Account: 5000-560110-2250-248201-603013

BACKGROUND/EXPLANATION:

The leased space will be used for municipal purposes in the operation of the Baltimore City Police Department/Mayor’s Office of Criminal Justice CSafe Program.

On July 1, 2009, the Board approved a lease agreement with Mr. Jay Davis for the rental of the property located at 5132-34 Park Heights Avenue (Block 4582, Lot 011A) consisting of approximately 1,000 square feet. The period of the original lease agreement is July 1, 2009 through June 30, 2010, with an option to renew for one year. On July 1, 2010, the City exercised its one year renewal option commencing on July 1, 2010 through June 30, 2011.

The amendment to agreement will extend the original term of the lease agreement for one year, commencing on July 1, 2011 through June 30, 2012. All other terms and conditions of the original lease will remain in full force and effect.

The Space Utilization Committee approved this amendment to lease agreement on June 21, 2011.

The funds are required to cover the costs of extra work under W.C. 1198, Infrastructure Rehabilitation at Various Locations.

President: “The first item on the non-routine agenda can be found on Pages 20 and 21 #4 through 11. Extra Work Orders for Urgent Need Work Infrastructure Rehabilitation at Various Locations and an associate Transfer of Funds. Will representatives from the Bureau of Water and Wastewater please come forward?”

Mr. Chow: “Good morning.”

President: “Good morning.”

Mr. Chow: “Good morning Mr. President, Madam Mayor and fellow Board members.”
Comptroller: “State your name.”

Mr. Chow: “My name is Rudolph Chow, Bureau Head of Water and Wastewater. Before I start let me just hand out some documents.”

Mayor: “Two is fine I will give one to the --.”

Mr. Chow: “Sure. Thank you. WC 1198, Urgent Water Infrastructure Rehabilitation was first of all given notice of August of 2009, with a two year contracting period to address the basic needs -- the Urgent Needs work. The original award was for $10.47 million was based upon competitive bidding. In principle, the planned work as routinely accomplished within the Bureau of Water and Wastewater encumbers a normal design and bid process of one to two years. This Urgent Needs contract was aimed in response to infrastructure rehabilitation which required attention upon a shorter time scale, however, did not represent characteristics attributed to emergency work such as large water main breaks. However, in practice, what this contract has basically handled or augmented for all three categories namely; the Urgent, Planned, as well as Emergency Work. There was a table listed in the memo that DOT driven basically needs $8,000,000.00 was accomplished due to the resurfacing or the reconstruction of the roadways. So, before they do that we need to do our water main replacement in so it doesn’t have to be dug
up again. As well as the emergency work we called the 72 inch Dundalk PCCP water main break. That emergency repair was accomplished via this particular Urgent Needs contract. As well as there is about $8,000,000.00 or $9,000,000.00 worth of what we call urgent and planned water main replacement work. To date, WC 1198 has incurred 18 extra work tasks over the original contract for an additional amount of $4,887,433.91. The current agenda requests permission for extra work orders 19 through 25 for an additional $5,281,080.00 and time extension of six months through January 2012. This time extension is necessary to allow for revised design subsequent water infrastructure rehabilitation projects which will span four planned projects with a value of approximately $15.3 million dollars and one urgent needs contract with a value of $5,000,000.00 over a two year period. The Bureau anticipates that through the completion of 1198, there will be a need for additional approval leading up to January 2012 totaling approximately additional $4,000,000.00. for approval for new work as well as any unforeseen needs. Going forward, however, the Bureau will make a much concerted effort of sorting out required needs in the respective categories. As mentioned above, the four planned projects will follow the traditional design build process where the lowest bidder is awarded with a contract. In addition to
the $5,000,000.00 for truly urgent needs, and any unforeseen emergencies will procedures as outlined under the City Charter. And I am available for any questions that you might have.”

Mr. Bob McCarty: “Good morning Mr. President, members of the Board.”

President: “Good morning.”

Mr. McCarty: “My name is Bob McCarty I am the City Auditor. We basically had two concerns with these six change orders going to the Board today, numbers 19 through 25 on page 20. The first was that based on what we found, they range from being 75% to 100% completed already and the work started on these back in October 2010 through March of 2011. And change orders are required to have the prior approval of the Board of Estimates. The Green Book which is the City of Baltimore Specifications for Materials, Highways, Bridges, Utilities and Incidental structures under the section for construction change orders and directive states that obtaining prior Board approval will cause substantial delay in the work or substantial additional cost to the City because of the delay, the engineer with the written concurrence of the Director has the authority to change -- to order the change without obtaining the prior approval of the Board. If that occurs, an early written notification to the Board shall state that the reason why it was necessary to order
the change without first obtaining the Board approval. We do not see where this was done. We also found that there are approximately 12 more change orders that are planned to come to the Board for approval and they total an estimated $2,000,000.00 and we found that some of this work has already been completed. Some for over a year. We also had, I guess, confusion on the Urgent Need and that we were not sure if planned work and maybe Emergency work was included. We found – we informed that the planned work is something that needs to be completed within one to 1½ years and must be bid out and can be postponed, and Urgent Need work must be completed in less than 1½ years and of course the Emergency Work goes by the Charter. Basically, we have two recommendations, one is that DPW comply with the Green Book requirements obtaining Board of Estimates approval and we also recommended DPW establish clear written definitions for what is planned and what is Urgent Need work.”

Comptroller: “I have a couple of questions.”

President: “Madam Comptroller.”

Comptroller: “Is DPW aware of the Green Book requirement that change orders need prior Board approval?”

Mr. Chow: “Yes we do. However, in practices you know we have to always obtain the Director’s approval. However, we might not have come forward until we have a bundle of them. Is that
practice the best management practice, perhaps not? But going forward we’ll make sure that we follow the proper approval process.”

**Comptroller**: “Okay. And are you aware of the procedures when prior approval cannot be obtained. Are you aware of the procedures when prior Board approval cannot be obtained?”

**Mr. Chow**: “Am I not.”

**Comptroller**: “You are aware?”

**Mr. Chow**: “Yes I am.”

**Comptroller**: “Okay. When can the Board receive written clarification for the difference between Planned and Urgent, because we know what the Charter says about Emergency?”

**Mr. Chow**: “Well the memo I just handed to you basically gets into some what of the definition of what we view as “Planned” versus “Urgent” versus “Emergency”.”

**Comptroller**: “Okay. Now I have a question, the Emergency, were they Emergency when the Department of Audits reviewed them?”

**Mr. McCarty**: “We couldn’t tell. It is possible. It was more of the other side between the Urgent Need and the Planned. We thought there was a better chance that might have occurred.”

**Director of Public Works**: “But -- Al Foxx --, in several cases that Mr. Chow indicated the Dundalk Avenue clearly an Emergency because destruction of property was at stake and they had to
react very quickly and a lot of things that he talked as far as water main breaks where you have to respond very quickly does fit into the category of Urgent where the Director gives the approval and comes back and asks for the Board’s permission if it is above the dollar limit on that particular contract. So, I think as Mr. Chow stated, they are putting in place the mechanisms to make sure that the proper procedures are followed for each of the categories and that’s -- and I think that is the key thing, -- proper procedure followed for each of the categories.”

Comptroller: “So, the original contract was $10,000,000.00 and the total contract amount will be approximately?”

Mr. Chow: “$27,000,000.00.”

Comptroller: “So the original contract was $10,000,000.00 and the -- it will be $27,000,000.00 when the job is completed?”

Mr. Chow: “Right. In essence under the new process that we are going to be moving forward with, the Planned Work amounts to about $15,000,000.00. Those works will be carried out under the traditional bidding process.”

Comptroller: “That was my next question.”

Mr. Chow: “Rather than Urgent.”

Comptroller: “Okay.”

Mr. Chow: “Correct.”
Comptroller: “I have no other questions.”

President: “Okay. I will entertain a Motion. Thank you. Move to approve the request as submitted by the Department.”

Director of Public Works: “Second.”

President: “All those in favor say AYE. All opposed NAY.”

Comptroller: “I OPPOSE because the proper procedure was not followed.”

President: “Please note that I ABSTAIN. The Motion carries.”

Health Department – Employee Expense Report

ACTION REQUESTED OF B/E:

The Board is requested to approve the expense report for Ms. Paulette Tucker for the month of December 2010.

AMOUNT OF MONEY AND SOURCE:

$70.90 – 1001-000000-3100-295900-604003

BACKGROUND/EXPLANATION:

The Administrative Manual, in Section 240-11, states that Employee Expense Reports that are submitted more than 40 work days after the last calendar day of the month in which the expenses were incurred require Board of Estimates approval.

Ms. Tucker submitted her request for reimbursement several months after purchasing uniforms due to her lack of understanding of the policy.

The Department apologizes for the lateness.

APPROVED FOR FUNDS BY FINANCE

AUDITS REVIEWED AND HAD NO OBJECTION.

UPON MOTION duly made and seconded, the Board approved the expense report for Ms. Paulette Tucker for the month of December 2010.
TO
The Honorable President and Members of the Board of Estimates

Dear Mr. President and Members:

Water Contract 1198 Urgent Needs Water Infrastructure Rehabilitation was given notice to proceed on August 26th, 2009 with an original scope of work addressing “Urgent Needs” work over a period of two years. The award amounted to $10,47 million and was based upon competitive bidding.

In principle, “Planned Work” as routinely accomplished within the Bureau of Water and Wastewater encumbers a normal design and bid process of one to two years. This Urgent Needs contract was aimed in response to infrastructure rehabilitation which required attention upon a shorter timescale, however did not represent characteristics attributed to “Emergency Work” such as large water main breaks.

In practice, the scope of the contract has been augmented in response to all three categories. The urgent needs repairs related to repair of water and sewer lines in advance of Department of Transportation resurfacing and reconstruction work. In addition, the contract has been utilized for emergency repairs including the 72” Dundalk water main break. The table presented below summarizes a breakdown of the three types of work currently released under the contract and the corresponding cost per the engineers estimate.

To-date WC 1198 has incurred eighteen extra task orders over the original contract for an additional amount of $4,887,433.91. The current agenda requests permission for extra work orders nineteen through twenty-five for an additional $5,281,080.00 and time extension of six months through January 2012. The time extension is necessary to allot for revised design of subsequent water infrastructure rehabilitation projects which will spawn four planned projects with a value of approximately $15.3 million and one urgent needs contract with a value of $5M over a two year period.

The Bureau anticipates that through the completion of WC 1198 there will be a need for additional approval leading up to January 2012 totaling approximately additional $4,000,000 for released and new work as well as unforeseen needs.
Going forward, the Bureau will make a much concerted effort of sorting out required needs in the respective categories. As mentioned above, the four planned projects will follow the traditional design-bid-build process, the $5M urgent needs contract will be utilized for true urgent needs. Any unforeseen emergency work will follow the procedure as outlined under the City Charter.

The period of the agreement is July 1, 2009 through June 30, 2011.

   **MWBOO GRANTED A WAIVER.**
Health Dept. – cont’d

The agreement is late because of several reasons. On September 30, 2009, the Board approved the original grant award for July 1, 2009 through September 30, 2011. On June 9, 2010, the Board approved amendment no. 1 for additional funds for the extended Individualized Family Service Plan Option and changed the grant term to July 1, 2009 through September 30, 2011. Because the grant award was amended, the sub-grantee budgets had to be revised to reflect those changes and some of the budget information was misplaced.

UPON MOTION duly made and seconded, the Board approved and authorized the foregoing agreements. The Comptroller ABSTAINED on item nos. 7 and 9.
Health Department – Expenditure of Funds

**ACTION REQUESTED OF B/E:**

The Board is requested to approve an expenditure of funds to purchase gift cards from Thor Eastpoint Mall, LLC.

**AMOUNT OF MONEY AND SOURCE:**

$3,000.00 - 6000-625211-3080-289400-604015

**BACKGROUND/EXPLANATION:**

The Department will purchase 120 gift cards @ $25.00 each.

The Department’s Adolescent & Reproductive Health Program runs two successful comprehensive after school pregnancy preventive programs. The Mi Espacio Program site launched in 2000 and targets Latino/Hispanic youth in East Baltimore. This after school program is modeled after the Children’s Aid Society pregnancy prevention approach, designed by Dr. Michael Carrera. His model which has been rigorously evaluated, has proved effective in decreasing births and pregnancies by half among its female participants for up to three years.

The Department has a consolidated policy for the purchase, distribution, and documentation of all incentive cards. The central tenets of this policy account for: 1) a single means of procuring all incentive cards through the Board of Estimates, 2) the documentation of each incentive card and its recipient, 3) a monthly reconciliation for all purchases that account for all distributed and non-distributed cards, and 4) periodic internal reviews of program’s activity vis-à-vis the internal policy.

**APPROVED FOR FUNDS BY FINANCE**

**AUDITS REVIEWED AND HAD NO OBJECTION.**

UPON MOTION duly made and seconded, the Board approved and authorized the expenditure of funds to purchase gift cards from Thor Eastpoint Mall, LLC.

APPROVED FOR FUNDS BY FINANCE

THE LABOR COMMISSIONER RECOMMENDED APPROVAL.

UPON MOTION duly made and seconded, the Board approved the transfer of LIFE-TO-DATE sick leave days from the listed City employees to the designated employee, Tina Stallworth. The President ABSTAINED.
Mayor’s Office of 
Information Technology (MOIT) 

ACTION REQUESTED OF B/E:

The Board is requested to approve and authorize execution of a memorandum of understanding (MOU) with the City of Annapolis, Anne Arundel County, Baltimore County, The County Commissioners of Carroll County, The Board and County Commissioners of Fredrick County, Harford County, Howard County, Montgomery County, and Prince George’s County (collectively, The Inter-County Broadband Network Consortium or ICBN). The period of the MOU is effective upon Board approval through August 31, 2013.

AMOUNT OF MONEY AND SOURCE:

$100,000.00 - 1001-000000-1474-165700-605003
160,000.00 - In-kind matching funds from staff administrative time and the contribution of City owned underground conduit.
$260,000.00 - Total

BACKGROUND/EXPLANATION:

The federal grant is from the National Telecommunications and Information Administration. The State of Maryland is the prime recipient of the $115,240,581.00 award. The ICBN is a sub-recipient receiving $72,155,682.00 in grant funds.

The MOU is to establish efficient administration of the federal Broadband Technology Opportunities (BTOP) grant. The value of the new fiber optic network cable, engineering costs, construction and electronics is $4,500,000.00. Howard County is the designated administrator of the grant for the ICBN.

The project will bring to the City 37 miles of new fiber optic cable and connect 45 city public safety facilities to a high speed network. The optimized routing will provide reduced costs for new close circuit television installations. In addition, it will link all Maryland jurisdictions to a common high speed network and reduce annual fees the City currently pays to private suppliers of broadband service.
MOIT – cont’d

All newly constructed assets within the City of Baltimore will transfer to City ownership at the end of the project in August 2013.

APPROVED FOR FUNDS BY FINANCE

UPON MOTION duly made and seconded, the Board approved and authorized execution of the memorandum of understanding with the City of Annapolis, Anne Arundel County, Baltimore County, The County Commissioners of Carroll County, The Board and County Commissioners of Fredrick County, Harford County, Howard County, Montgomery County, and Prince George’s County. The President ABSTAINED.
On the recommendations of the City agencies hereinafter named, the Board,

UPON MOTION duly made and seconded,

awarded the formally advertised contracts listed on the following pages:

   A PROTEST WAS RECEIVED FROM AMERICAN INFRASTRUCTURE-MD, INC.

President: “The second item on the non-routine agenda can be found on page 56 item no. 2. Replacement of Bridge BC 6521 George’s Creek Road over George’s Run. Will the parties please come forward?”

Mayor: “Are these the protestants?”

Mr. Coon: “Curtis Coon for the protestant.”

Mayor: “You need to use the mic.”

Mr. Coon: “Thank you. Curtis Coon for the protestant.”
Mayor: “I thought the protestants go first. Am I wrong.”

President: “Thank you.”

Mayor: “Isn’t that how they usually do?”

President: “Normally we let the agency.”

Mayor: “Oh sorry, sorry.”

President: “But its cool, they can go first.”

Mayor: “No, no don’t listen to me.”

Mr. Murphy: “Good morning Frank Murphy from the Department of Transportation. We are here to support the award to the second lowest bidder J.W. Brawner.”

Ms. Shirley Williams, Chief MWBOO: “The low bidder for this contract was American Infrastructure. We found that bidder in non-compliance with the MBE program for the following reasons. Number one, with one of the MBE’s name Interlock Steelworkers, there is a question as to whether one element of the work named in the program is actually in the project. Number two, there was an MBE, C. Jones Trucking, where the Statement of Intent the Form C had been changed after it had been signed. The scope of services had been changed and it was not initialed by the MBE. On the second MBE, Machado, the amount of the contract had been reduced and it had not been initialed by the MBE. With one WBE, J & M Sweeping, the amount of the contract had been reduced and it had not been initialed. Bear in the mind that the Statement
of Intent represents an agreement between the prime contractor and the subcontractor as to the scope of services and the amount of the contract that is agreed to. So, when there is a change it should be initialed by both parties.”

President: “Sir.”

Mr. Coon: “Thank you. Curtis Coon for American Infrastructure. American Infrastructure is the apparent low bidder, we had submitted our protest with some exhibits. I hope each of you received a copy. The first exhibit of course is the statement of the award and the order in which the bids were submitted. However, at the time of the bid opening, the proposed awardee was not announced. Their bid was not announced but was rather set aside. At this time, we are protesting also on that basis as well as the fact that my client was never given any formal basis for its being disqualified other than the scope of work of Interlock Steel Workers, Inc. and the issue of the scope. This was done really by an informal email. As to the suggestions about Machado and J & M Sweeping I am not as versed on what the basis there is. However, let me address the basis that we have in front of us and that we were informed of which was that the minority contractor, Interlock Steel Workers, Inc. which is a Native American company and certified to do concrete construction and erection and structural steel, was somehow
properly categorized when in fact what it was -- part of what it was presenting for its scope of work included the beams of the bridge, and also the interlocking steel reinforcement that is contained within the concrete structure that precedes the beam itself. Many of you have traveled over a bridge and you hit a typical piece of metal before you hit the bridge itself. It is a transitioning sort of structure that is below grade that supports the load of the vehicular traffic whatever it may be. I would like to point out that the term structural steel is not really defined. However, the term structures is defined as including bridges, culverts, catch basins, drop inlets, the list goes on and includes such things as under drains and foundation drains, and then it says other features which maybe encountered in the work and not otherwise classified. Certainly the primary and really the only objection that we have heard until long after the bid opening had to do with this steel component as to whether the certified minority was operating within their classification, and certainly we feel that it is clear that it is. We’ve included in our protest under exhibit 3, the detailed drawings in part that show the structural steel that is in question here, and shows clearly to be of a supportive nature and certainly it is not an architectural type of steel. We have also included an affidavit of a professional engineer, Richard
Duncan, to the effect that this steel that is in question is in fact structural steel and we have also included the certification of the Interlock Steel Workers, showing that they are classified and accredited in the area that includes reinforcing steel, post tensioning, structural steel and concrete construction. This very same sub is the subcontractor that is going to fabricate and erect the steel beams or concrete beams that are steel reinforced will actually span over the George’s Creek. This is out at Prettyboy Reservoir and part of the water system. This road serves that area. As to the matter of the scope of Jones Trucking, all that occurred here is this is a trucking item of a certified minority where the bidder simply eliminated part of the scope of Jones Trucking and I guess this is a question of how much trucking you allot to a subcontractor, whether you allot trucking and something else or just trucking. American Infrastructure felt that it had a signed and understood agreement with Jones Trucking that it could eliminate part of the scope and assign more trucking in the purest sense and we have included as exhibit no. 2 the entire MBE participation disclosure form for American Infrastructure. In terms of C Jones Trucking, LLC that is found in tab 2 of the protestants package, and it indicates that local trucking partial in the subcontract amount was set out to simply
exclude the construction management line and include only local trucking. My client in terms of these matters with Machado and J & -- and uhm has not been previously aware of any specific complaint or problem in that regard and as I say in fact had only been given the most informal email type notification of the issues that we have brought up. I would also point out that in terms of the affidavit of compliance and in terms of the goals being met, my client has 25% MBE and 3% WBE. The affidavits are included and simply would suggest that it is quite possible that a last minute bid numbers that there could be some changes that occur in the fray of submitting a bid. But, my client feels that it has in every material respect completely complied with the requirements. That there is no requirement found in any of the regulations that indicate that there must be an initial of any kind of a minor change. My client is not attempting to obtain any advantage or in fact in this case the only advantage would be obtained by the second bidder costing the City an additional $150,000.00. This is the second time this project has been bidded. The first time it was rebid. The second time here we have a proposal of the bid to a bidder whose bid wasn’t even announced at the bid opening and was referred over to the legal department, we don’t know why. So, with this in mind, I would suggest that American Infrastructure being the responsible
and responsive low bidder be awarded the contract for this offering. Thank you. Mr. Lewis Glasmire the project manager is here if there are any specific questions that you might have to him.”

City Solicitor: “Ms. Williams could you comment specifically on issue of the failure to have the substantive changes in the Part C’s initialed by the subcontractors?”

Ms. Williams: “Absolutely. When we look at that Statement of Intent, that is our indication when we are evaluating participation that indeed the prime contractor and the subcontractor have agreed on the scope and also have agreed on a price. When there is a change and we consider those to be substantive issues. So, when we have a change in scope that is not initialed by the subcontractor that means we don’t know if that subcontractor has agreed to perform that work or even if that subcontractor knows that that portion of the work has been deducted from his contract. When we have a change in the amount, especially a reduction, we are not aware whether that subcontractor that the overall contract has been reduced. If the contractor agrees to perform that same work for a lesser amount, we don’t know. So, in that instance, we don’t really have a meeting of the minds when that form is signed.”

President: “Thank you.”
City Solicitor: “Could you excuse me for a minute. We are going to take a very brief recess, If you don’t mind.”

Mayor: “Second.”

City Solicitor: There’s a gentlemen in the room or in City Hall, can you quietly escort him out?”

President: “All in favor say AYE. All opposed NAY. Motion.”

City Solicitor: “Move to resume the meeting.”

President: “The meeting of the Board of Estimates is now back from recess. Ms. Williams, were you finished? Okay. Any further comments from anyone?”

City Solicitor: “Any information by the way just on the Brawner allegation that it was not read out. Another customary practice is to read out the bid but then to refer to the Law Department if there is an issue. Circumstances here if you know, if the agency knows?”

Ms. Griffith: “Good morning Laetitia Griffith, Department of Transportation. All the bids were read and announced and verified at the bid opening.”

President: “Okay. Thank you. Any questions? Comments?”

City Solicitor: “I would MOVE the approval of the --.”

Mr. Glasmire: “I would like to comment Lou Glasmire, American Infrastructure. Our fellow that turned the bid in said that their bid had two totals. It may have been Ms. Griffith is it?”
Ms. Griffith: “Yes.”

Mr. Glasmire: “That said, this thing has two totals and then referred it to legal.”

Ms. Griffith: “That is not what it indicated on the bid.”

President: “Yes.”

Mr. Glasmire: “That is what happened at the bid opening.”

Ms. Griffith: “I can’t speak to that but I have the bid results as they were written at the bid opening.”

Deputy Comptroller: “If I may address, I am the Clerk to the Board. Bernice H. Taylor, and on the date of the bid opening which was 5/18/2011, all bids are noted here as the amounts being read publicly and notation that there was a bid bond received. So, I have no recollection or reviewing this can determine for any reason that any of the bids did not go directly to the agency afterwards.”

President: “There was a Motion on the floor.”

City Solicitor: “I would MOVE to accept the recommendation of the agency and deny the bid protest.”

Comptroller: “Second.”

Director of Public Works: “Second.”

President: “All those in favor say AYE. Those opposed NAY. The Motion carries. Thank you.”

BID PROTEST

The Honorable President and Members of the Board of Estimates,
c/o the Office of Comptroller
City Hall, Room 204
100 N. Holliday Street
Baltimore, Maryland 21202

ATTN: Clerk, Board of Estimates

Re: Bid Protest of American Infrastructure – MD, Inc. ("American")
regarding Department of Transportation
Proposal for: TR 10001R, Replacement of Bridge, BC 6521, George's Creek Road over George's Run (Bid Opening May 18, 2011).

Dear Honorable President and Members:

Please be advised that I represent American Infrastructure – MD, Inc. ("American"), the apparent low bidder by about $150,000.00. The Tally of Bids is attached as Exhibit 1.

This letter is written in protest to the City passing over American because of a perceived inadequacy in describing a MBE’s scope of work. In this case, the Subcontractor in question is Interlock Steelworkers, Inc. ("Interlock"), a Certified MBE (Native American) that was nominated to perform the Placement of Reinforcing Steel, Erection of Structural Steel, and Concrete Construction on the bridge project. American also protests the award to Brawner because its bid was not read at the bid opening, a serious irregularity that could be the sound basis for either passing over Brawner or re-bidding the contract.

My client’s protest (presuming that it correctly heard the basis for its alleged disqualification) is as follows:
a. American submitted a full MBE package showing it met the 25% MBE requirement. See Exhibit 2.
b. Of the MBE Subcontractors, Interlock constituted 14.08% of the MBE goal.
c. Interlock’s disclosure showed it was to provide “placement of reinforcing steel, erection of structural steel and concrete construction”. See Exhibit 3.
d. Interlock is certified under the MBE program for “reinforcing steel and post tensioning, structural steel and concrete construction”. See Exhibit 4.
e. City of Baltimore Specifications defines “Substructure” and “Superstructure” but not “Structure” or Structural”.
f. American intended Interlock to perform, among other things, work on the “Steel Nosing” which ties to reinforcing concrete approach to the span (“rebar”) of the bridge. See detail of Steel Nosing, Exhibit 3 (circled in yellow).
g. Thus, American contends that the Steel Nosings are part of the Superstructure, as they are integral to it.
h. The City has challenged, and based upon such challenge disqualified American from meeting the MBE goal because the Steel Nosing was determined to not be “Structural”.
i. The Steel Nosing is integral to the span in that it provides the transition from pavement to the beams for the bridge.

Participation requirements set out in §28-32, simply require that a certified business perform a “commercially useful function”. There is no requirement that the function be explained in a particular way, providing the MBE is performing within its certified scope of qualifications. Here, Interlock is qualified, among other things, for “reinforcing steel and concrete construction”. See Certification, Exhibit 4.

While American does not believe Interlock’s scope is problematic, it points to the fact that minor defects and errors in WBE or MBE submissions may be waived by the board, in its discretion under Article 5, § 28-14 (b) of the City Code. Since the policy of Article 5, § 28 is to “...promote equal business opportunity in the City’s contracting process by encouraging full and equitable participation by minority and women’s business enterprises..”, and the Code, pursuant to §28-5 is “...to be liberally construed to accomplish its policies and purposes”, a minor defect and error should not serve to disqualify a bid that is otherwise responsible and responsive.

Achieving a MBE goal is a matter of responsibility, not responsiveness; as such, in several cases, the Contract Board of Appeals (by analogy) has ruled that determinations of a bidder’s responsibility may be made after the opening of bids. In light of the trivial and negligible nature of the alleged defect in [the apparent successful bidder’s] bid as noted above, [the apparent successful bidder] will be given the opportunity to cure the alleged defect and request a waiver from the requirement to meet the MBE contract subgoal.

Belatedly, the City has also criticized American for not having certain “initials” put on strike-outs on the MBE Participation forms. This practice, however, cannot be found in the “Minority

1 “Superstructure” is defined to mean “All of that part of the structure above the bearings of simple and continuous spans, skewbacks of arches and the tops of footings of rigid frames, except as noted above for the substructure.”
and Women’s Business Enterprises Law”, and if anything, would represent the most minor of all alleged defects, and was submitted as an afterthought.

No advantage would be allowed to my client in the event the bid is qualified; and, if my client’s bid was to be disqualified, no clear public purpose would be served. It is only where the contractor could gain advantage over others or the City that such an insignificant and unintentional slip should rightfully disqualify it.

Because of the short notification, it may be that we may advance additional grounds at the meeting of the Board of Estimates on Wednesday, the 10th, which I understand is to include this contract and protests on its agenda.

Respectfully submitted,

Very truly yours,

Curtis C. Coon

PART B: MBE PARTICIPATION DISCLOSURE FORM

Use this form to list MINORITY Business Enterprises that you will use to meet the MBE Participation Goal. Please be reminded that:

- The same subcontractor may not be used to meet both the MBE and WBE goals.
- If Bidder is an MBE or WBE, Bidder may not use itself to meet either of the contract goals.
- Only 25% of each contract goal may be attained by expenditures to MBEs or WBEs that are non-manufacturing suppliers (i.e., if bid amount is $100,000 and MBE goal is 15% or $15,000; then participation limit for MBE suppliers that are non-manufacturers is $3,750 or 25% of the 15% MBE goal).
- If MBE sub goals apply to this contract, each pre-determined sub-goal must be achieved and their total must equal or exceed the overall MBE contract goal.

PART D: MBE/WBE PARTICIPATION AFFIDAVIT

The Undersigned authorized representative of Contractor does hereby make the following Affidavit:

Contractor acknowledges the MBE goal of 25% and the WBE goal of 3% for the contract shown at the top of this page.

My firm will make good faith efforts to achieve the MBE and WBE participation goals for this contract. I understand that, if awarded the contract, my firm must submit to the Minority and Women’s Business Opportunity Office (MWBOO) copies of all executed agreements with the MBE and WBE firms being utilized to achieve the participation goals and other requirements of Article 5, Subtitle 28 of the Baltimore City Code (2007 Edition). I understand that these documents must be submitted prior to the issuance of a notice to proceed.

I understand that, if awarded the contract, my firm must submit to the MWBOO canceled checks and any other documentation and reports required by MWBOO on a quarterly basis, verifying payments to the MBE and WBE firms utilized on the contract.

I understand that, if I am awarded this contract and I find that I am unable to utilize the MBEs or WBEs identified in my Statements of Intent, I must substitute other certified MBE and WBE firms to meet the participation goals. I understand that I may not make a substitution until I have obtained the written approval of MWBOO.

I understand that, if awarded this contract, authorized representatives of the City of Baltimore may examine, from time to time, the books, records and files of my firm to the extent that such material is relevant to a determination of whether my firm is complying with the MBE and WBE participation requirements of this contract.

I do solemnly declare and affirm under the penalty of perjury that the contents of the foregoing Affidavit are true and correct to the best of my knowledge, information and belief.

STRUCTURES

Bridges, culverts, catch basins, drop inlets, retaining walls, cribbing manholes, end walls, buildings, sewers, water mains, service pipes, under drains, foundation drains and other features which may be encountered in the Work and not otherwise classified.

SUBCONTRACTOR

An individual, firm or corporation that contracts with a Contractor to perform part of the latter's Contract.

SUBGRADE

The material in excavations (cuts), embankments (fills), and/or foundations immediately below the first layer of sub-base, base or pavement or bottom of pipe, foundations, or other structure, and to such depth as may affect the structural design.

SUBGRADE FOR ROADWAY

The material in excavation (cuts) and/or embankment (fills) upon which is placed the first layer of sub-base, base, stabilization, or pavement.

SUBGRADE FOR SANITARY SEWERS, STORM WATER DRAINS AND WATER MAINS

The subgrade for Sewers and Drains referred to is described as follows:

1. For masonry drains, it is the lowest outside surface of the bottom of the masonry foundation.
2. For pipes without concrete encasement, it is the lowest point of the underside of the invert of the pipe.
3. For pipes encased in concrete, it is the lowest surface of the bottom of the concrete.
4. For pipes and inlet connections on concrete cradle, it is the lowest outside surface of the bottom of the concrete cradle.

SUBSTRUCTURE

All of that part of the structure below bottoms of bearings of simple and continuous spans, skewbacks of arches and tops of footings of rigid frames, together with the back walls and wing walls.

SUPERSTRUCTURE

All of that part of the structure above bearings of simple and continuous spans, skewbacks of arches and tops of footings of rigid frames, except as noted above for the substructure.

SUPERINTENDENT

The executive representative of the Contractor authorized to receive and execute instructions from the Engineer, and who shall supervise and direct the construction.

SUPPLEMENTAL SPECIFICATIONS

Additions and revisions to the Standard Specifications, generally includes new or improved procedures, construction items or materials developed subsequent to the publication of Standard Specifications or precise Specifications for an individual contract.

AFFIDAVIT OF RICHARD DUNGAN

I, RICHARD DUNGAN do hereby affirm under the penalty of perjury:

1. I am over the age of 18 and am competent to serve as a witness.

2. I am a Professional Engineer, licensed in the State of Maryland and in the Commonwealth of Pennsylvania.

3. I am the Executive Vice-President of American Infrastructure – MD, Inc.

4. In construction of highways and bridges, generally steel that is used is either “structural” or “architectural”.

5. Structural, as contrasted to Architectural, generally means that the member is to support the load of traffic.

6. The work described as “Steel Nosings” in the drawings accompanying the Bid Package for the contract, # TR-0100001 are not architectural, but are structural, as they are incorporated into the concrete approach slabs, are below the road surface, and will carry the load of the traffic. This steel serves to strengthen the “Approach Slab” and protect approach slabs.

Further your Affiant saith not.

ACTION REQUESTED OF B/E:

The Board is requested to approve an amendment No. 1 to grant agreement with Jobs, Housing and Recovery, Inc. (JHR).

AMOUNT OF MONEY AND SOURCE:

$2,687,756.00 – Original Grant Award
  117,436.00 – Supplemental Award
$2,805,192.00 – 1001-000000-3572-327259-603051 (Total Award)

BACKGROUND/EXPLANATION:

On June 23, 2010, the Board approved an agreement with the JHR to operate a shelter for homeless men, women and children at their facility located at 210 Guilford Avenue, 24 hours a day, seven days a week, with a capacity of 350 beds for the months of July through October, and 275 beds for November through June. At the City’s request, due to unexpected demand from the homeless clients, the JHR increased the capacity of the shelter to provide 350 beds for the entire term of the agreement. This amendment No. 1 to grant agreement is necessary to allocate additional funds to the JHR so that they can provide such services to this higher than expected number of homeless clients. All other terms and conditions remain unchanged.

AUDITS REVIEWED AND HAD NO OBJECTION.

UPON MOTION duly made and seconded, the Board approved the amendment No. 1 to grant agreement with Jobs, Housing and Recovery, Inc.
The Board is requested to accept the June 9, 2011 Progress Report for Lexington Square, submitted by the Lexington Square Partners, LLC (LSP).

AMOUNT OF MONEY AND SOURCE:

NA

BACKGROUND/EXPLANATION:

On December 22, 2010, the Board approved the second amendment to the land disposition agreement (LDA) with the Lexington Square Partners. The second amendment extended the LDA to June 30, 2011. The second amendment also authorizes the DHCD to extend the termination date for one additional six month period from July 1, 2011 to December 31, 2011, in the event that Developer has not abandoned the Project and continues to pursue actively such approvals and satisfaction of such conditions as may be required to allow Settlement to be completed as expeditiously as possible.

The Lexington Square Progress Report substantiates the progress of the project during the first six-month extension. The report notes two significant actions: the Commission on Historic and Architectural Preservation approved, with conditions, the treatment of the former Read's Drug Store building and the Urban Design and Architectural Review Panel approved, with conditions, the schematic design for the development on May 10, 2011 and May 12, 2011, respectively.

During the additional six-month extension, the LSP intends to continue forward with implementing the project. The LSP will seek to secure letters of intent or term sheets with prospective

tenants, continue with design development in support of the leasing efforts and engage with a general contractor of construction of the project.

MBE/WBE PARTICIPATION:

The developer will continue to comply with Article 5, Subtitle 28 of the Baltimore City Code and MBE and WBE goals established in the original agreement.

A LETTER OF PROTEST HAS BEEN RECEIVED FROM BALTIMORE HERITAGE AND DR. HELENA HICKS.

(FILE NO. 56420)

President: “The third item on the non-routine agenda can be found on pages 60 and 61, Progress Report for Lexington Square. Will the parties please come forward? Good morning.”

Mr. Graziano: “Good morning. Do you want me to --?”

President: “Yes.”

Mr. Graziano: “Mr. President and members of the Board --.”

Comptroller: “State your name.”

Mr. Graziano: “My name is Paul Graziano, Commissioner of Housing for the City of Baltimore and I am here today to report our action on an item that the Board had authorized on December 22nd which was an extension of the Land Disposition Agreement for Lexington Square Partners, LLC, and at that time there was a six month extension granted to June 30 2011, which is tomorrow and it also authorized me in my capacity as Housing Commissioner to accept a report from the developer and to consider an additional
extension if it was indicated that the developer was in fact continuing to work on this project, and the pertinent language which is in the background explanation would be that the developer has not abandoned the project and continues to pursue actively such approvals and satisfaction of such conditions as may be required to allow settlement to be completed as expeditiously as possible. I have received a report from the developer, which was signed off by Mr. Brodie and it did indicate that it met those conditions. They had met those conditions and in fact there were two significant actions taken. One was the Commission on Historic and Architectural Preservation approved with conditions the treatment of the former Reads Drug Store Building and then two days later the Urban Design and Architectural Review Panel or UDARP approved the schematic designs for this development. The developer has indicated in their progress report that they now intend to proceed with lining up firm commitments for tenants to move into full design development and to engage a construction contractor for this project. Based on that information, I have accepted the report and approved a six month extension to December 31, 2011, pursuant to the authority given to me by this Board, and I am not asking for any action of Board, I am reporting back on the action that I have already taken.”
President: “Thank you.”

Mr. Hopkins: “Thank you Mr. President, Madam Mayor. Thank you for the opportunity to speak. I will be brief. As you know my name is Johns Hopkins, I am the Director of Baltimore Heritage. We are a Citywide non-profit organization dedicated to Baltimore’s Historic spaces. I appeared before you six months ago to protest the extension of the Land Disposition Agreement and the basis for that was the proposal would demolish many historic buildings that are significant for Baltimore’s architectural commercial and civil rights heritage. Since then there has been a lot of attention to Read’s Drug Store and there has been some progress on that as the report notes parts of two façade’s are being proposed to be saved. The remainder of the proposal remains substantially unchanged. However, with the continued proposal to demolish all or parts of the most historic buildings on the site, excuse me. For that reason, my recommendation is again for this Board to continue its tight oversight of this process. I urge you to do that. My fear is that six months from now we will be back here in December and with this six month extension from today’s date we will be looking at buildings that continue to vacant, that continue to deteriorate and continue to be a drag on the revitalization on the West Side. So, I will just close by saying, again thank you
for the opportunity to comment. We will submit written comments on the report and we urge you again to retain tight oversight of this critical project on the West side.”

President: “Thank you. The report has been noted. Thank you.”

Mayor: “She didn’t want to say anything?”

President: “Who? Dr. Hicks, did you want to say anything?”

Dr. Hicks: “Yes.”

President: “You have to come up, if you do.”

Dr. Hicks: “I was trying to decide if I wanted to do it here or in another arena. Since another arena proposed. But, thank you for the opportunity to make a presentation before you today. I have to say that --.”

City Solicitor: “I’m sorry, you have to give us your name for the record.”

Dr. Hicks: “Sorry. Dr. Helena S. Hicks, and I am retired. Retired University professor and retired Executive from the State of Maryland, and I have always been an active community participant. I was one of the participants in the sit-in at Read’s in 1955, so that I have a very long history with Civil Rights in the City of Baltimore and there is some other significant historical African American presence in that; what you call the Superblock. The building next to them is McCrory’s; was not only designed by a black architect but behind
that building is one of the earliest black restaurants in the
City of Baltimore dating -- I shouldn’t say behind --, I said
before that building was redone, earliest black restaurants in
the City of Baltimore dating back to the 1700’s that was a very
significant African American business community as well as it
was integrated also, white business persons. We have no African
American presence in downtown Baltimore. It has all been
eradicated by a so-called economic development. I won’t to take
time to tell you as a University professor how I explained that
phrase to students and how I have explained it as a scholar.
But, I would be glad to explain it to you in private
conversations. But I am saying to you this is an opportunity
for the developers to stop saying what they want and to try to
listen to the community and those of us who represent African
American history as to what we would like to see there. We do
not want to see it gutted. We do not want to see as a proposal
that was presented to UDARP. We do not want a statute outside
of Read’s. I couldn’t get inside of Read’s in 1955 and you
don’t want me inside in 2011. That is not acceptable.”

President: “Thank you. The report has been NOTED. Thank you.”

Department of Housing and Community Development (DHCD) - Third Amendment to the Contract of the Loan Guarantee Assistance

ACTION REQUESTED OF B/E:

The Board is requested to approve and authorize execution of a Third Amendment to the Contract of the Loan Guarantee Assistance under Section 108 of the Housing and Community Development Act of 1974, as amended, 42 U.S.C. §5308, for the East Baltimore Biotech Project. The Board is also requested to authorize the Commissioner of the Department of Housing and Community Development to execute any and all documents necessary to effectuate this transaction SUBJECT to review and approval by the Law Department.

AMOUNT OF MONEY AND SOURCE:

N/A

BACKGROUND/EXPLANATION:

On July 22, 2004, the City and the Department of Housing and Urban Development (HUD) entered into a contract for loan assistance for $21,000,000.00 under Section 108 of the Housing and Community Development Act. Funds were used to acquire properties associated with the East Baltimore Development Initiative (EBDI) in an area bounded by East Chase Street, Ashland Avenue, Broadway and North Wolfe Street. The loan is repaid through the DHCD’s Community Block Grant Funds (CDBG). At the time the 108 Agreement was approved, the City was required to pledge properties within the EBDI footprint as collateral.

A First Amendment was executed by HUD on February 6, 2008. The Amendment permitted the release of the properties pledged as collateral in exchange for a Debt Service Account funded by the EBDI. The Debt Service Account would contain sufficient cash to represent one year of principal and interest or approximately $2,100,000.00.

A Second Amendment was executed by HUD in March 2008. This Amendment allowed the EBDI to fund the Debt Service Account with the proceeds from the sale of Tax Increment Financing Bonds.

Re: Protest of Report from the Department of Housing and Community Development on the Land Disposition Agreement with Lexington Square Partners

Baltimore Heritage is a city-wide non-profit organization dedicated to preserving historic places in Baltimore, is a member of the West Side Project Area Committee established under the Market Center Urban Renewal Ordinance, and has worked on preservation and development issues on the West Side generally and the Superblock specifically for over ten years.

I am writing to protest acceptance of the report and the proposed six-month extension of the land disposition agreement with Lexington Square Partners, L.L.C by the Department of Housing and Community Development. I ask that you move this item to the Non-Routine Agenda and that we be given an opportunity to address the Board of Estimates.

In December, 2010, Baltimore Heritage protested a prior six-month extension for Lexington Square Partners. The current proposal has not substantively changed since December, and the basis for our protest has not either. The proposal would demolish historic buildings that are important to Baltimore’s architectural, commercial, and Civil Rights heritage. After nearly seven years of delay by Lexington Square Partners, we believe that granting an additional six month extension today will further impede progress on this parcel and in the greater West Side of downtown, and will result in even further deterioration of the historic buildings on the site.

We concur with the recently released findings of the Urban Land Institute regarding revitalization of the West Side: the area’s historic buildings are its greatest asset and the City should focus on increasing residential units and

Re: Protest for Board of Estimates Agenda Item Regarding the Superblock

Dear Honorable President and Members of the Board of Estimates:

I would like permission to speak on the Board of Estimates agenda item regarding approval of a report by the Department of Housing and Community Development on the Superblock project. As a Morgan State student, I was part of a Civil Rights protest at Read’s Drug Store in the Superblock in 1955, and as a member of the public, I have researched the African American history of the McCrory’s Building and its African American architect over the last year.

Thank you for the opportunity to address this issue.

Sincerely,

I urge you to deny the amendment extending the current LDA so that appropriate development can begin as soon as possible.

DHCD - cont’d

The DHCD and the EBDI have approached HUD requesting the option to replace the $2,100,000.00 cash collateral pledge with a Surety Bond in the same amount. A Surety Bond is a commitment by one party to pay a certain amount of money in the event a second party fails to meet its financial obligations. The Bond frees up the cash currently in the collateral account and eliminates the need for the EBDI to redirect its funds that are currently allocated to community and economic development activities.

The City will continue to pay the debt service from its annual CDBG allocation. HUD could submit a claim against the Surety Bond only if the City's CDBG allocation is insufficient to pay the debt service on the loan. If HUD is required to redeem the Surety Bond, the EBDI is required to replace the Surety Bond or to reestablish a cash collateral account. In the event that the EBDI is unable to replenish the Debt Service Account so that it is equal to one year's debt service or provide a cash equivalent, the DHCD agrees to make funds available from its Community Development Bonds subject to appropriation.

(FILE NO. 54987)

UPON MOTION duly made and seconded, the Board approved and authorized the execution of a Third Amendment to the Contract of the Loan Guarantee Assistance under Section 108 of the Housing and Community Development Act of 1974, as amended, 42 U.S.C. §5308, for the East Baltimore Biotech Project. The Board also authorized the Commissioner of the Department of Housing and Community Development to execute any and all documents necessary to effectuate this transaction SUBJECT to review and approval by the Law Department.
ACTION REQUESTED OF B/E:

The Board is requested to approve and authorize execution of a memorandum of understanding with the East Baltimore Development, Inc. (EBDI). Funds allocated to acquisition, demolition, and DHMH infrastructure must be expended within twenty-four months from the later date of this memorandum or the date of appropriations by the City Council. Funds allocated to other infrastructure must be expended within sixty months from the later date of this memorandum or the date of appropriations by the City Council.

AMOUNT OF MONEY AND SOURCE:

$5,000,000.00 - 9910-906416-9588-900000-704040

BACKGROUND/EXPLANATION:

East Baltimore Development Inc. is managing the redevelopment of an 88-acre site in East Baltimore that includes new biotech space, commercial and retail space, and over 2,100 units of mixed-income housing. The State of Maryland approved State Revitalization Funds, which supports the acquisition of properties by the DHCD, site improvements, and private acquisition of property by EBDI. State Revitalization Funds are granted to the City, which in turn are made available to EBDI.

The 2010 General Assembly approved $5,000,000.00 to advance development efforts within EBDI’s boundaries. These are matching funds and require that the City provide a one-for-one match before State funds are made available. Matching funds consist of the bonds provided through the sale of Tax Incremental Financing (TIF) Bonds.

State Funds in the amount of $4,300,000.00 will be used to complete property acquisitions within the EBDI footprint. These properties have been identified and approved for acquisition in the Land Disposition and Development Agreement (LDDA).
DHCD - cont’d

The LDDA was approved by the Board on April 28, 2004 and amended and approved on December 19, 2008. Approximately $267,000.00 will be used to construct a storm drain on the site of the new Department of Health and Mental Hygiene headquarters. The remaining $433,000.00 will be used to begin demolition on the new community school site.

Under this MOU, the DHCD will acquire properties using temporary staff provided by EBDI. Properties may be acquired through settlement, tax sale, or under the power of eminent domain when appropriate. The EBDI is responsible for all relocation activities and for all relocation costs. Demolition will be overseen by the EBDI, which will be responsible for a competitive procurement process as defined in their Economic Inclusion policies.

Department of Housing and – Land Disposition Agreement Community Development

**ACTION REQUESTED OF B/E:**

The Board is requested to approve and authorize execution of a land disposition agreement with Messrs. Gerald Delaney Hyman, Jr. and Gerald Delaney Hyman, Sr., (Developers), for the properties known as 742 Dolphin Street and 745 Dolphin Street.

**AMOUNT OF MONEY AND SOURCE:**

- $5,000.00 - 742 Dolphin Street
- $6,000.00 - 745 Dolphin Street
- **$11,000.00** - Purchase Price

**BACKGROUND/EXPLANATION:**

A good faith deposit in the amount of $1,100.00 has been made. The balance of $9,900.00 will be paid in full at closing. The purchase price of the properties and the cost of all renovations will be financed with private funds.

The Developers will conduct a complete renovation of the properties located at 742 Dolphin Street and 745 Dolphin Street, in the Upton Urban Renewal Area. The scope of work will consist of the installation of new electrical systems, hanging of drywall, installing of central HVAC systems, flooring, plumbing, doors and windows. The developers have demonstrated that they qualify to purchase and rehabilitate the two properties. Once the project is completed, the properties will be available for residential use and placement on the City’s tax roll.

**STATEMENT OF PURPOSE AND RATIONALE FOR SALE BELOW THE APPRAISED VALUE:**

The properties were priced pursuant to the appraisal policy of Baltimore City. The Valuation Waiver was used in determining the prices for both properties. The following factors are present allowing for their sale below the Valuation Waiver process:

1. Stabilizing the immediate community,
2. Elimination of blight,
DHCD - cont’d

3. economic development, creation of jobs, real estate and other taxes, and
4. the opportunity to have a quick sale and rehabilitation of multiple properties at one time.

MBE/WBE PARTICIPATION:

The properties are not subject to Article 5, Subtitle 28 of the Baltimore City Code because the properties are being conveyed to private citizens to rehabilitate the structures for residential use. The citizens received no City funds or incentives for the purchase or rehabilitation of the properties. Therefore, MBE/WBE is not applicable.

(FILE NO. 57211)

UPON MOTION duly made and seconded, the Board approved and authorized the execution of a land disposition agreement with Messrs. Gerald Delaney Hyman, Jr. and Gerald Delaney Hyman, Sr., for the properties known as 742 Dolphin Street and 745 Dolphin Street.
ACTION REQUESTED OF B/E:

The Board is requested to approve and authorize execution of an interdepartmental memorandum of understanding (MOU) with the Department of Public Works/Bureau of Solid Waste. The period of the interdepartmental MOU is July 1, 2010 through June 30, 2011.

AMOUNT OF MONEY AND SOURCE:

$1,480,900.00 - 2089-208911-5930-701964-603051

BACKGROUND/EXPLANATION:

Pursuant to guidance from the Department of Housing and Urban Development (HUD), a MOU must be executed for the utilization of Community Development Block Grant funds to support other City agencies.

The Department of Public Works - Bureau of Solid Waste will clean and board vacant/unoccupied publicly and privately held properties as instructed by a DHCD Housing Inspection Service Request generated as a result of the enforcement (not the correction) of the City’s Housing Codes which are also in low and moderate areas of the City.

Funds are being provided to subsidize a portion of the salary and other personnel cost and select operating expenses to clean and board assigned vacant structures. This activity will assist in eliminating unsafe conditions and aid in arresting decline in low to moderate-income areas. A MOU signed by the Department of Public Works, and the Law Department has been executed in order that funds may be disbursed.
On June 30, 2010, the Board approved the Resolution authorizing the Commissioner of the Department of Housing and Community Development (DHCD), on behalf of the Mayor and City Council, to file a Federal FY 2010 Annual Action Plan for the following formula programs:

1. Community Development Block Grant (CDBG)
2. HOME Investment Partnership Act (HOME)
3. Housing Opportunity for People with AIDS (HOPWA)
4. Emergency Shelter Grant Program (ESG)

Upon approval of the resolution, the DHCD’s Contract Section began negotiating and processing the CDBG agreements as outlined in the Plan effective July 1, 2010 and beyond. Consequently, this agreement was delayed due to final negotiations and processing.

UPON MOTION duly made and seconded, the Board approved and authorized the execution of an interdepartmental memorandum of understanding with the Department of Public Works/Bureau of Solid Waste.
Department of Housing and Community Development (DHCD)

**ACTION REQUESTED OF B/E:**

The Board is requested to approve and authorize execution of memorandum of understanding (MOU) with the State of Maryland, Department of Housing and Community Development (MD-DHCD). The period of the MOU is effective upon Board approval through June 30, 2012.

**AMOUNT OF MONEY AND SOURCE:**

- $1,680,166.00 – MD-DHCD (Capital Funds)
- 124,000.00 – MD-DHCD (Operating Funds)
- 1,804,166.00

**BACKGROUND/EXPLANATION:**

Over the past several years, the Baltimore City Health Department (BCHD) was responsible for lead abatement and the State of Maryland had MOUs with the BCHD for state funding to support lead abatement. The Federal funding to the BCHD for lead abatement was terminated on January 14, 2011 and the City agency responsibility was transferred from the BCHD to DHCD on April 1, 2011.

This MOU establishes the relationship between the State and HCD to support lead abatement with DHCD funds in FY 2012 starting July 1, 2011. The HCD has proposed to complete abatement in 112 houses in the coming year at an average cost of $15,000.00 per unit. Additionally, the State is providing $124,000.00 in operating support so that the City can recruit and employ a Lead Abatement Program Manager. Finally, the MOU pledges $875,000.00 in matching funds over a three-year period in support of HCDs application for $2,950,000.00 in new federal funding for lead abatement submitted June 10, 2011. Those matching funds are contingent upon the City being awarded new federal funding.

       Job Nos. to be assigned by BBMR

Costs: $470,000.00 – 1001-000000-1512-167700-601001

   MOIT planned to eliminate the third shift from its FY2012 budget for its Call Center but has now decided to recreate the shift in order to respond to citizens’ service requests better. These positions will be performing duties that are consistent with the classifications listed above.

Baltimore City Board of Elections

2. Create two positions

   01801 – Supervisor Elections
   Grade 86A ($10,000.00)

Cost: $20,000.00 – 1001-000000-1801-184300-601001

   This request from the Baltimore City Board of Elections implements Senate Bill 163 passed by the 2011 General Assembly and the effective date of this action is June 6, 2011. This legislation authorizes an increase in the number of regular members of the Baltimore City Board of Elections from three members to five members, an addition of two positions.
Law Department – Claim Settlements

The Board is requested to approve and authorize execution of the Settlement Agreement and Release for the following claims. The settlements have been reviewed and approved by the Settlement Committee of the Law Department.

1. Ericka Ury. V. Alexandros Mellos, et al. $49,500.00

2. Shakia Nelson v. Marc Camarote, et al. $25,000.00

Account: 1001-000000-2041-195500-603070

UPON MOTION duly made and seconded, the Board approved settlements as requested by the Law Department. The President voted NO on item nos. 1 and 2.
The Board is requested to approve a refund of real property taxes for the below-listed claimant:

It is the opinion of the Law Department Mr. James A. Gamber meets the qualifications for a real property tax exemption for 100% of disabled veteran and that the claimant is eligible to receive a refund of taxes paid since he meets the status of a 100% disabled veteran by the Veteran’s Administration and resided in a dwelling occupied by not more than two families during the period in question. It has been determined that Mr. Gamber is entitled to a refund of real property taxes, which were paid as follows:

Mr. Gamber filed his application on June 14, 2011.

Pursuant to the Tax Property Article, Section 208(h)(2) it is required that interest shall be paid at the rate the county or municipal corporation charges on overdue taxes and that the interest shall accrue from the date the application is filed with the county or municipal corporation. In order to avoid interest being paid, each claimant’s application for a refund must be made within 60 days of the application.

UPON MOTION duly made and seconded, the Board approved the refund of real property taxes for the above-listed claimant.
In accordance with end of year procedures, approval is requested for the Department of Finance to transfer, within an agency, appropriations to meet any program deficit and/or, to meet specific carryover requests in cases where surpluses exist within any agency, but not necessarily within a particular program. Additionally, the Board’s approval is requested to carry forward all encumbrances and pre-encumbrances, and to transfer from the Contingent Fund an amount sufficient to cover an agency's overall deficit if required.

The Board is also requested to delegate to the Director of Finance the authority to assign the amounts intended to be used for specific purposes in future years for governmental funds. In accordance with the Board of Estimates policy of prior years, the balance of unexpended special and loan funds earmarked for specific purposes will be carried over as necessary to Fiscal 2012.

Below is a list of carry over requests from agencies. No recommendations are made at this time pending a review of the requests by the Budget Bureau and the availability of appropriations.

A final report of recommendations and actions by the Budget Bureau will be submitted for approval by the Board of Estimates for the July 27, 2011 meeting.

Sources and amounts for closing out appropriations will be from within each agency and fund.

Category A = Funds originally appropriated for such a purpose  
Category B = Funds NOT originally appropriated for such purpose

**BACKGROUND/EXPLANATION:**

In accordance with a new Governmental Accounting Standards Board (GASB) requirement as GASB 54, it is now required that the fiscal policy body formally delegate the official to determine the amounts of fund balances to be used for specific purposes in future years.

The Baltimore City Charter (1996 Edition as amended), Article VI, Section 9(c), provides that:

“Appropriations contained in the Ordinance of Estimates for a particular program, purpose, activity, or project may, upon the recommendation of the head of the municipal agency concerned and the Director of Finance, and with the approval of the Board of Estimates, be carried over to fiscal years subsequent to the one for which the appropriation is initially made for the accomplishment of said program, purpose, activity, or project. Funds encumbered for contracts, projects or other actual commitments and funds dedicated by an act of Congress or by State law or by the terms of any private grant to some specific purpose shall be carried over to the next fiscal year. All appropriations not so carried over shall lapse at the end of the fiscal year from which made, except that any balance remaining in the fund of the water or sanitary wastewater utility (under Section 18 of the article) at the end of the fiscal year shall remain to the credit of that utility and an estimate of such a balance shall be included in that utility’s budget for the next year as an estimated receipt.”
UPON MOTION duly made and seconded, and in accordance with end of year procedures, the Board approved the Department of Finance to transfer, within an agency, appropriations to meet any program deficit and/or, to meet specific carryover requests in cases where surpluses exist within any agency, but not necessarily within a particular program. Additionally, the Board approved the request to carry forward all encumbrances and pre-encumbrances, and to transfer from the Contingent Fund an amount sufficient to cover an agency's overall deficit if required.

The Board also delegated to the Director of Finance the authority to assign the amounts intended to be used for specific purposes in future years for governmental funds. In accordance with the Board of Estimates policy of prior years, the balance of unexpended special and loan funds earmarked for specific purposes will be carried over as necessary to Fiscal 2012. The President ABSTAINED on all items relating to the Mayor's office of Information Technology.

PERSONNEL - cont’d

UPON MOTION duly made and seconded, the Board approved the foregoing Personnel matters. All of the Personnel matters have been approved by the EXPENDITURE CONTROL COMMITTEE. All of the contracts have been approved by the Law Department as to form and legal sufficiency. The Mayor ABSTAINED on item nos. 1 and 2.
Department of Finance - Office of Risk Management - FY 2012 Insurance Renewal

ACTION REQUESTED OF B/E:

The Board is requested to approve the renewal of the following FY 2012 Insurance Policies. The policies will renew on July 1, 2011.

1. **FIREMAN’S FUND INSURANCE CO.** $ 8,085.00

   This policy provides insurance coverage for the City’s GPS tracking system installed on school buses. The policy provides coverage for theft and direct physical damage to units installed in 30 Baltimore City Public School System buses and 300 vendor owned buses. The policy is being renewed at a 0% rate increase, and is subject to a $250.00 deductible.

2. **LEXINGTON INSURANCE COMPANY** $2,149,584.00

   This master property insurance policy will cover the real and personal property of the City and the Baltimore City Public School System. The Office of Risk Management (ORM) anticipated a challenging renewal process for this very important insurance placement because of the double snow storms this past winter. As a result of the storms, the City incurred $4,007,350.00 in losses to real property. Last year, 13 markets were approached and declined based on target pricing and limited capacity for this class of business. With these obstacles to face, the ORM felt it best to work with the incumbent carrier only, to obtain the most competitive pricing and comprehensive plan. The renewal price reflects a 19.42% increase, which is attributed to the frequency and severity of our claims as well as market loss activity and expectations of increased Atlantic Coast loss estimates for Hurricane and Wind. However the City’s rate of .034 still remains very competitive at less than .04 cents per $100.00 of coverage.
3. **AON HUNTING T. BLOCK FINE ARTS INSURANCE CO.** $250,228.00

This policy provides insurance coverage for Fine Arts replacement cost and transit coverage to the Baltimore Museum of Art, The Walters Art Museum and any location owned, occupied or controlled by the Mayor and City Council. Coverage is being renewed per expiring rates, with the incumbent broker.

4. **AIG INSURANCE COMPANY** $17,346.00

This policy provides insurance coverage for the loss of money, securities or other financial instruments for which the City, and the Baltimore City Public School System are legally liable. The marketplace is limited. The AIG Insurance Company will continue to provide this coverage for the coming year with no increase in rate. The policy has a $1,000,000.00 per occurrence limit, with a per occurrence deductible of $10,000.00.

5. **AIG INSURANCE COMPANY** $96,873.00

This policy covers various vessels owned and/or operated by City agencies, including the Constellation. Markets for this exposure are limited. The policy will be renewed with the incumbent carrier, at the same terms and conditions as the expiring policy including terrorism coverage on the entire fleet.

6. **SCOTTSDALE INSURANCE** $304,152.00

The commercial market for School Bus Automobile Liability remains very limited. Because of increased claims activity, negotiation began early and as a result, the Department was able to obtain a renewal rate of $874.00 per bus, which represents a 4% rate increase.
Finance – Office of Risk Management – cont’d

7. **PHILADELPHIA INSURANCE COMPANY** $ 105,473.00

This policy provides insurance coverage for the Convention Center Complex and 1st Mariner Arena. This policy provides liability coverage for the Convention Center Complex and 1st Mariner Arena. The renewal is being provided by the incumbent carrier at a 0.10% increase in premium due to increased claims activity. The policy contains a $25,000.00 deductible in lieu of a Self Insured Retention as per the expiring policy. The insurance carrier will handle all claims, thereby eliminating the need for a Third Party Administrator to handle all claims under the Self Insured Retention.

8. **ZURICH INSURANCE COMPANY** $ 22,626.00

On May 05, 2010, the Board renewed a May 11, 2005 Resolution, whereas the City of Baltimore would indemnify and save harmless the directors, officers and employees of certain non-profit Quasi corporations from monetary loss sustained by them due to acts of negligence while in the performance of their duties as directors, officers and employees of said non-profit corporations. Coverage is being renewed with the Incumbent carrier at the same terms and conditions as expiring. The renewal premium represents no change in rate.

Account: 2043-000000-1450-162900-603014
Finance – Office of Risk Management – cont’d

9. **INJURED WORKERS’ INSURANCE FUND (IWIF) $ 155,722.00**

   This policy will provide Workers’ Compensation benefits for the Mayor’s Office of Employment Development trainees program. The MOED receives federal grant money, a requirement of which is the purchase of Workers’ Compensation Insurance for the participants in its various programs. The MOED has completed its 16th year under the IWIF Program. The rate/premium offered by the IWIF is favorable again this year. A 40% credit was negotiated due to Good Loss Experience.

   Account: 4000-806412-6313-460205-603017

**APPROVED FOR FUNDS BY FINANCE**

   UPON MOTION duly made and seconded, the Board approved the renewal of the foregoing FY 2012 Insurance Policies. The Mayor **ABSTAINED** on item nos. 3 and 7.

President: “Madam Mayor.”

Mayor: “Thank you. I just want to bring attention to one of the items that should be on the Agenda. I believe it -- no it is a request for Proposal. We the City of Baltimore issued a Request for Proposal for new City Watch Crime Cameras in the Coldspring, Homestead, Montebello or CHUM areas as it is called. South Clifton Park and the Dolly Park neighborhoods. Thirty new cameras will be strategically placed on North Avenue, Harford Road and Belair Road above North Avenue above North Avenue toward Clifton Park. I just want to thank the Mayor’s Office of Criminal Justice. I know I saw Sheryl Goldstein --.”

President: “In the back.”

City Solicitor: “Yes in the back.”
Mayor: “There she is. She has being hidden by the cameraman. I want to thank the Mayor’s Office on Criminal Justice for your hard work on this major expansion of the program in the Northeast District despite very difficult budget constraints. Our City Watch Program has been instrumental in supporting work of the men and women in the Baltimore City Police Department, that cameras have been helpful in helping us reduce crime. The cameras are forced multiplier that enable us to do more to protect the citizens of Baltimore. In 2010, the City Watch cameras helped us participate in over, well almost 1,300 arrests. About half of these arrests occurred in the Downtown Business District, and City Watch initiated over 125 arrests for violent crimes including robberies, assaults and illegal gun possession. Our budget for FY 2012 fully already funds the operation of 526 crime cameras, which have been shown to reduce crime by 25% in the cameras covered areas and in 15 months in office 46 new crime cameras have been added to the City Watch networks. So, I am pleased about the work and looking forward to more good news from our crime technology. Thank you.”

President: “Thank you. There being no more business before the Board--.”
