Department of Audits - Audit Reports and Related Audit Digests

The Board is requested to NOTE receipt of the following Audit Reports and Related Digests:

City Auditor: “Good morning Mr. President and members of the Board. I am Bob McCarty, the City Auditor. The Department of Audits has completed its annual audit of the financial statements of the Employees’ Retirement System or ERS for the fiscal year ended June 30, 2011. We have issued an unqualified opinion, which states that the financial statements present fairly, in all material respects, the financial position of the System, for the year ended June 30, 2011, in conformity with
generally accepted accounting principles. The System’s net assets totaled $1,240,000,000.00 at year-end, an increase in net assets of $156,700,000.00 from fiscal year 2010. Fiscal year 2010 payments to its 8,693 retirees and beneficiaries totaled a hundred—I’m sorry--$113,300,000.00. The City’s contribution to the City --I’m sorry--the System totaled $62,400,000.00, an increase of $13,700,000.00 over the previous fiscal year. In addition to our audit, we prepared a separate report, required by both generally accepted auditing standards and Government Auditing Standards, which addresses the System’s compliance with certain laws, regulations, and the internal controls over fiscal--financial reporting relating to financial statements. While the ERS did not have any deficiencies in internal control over its financial statements during fiscal year 2010, it did have two significant deficiencies from fiscal year 2011. I’m sorry, back up. There are none in 2010. There were two from--carried forward from 2010. But, during fiscal year 2011, ERS resolved the significant deficiency that related to the differences between the payroll vendors’ records and the System’s general ledger. ERS resolved this finding by
establishing procedures and consistently applying these procedures to ensure that monthly reconciliations are prepared to explain any differences between the payroll vendor’s and the Retirement System’s records. Also, in fiscal year 2010, we had found that salary data sent to the Actuary by the System for active employees at June 30, 2010 was not accurate. During fiscal year 2011, ERS resolved this finding by verifying active membership data sent to the Actuary and by confirming with the Actuary that current year data was being used. As part of obtaining reasonable assurance about whether the System’s financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under Government Auditing Standards."

President: “The second item on the non-routine agenda can be found on page nine, item number three, Audit of the Comprehensive Annual Financial Report of the Fire and Police Employees’ Retirement System, Fiscal Year 2011."
City Auditor: “Good morning again. This is for Fire and Police. The Department of Audits has completed its annual audit of the financial statements of the Fire and Police Employees’ Retirement System for the fiscal year ended 2011. We again have issued an unqualified opinion, which states that their financial statements present fairly, in all material respects, the financial position of the System, for the year ended June 30, 2011, in conformity with generally accepted accounting principles. The System’s net assets totaled $2,400,000,000.00 at year-end, an increase in net assets of $285,300,000.00 from fiscal year 2010. For fiscal year 2010, payments to its 6,100 retirees and beneficiaries totaled $203,000,000.00. The City’s contribution to the System totaled $107,500,000.00, an increase of $13,400,000.00 million over the previous fiscal year. In addition to our audit, we prepared a separate report, required by both generally accepted auditing standards and Government Auditing Standards, which addresses the System’s compliance with certain laws, regulations, and the internal control over financial reporting relating to the financial statements. The System had one significant deficiency in internal control over its financial reporting during fiscal year 2011. A significant deficiency is a control deficiency that adversely affects the
System’s ability to initiate, authorize, record, process, or report financial data reliably in accordance with generally accepted accounting principles, such that there is a possibility that an immaterial misstatement of the financial statements will not be prevented or detected by the System’s internal control. Based on our testing of the System’s policy and procedures for terminations and changes to its benefit payroll during fiscal year 2011, we found that F&P did not timely suspend the pension benefits of three students who had attained the age of 18, but had not provided the proper support for enrollment in an accredited college/university, or a technical, vocational, or trade school. According to F&P’s policy governing the receipt of pension benefits for children, over age 18, they must, within 30 days after the end of each academic term, submit an official school transcript as proof of enrollment and successful completion of the school’s defined full-time student course load. If enrolled in a technical, vocational, or trade school, a letter from the school must be submitted stating that he or she is enrolled as a full-time student. Failure to submit
proper documentation was to result in the suspension of the student’s benefit until the proper documentation has been received. As part of our testing, we found that three surviving children of a member or retiree were paid benefits totaling $43,980.00 after their benefits should have been suspended for lack of proper documentation for proof of enrollment as a full-time student. During fiscal year 2011, $18,976.00 was repaid by one of the surviving children; thereby leaving $25,004.00 in outstanding overpayments. We recommend the Retirement System implement procedures to timely suspend the pension benefit payments of surviving children of a member or retiree who has attained age 18 and does not provide the proper proof of enrollment as prescribed in the Retirement System’s policy. We also recommend the Retirement System recover the $25,004.00 in outstanding overpayments. The System stated that corrective actions have been taken to initiate earlier contact with the beneficiary prior to the beneficiary attaining age 18. The contact will also include the beneficiary’s guardian. F&P also stated that the timelines for the suspension of benefit payments for non-compliant beneficiaries over the age of 18 has been made
tighter. This significant deficiency is not considered to be a material weakness. A material weakness is a significant deficiency that results in the possibility that a material misstatement of the financial statements will not be prevented or detected by the System’s internal control. We will follow-up on this finding as part of our fiscal year 2012 Fire and Police Employees’ Retirement System audit. Lastly, as part of obtaining reasonable assurance about whether the System’s financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under Government Auditing Standards.”

President: “What are the performance results?”
Comptroller: “Oh, I have that. I am pleased to announce for Fiscal 2011, that the Employees’ Retirement System return on investments was 20.1%. For the Elected Officials, it was 23.2%, and for the Fire and Police it was 25.6%.

President: “Ok, these items have been noted.”

The Board NOTED receipt of the Audit reports and related digests. The Comptroller ABSTAINED on item no. 1, item no. 2, and item no. 3.

Corporation (BDC)

ACTION REQUESTED OF B/E:

AMOUNT OF MONEY AND SOURCE:

$50,000.00 – Purchase Price
($25,000.00 per property)

BACKGROUND/EXPLANATION:

On June 9, 2010, the properties were awarded to the developer for redevelopment purposes under the Rolling Bid process. At the request of the Department of Housing and Community Development (DHCD), the BDC is facilitating the sale of the properties.

The developer intends to redevelop the vacant properties located at 403 – 427 North Washington Street, including the properties owned by the City, as a 49,000 square foot office building. The office building will capitalize on the growing demand for medical space in the surrounding area. The BDC has obtained City Council approval of a Sales Ordinance granting the City the Authority to sell the properties.

BDC respectfully requests a waiver of the Board of Estimates Appraisal Policy, which states that any agreement must be presented to the Board for approval within twelve months of the date of the appraisal report. Due to an extended negotiation process, BDC was unable to present the Land Disposition Agreement within twelve months of the appraisal report.

AMOUNT OF MONEY AND SOURCE:

$6,000.00 – 9910-906732-9588-900000-709032

BACKGROUND/EXPLANATION:

In 2004, the Mayor and City Council (MCC) purchased the former Uplands Apartments located on Edmondson Avenue from the Department of Housing and Urban Development (HUD). The former residents (Plaintiff Class) filed suit against HUD (later amended to include the Mayor and City Council of Baltimore (City)) claiming that the sale was improper and that the relocation of residents by HUD did not follow Federal guidelines. The lawsuit was resolved in a settlement agreement that was approved by the Board in January 2008, and approved by the court in October 2008.

Under the terms of the settlement agreement, the City must contract with a third-party consultant to provide technical assistance for Former Resident Representatives to allow them the opportunity to make their participation informed, meaningful, and effective. On February 11, 2009, the Board approved an expenditure of up to $24,000.00 for this technical assistance.

On June 9, 2010, the Board approved a contract with The Moulden Group, Inc. This original agreement to provide the above-referenced technical assistance has expired and the parties still have not completed all the tasks, in accordance with the settlement agreement. The City desires to enter into a second agreement with The Moulden Group, Inc. as a selected source, in

ACTION REQUESTED OF B/E:

The Board is requested to approve and authorize execution of a deed with Baltimore County, Maryland, grantee for the conveyance of the parcel of land known as Baltimore County Map 100, Parcel 1365, containing approximately 11.0173 acres, more or less.

AMOUNT OF MONEY AND SOURCE:

$1.00

BACKGROUND/EXPLANATION:

The parcel of land will be conveyed to Baltimore County, Maryland. The property will remain as open space conservation area in perpetuity, and will not be converted from outdoor recreation and open space without the prior written approval of NeighborSpace of Baltimore County, Inc.

The sale was authorized by means of sales Ordinance No. 10-0266 approved on March 24, 2010.

(FILE NO. 56664)

UPON MOTION duly made and seconded, the Board approved and authorized execution of the deed with Baltimore County, Maryland, grantee for the conveyance of the parcel of land known as Baltimore County Map 100, Parcel 1365, containing approximately 11.0173 acres, more or less.

CORRESPONDENCE WAS BEEN RECEIVED FROM BRUCE AND EILEEN LEAMAN.
Honorable President and Members of the Board of Estimates:

THIS IS NOT A PROTEST but a REQUEST FOR A MODIFICATION to the proposed deed/action to come before the Baltimore City Board of Estimates on February 1, 2012 regarding the Transfer of 11 acres of City owned land at the end of Maple Avenue in Catonsville, MD 21228 to Baltimore County, MD.

The residents of Maple Avenue have had to be reactive rather than proactive or included in the discussions and actions concerning the 11 acre City property transfer to Baltimore County. Though Maple Avenue will be most affected by this transfer the only way we have been included in this process has been through our own efforts/initiative. Neither NeighborSpace nor the Hilltop/Maple Ave. Association represent the residents of Maple Avenue in this matter and our input has not been solicited.

We recently became aware that the deed for the transfer of land is coming before the Board of Estimates on February 1st and that there was a deadline for submission of comments which we have missed. We have not seen the deed but have seen a draft of the Resolution which includes the following paragraph:

"Whereas, on March 24, 2010, the City passed Ordinance no. 10-266, which authorized the City to dispose of the Property, subject to a restrictive covenant which shall state the Property shall remain as open space conservation area in perpetuity, and shall not be converted from outdoor space without the prior written approval of Neighbor Space of Baltimore County Inc.;

We request that this paragraph be changed to read:

"Whereas, on March 24, 2010, the City passed Ordinance no. 10-266, which authorized the City to dispose of the Property, subject to a restrictive covenant which shall state the Property shall remain as open space conservation area in perpetuity, and shall not be converted from outdoor space without the prior written approval of Neighbor Space of Baltimore County Inc. IN CONSULTATION WITH THE RESIDENTS OF MAPLE AVENUE, CATONSVILLE, MD."

Or, that an addendum is added to ensure that the opinions and welfare of the residents of Maple Avenue are represented.

Though we may have missed the timeline for submission we would appreciate all and every effort for our request to be considered. Again, this is not a PROTEST but a request for MODIFICATION.

Sincerely,

Bruce & Eileen Leaman
