit per transaction
  - dollar limit per vendor per fiscal year (excluding exceptions identified by BOP)
- Merchant Category Code (MCC) – Only certain classes of merchants can be utilized, and each merchant is identified as their type of business by a Standard MCC. Allowed MCCs are individually assigned to each P-Card. These codes will allow each P-Card to be used only at those merchants within an authorized MCC.

In the event a P-Card will be used as a payment method on a PO, BOP may require a separate P-Card application be submitted for a card that will have the credit limits and/or dollar limits removed. This card will only be approved for use as a payment method on POs, and not for purchases directly with merchants.

Agencies must submit to and receive from BOP an approved Procurement Card Program Waiver Request or alternate documentation identified by BOP to remove restrictions, increase purchase and payment limits, and adjust MCCs.

Purchase Procedures

Prior to using the P-Card, the cardholder must:

- Ensure the following:
  - the purchase is necessary to or supportive of City operations and in accordance with the City’s fiscal AM policies;
  - the goods are immediately available and delivered within a 30-day billing cycle (no back ordering); and
  - the goods will be delivered to a City work site.
- Ensure that the desired goods are not covered by a current requirements contract and have an approved Procurement Card Program Waiver Request from BOP when an exception to this requirement is needed.
- Ensure that the agency will not exceed the dollar limits and, where applicable, have an approved Procurement Card Program Waiver Request from BOP when an exception to this requirement is needed. Split procurements may go through once this dollar limit has been met; however, cardholders will be in violation of this policy and subject to enforcement and/or disciplinary action.
Procurement Card Program

When making a purchase, the cardholder must provide each merchant the City's tax ID number as tax exemption is not an automatic process. When the cardholder receives their goods, he/she must:

- immediately check to ensure that items purchased have been received and undamaged;
- ensure that the agreed-upon services were provided;
- ensure sales tax is not assessed;
- check the invoice to ensure the amount billed harmonizes with the quote;
- immediately contact the vendor to correct any discrepancies; and
- follow the card provider’s procedures for disputing charges if the dispute cannot be resolved with the vendor.

Orders must not be placed with vendors

- that insist on charging sales tax;
- with whom a cardholder has an unresolved sales tax charge; and
- that will not provide written proof of purchase that includes the vendor’s name and address, date of purchase, item(s) purchased, quantity, and cost.

Reconciliation

During the grace period, the card provider shall notify each cardholder, the agency coordinator, and the agency approving official on the day each cardholder’s individual statement is available if there is activity during the period. This notification represents the date the cardholder receives their individual statement. Upon receipt, each cardholder must immediately review it for accuracy. Discrepancies that cannot be corrected with the vendor and fraudulent charges must be immediately reported to the card provider.

Each individual statement must be reconciled with the following documents:

- Receipt or invoice for each transaction;
- Journal Entry (version approved by BAPS) – The charges for all P-Card transactions will be applied to the BAN identified on the cardholder’s application. At the end of each monthly billing cycle, the agency coordinator must prepare a journal entry that credits this BAN and debits the appropriate BAN for each transaction.
- Written documentation provided to the card provider when disputing discrepancies and fraudulent charges, if applicable;
- Reimbursement documentation, if applicable; and
- Written authorization as described in this policy and/or the PCP user guide.

All of these documents, where applicable, must be approved and submitted to BOP by the agency approving official before the conclusion of the reconciliation period. The reconciliation period includes the time required by BAPS to approve the agency’s journal entry. Enforcement action, up to and including deactivation of P-Card, may be implemented if BOP does not receive these documents before the reconciliation period concludes. Once a P-Card is deactivated, the cardholder can re-apply as a new applicant but must correct shortcomings and attend training before a new P-Card is issued to him/her.
Reimbursement

Cardholders who pay sales tax and purchase unauthorized items are in violation of this policy and may be subject to enforcement and/or disciplinary action, up to and including termination and legal action. If the cardholder has lost a receipt, he/she must reimburse the City for the expense or provide an affidavit of the purchase and loss of the receipt. Sales tax and personal and unauthorized items must be reimbursed to the City via a Cash Deposit Slip. The cardholder must submit a validated copy of the deposit slip or a signed missing receipt affidavit to BOP with their reconciliation documentation by the deadline in which the expense was incurred. If the cardholder reimburses for the lost receipt and subsequently locates the receipt or receives a credit of sales tax from a vendor in a future individual statement, he/she can pursue reimbursement in accordance with the Employee Expense Report policy (AM-240-11). The City can pursue reimbursement from the cardholder by payroll authorization.

If a third party is reimbursing the City for P-Card transactions, the agency must prepare a Cash Deposit Slip applying the reimbursement to the BAN that each reimbursable expense was charged. A copy of the validated deposit slip and supporting documentation must be submitted to BOP.

Responsibilities of Stakeholders:

- Cardholders
  - Be knowledgeable about and use their P-Card in accordance with this AM policy;
  - Strive to obtain the best value for the City;
  - Keep his/her P-Card in a secure place, not allowing any unauthorized personnel to use it;

  - Provide advance notification to BOP when he/she is transferring to another City agency or separating from City services and give his/her P-Card to the agency coordinator before their departure; and

- Agency Coordinator
  - Act as the cardholder in the cardholder’s absence;
  - Review the cardholder’s individual statement and documentation and correct shortcomings, if any;
  - Assign a BAN for each P-Card and for each P-Card transaction and ensure they are active;
  - Prepare or have the ability to prepare a journal entry and cash deposit slip;

  - Ensure reimbursement has been paid, where applicable, and supporting documentation is provided to BOP;

- Arrange for the payment of the corporate invoice from the card provider in accordance with payment procedures identified by BAPS;
- Audit at least ten (10) cardholders each month by analyzing their reconciliation documentation;
- Take appropriate enforcement action;
- Work with internal and external auditors, upon receipt of a letter of engagement for a PCP audit;
- Maintain records of applications, cards issued, waivers requested and granted, audits, training, enforcement actions, surrendered cards; and
- Maintain the contract with the card provider.

Retention of Files

Each agency must retain their P-Card documentation (to include all receipts and card statements) of the current calendar year and three calendars years preceding the current one.

Rights of BOP

BOP has the right to:

- reject an employee’s P-Card application even if he/she meets the qualifications;
- deny or discontinue an agency’s use of a P-Card and require an agency to obtain a PO;
- retain the P-Card if BOP believes a cardholder does not completely understand this AM policy, the PCP user guide, and his/her responsibilities related to the PCP after participating in training;
- require that P-Card stakeholders attend refresher training and subject cardholders and agency to enforcement action if cardholder fails to attend;
- extend the deadline for an agency to submit their reconciliation documentation; and
- remove restrictions, adjust credit limit, increase purchase and payment limits, and adjust MCCs, upon receipt of a written request from an agency.

Violation

P-Card stakeholders who violate this policy, abuse the PCP, and/or fail to fulfill their responsibilities as outlined in this policy may incur enforcement action (up to and including card deactivation), disciplinary action (up to and including termination), and/or legal action.
UPON MOTION duly made and seconded, the Board approved modifications to Procurement Card Program Policy AM 309-1.

The previous owner filed an answer and asserted a fair market value of $550,000.00 for collected and lost rent. They later reduced their estimated fair market value to $300,000.00. The City updated their appraisals and a new fair market value of $145,200.00 was arrived at. The parties settled at $200,000.00 at a Pre-Trial Conference. Therefore, the Board is requested to approve an additional $114,220.00 to the previous owner Helen H. Hunt ($200,000.00 less the previous approval amount of $85,780.00) in settlement of this case.

Department of Recreation and Parks – Supplementary Special Fund Appropriation for FY 2020

ACTION REQUESTED OF B/E:

The Board is requested to approve the Supplementary Special Fund Appropriation for FY 2020 to the Department – Service 654 Urban Forestry as compensation to the City for a franchise fee to maintain a gas main.

AMOUNT OF MONEY AND SOURCE:

To: 6000-633218-4783-363600-406001

BACKGROUND/EXPLANATION:

Department of Law – Settlement Agreement and Release

ACTION REQUESTED OF B/E:

The Board is requested to approve and authorize execution of the Settlement Agreement and Release with D’Wan Whetstone, Plaintiff, to settle her claim that she was illegally stopped and physically injured by officers of the Baltimore Police Department (BPD).

AMOUNT OF MONEY AND SOURCE:

$45,000.00 – 1001-000000-2041-716700-603070

BACKGROUND/EXPLANATION:

On March 12, 2015, BPD officers effected a traffic stop of Ms. Whetstone. In the course of the stop, the officers forcibly removed her from the vehicle. She alleges the officers employed excessive force and that as a result she suffered certain injuries. The parties participated in mediation with a United States Magistrate Judge and agreed in principle to settle all claims. Thus, to resolve this litigation economically and to avoid the expense, time and uncertainty of protracted litigation, Ms. Whetstone has agreed to accept from the City a payment of $45,000.00, in complete settlement of the case, including attorney’s fees. Neither the City nor the officers admit any liability and Ms. Whetstone agrees to dismiss and release any and all claims arising out of the incident.

Based on a careful review by the Settlement Committee of the Law Department of the facts and circumstances of the case, the Board of Estimates is urged to approve the settlement. In light of City Council Bill 19-0409, the Law Department no longer requests that settlements in police misconduct cases be placed on the non-routine agenda.

20.51 - 1001-000000-2131-228200-603001 - meals
$242.99

BACKGROUND/EXPLANATION:

Mr. Garith submitted his employee expense statement and appropriate back up documents on time, but it was inadvertently misplaced due to oversight.

The Administrative Manual, Section 240-11, states the Employee Expense Reports that are submitted more than 40 work days after the calendar day of the month in which the expenses were incurred require the Board’s approval.

The Department apologizes for the lateness.
