Department of Housing and – First Amendment to Land Disposition Agreement

ACTION REQUESTED OF B/E:

The Board is requested to approve and authorize execution of the first amendment to land disposition agreement (LDA) with Mi Casa, Inc., developer, for the sale of City-owned properties located at 806, 808, 810, 812, 814, 816, 818, 820, 822, 826, 828, 834 (phase two); 702, 706, 708, 710, 712, 714, 716, 718, 722, 724, 732, 734, 736, 738, 715, 717, 733, and 741 East Preston Street (phase three).

AMOUNT OF MONEY AND SOURCE:

N/A

BACKGROUND/EXPLANATION:

This amendment adds environmental review and approval language required by the U.S. Department of Housing and Urban Development (HUD), which is a condition of the Neighborhood Stabilization Program 2 (NSP2) funds provided to Mi Casa, Inc.

On March 16, 2011, the Board approved the LDA with Mi Casa, Inc. for the conveyance of 30 City-owned properties located in the 700 and 800 blocks of East Preston Street for the creation of 30 units for affordable homeownership. Phase two consists of 12 properties in the 800 block of East Preston Street that settled on July 20, 2011, and is currently under construction.

Phase three consists of 18 properties in the 700 block of East Preston Street that are in pre-development and will settle in May 2012. Mi Casa, Inc. has applied for and was awarded $5,078,000.00 in Federal NSP2 funds to help primarily fund the construction of the homeownership units. HUD has notified Mi Casa, Inc. that as a condition of the NSP2 funding, the LDA needs to include language that the conveyance of Phase Three be contingent on the completion of an environmental review and HUD approval of a request for release of funds. Since Mi Casa, Inc. is the recipient of the NSP2 funds, it is their responsibility to conduct the environmental review, obtain approval from HUD, and notify the City before settlement of phase three proceeds.

ACTION REQUESTED OF B/E:

The Board is requested to approve and authorize the execution of a license agreement with Verizon Maryland, Inc., Licensor. The period of the agreement is effective upon Board approval until terminated by either party in accordance with the provision of the agreement.

AMOUNT OF MONEY AND SOURCE:

$200,000.00 - 2042-000000-1474-165700-603013
(not to exceed)

BACKGROUND/EXPLANATION:

The license agreement is for pole attachments conduit occupancy, and/or occupancy of right-of-ways in the State of Maryland. The agreement authorizes the, City to attach its facilities to or place them on the Licensor’s poles, conduits and right-of-ways.

The total attachment and occupancy fees will be based upon the number of poles and duct feet of conduit system for which the Licensor issues licenses to the City. The annual cost per Pole Attachment is $7.43. The annual cost of conduit per foot of cabling placed is $3.00. The Licensor may adjust these fees annually, subject to the City's right to terminate in response.

MOIT anticipates potentially using up to 40 Poles and up to 3,234 feet of conduit, a total annual fee of less than $300.00 for pole attachments, and less than $10,000.00 for conduit feet.

The other ten Maryland jurisdictions entering into substantially the same license agreement will pay the same rates as Baltimore City but will use many more poles and conduit cabling. Subject to prior City authorization, Verizon may also charge a one-time time and materials application and engineering service fee for
Each pole or conduit. This contract primarily has no direct involvement with telecommunication services. Although, the overhead fiber may be used to serve some of the City's telecommunication needs as the City migrates to Voice Over Internet Protocol (VOIP). Although the license agreement has no termination date, MOIT requests that the Board approve a total cost not exceeding $200,000.00.

The City's use of the Licensor’s poles and conduits is part of the One Maryland Broadband Network (OMBN), a planned 1,294 mile fiber optic broadband network that will link 1,006 government facilities and community “anchor institutions” in every county in the State, while interconnecting and extending three independent networks: networkMaryland, the statewide network operated by DoIT, the Inter-County Broadband Network (ICBN), a consortium of 10 central Maryland counties and cities, including Baltimore City, and the Maryland Broadband Cooperative, a rural non-profit carrier.

The City is a member of the ICBN. The ICBN has also negotiated a similar agreement with the Baltimore Gas and Electric (BGE) for licensing of poles and conduits. Verizon Maryland, Inc. and the BGE will work in collaboration on all poles. A separate agreement pertaining to the BGE will be presented to the Board at a later date. The OMBN will be built with $115,240,581.00 in grant funding awarded in September 2010 through the federal Broadband Technology Opportunities Program.

AMOUNT OF MONEY AND SOURCE:

No general funds are involved in this transaction. The collected funds will be deposited and expenditures paid through Baltimore City ‘G’ account - 1001-000000-0000-000000-270091.

The funds are used to defray the costs of postcard advertisements, banners and other items used for publicizing the week-long event. Any additional monies will support various activities of the committee - educational, cultural and community oriented.
Mayor’s Office – cont’d

The Board of Ethics of Baltimore City requires approval from the Board of Estimates before approval of the submitted Ethics Board application. This is the first time that this is being requested for Greek Week in compliance with this directive.

An exception was enacted in 2005 to permit certain solicitations that are for the benefit of an official governmental program or activity, or a City-endorsed charitable function or activity that has been pre-approved by the Ethics Board. Ethics Regulation 96.26B sets out the standards for approval, which includes the requirement that the program, function, or activity to be benefited and the proposed solicitation campaign must be endorsed by the Board of Estimates or its designees.

Parking Authority - Agreement for Software, Software Subscription Agreement, and an Application End-user License Agreement

**ACTION REQUESTED OF B/E:**

The Board is requested to approve and authorize an agreement for software, a software subscription agreement, and an application end-user license agreement with Inet, Inc. (Iparq). The period of the agreement will begin on the effective date and continue for five years from the launch date, with two one-year renewal options at the sole discretion of the City.

**AMOUNT OF MONEY AND SOURCE:**

$239,530.00 - 2076-000000-2321-253300-60700
- System Implementation

$ 54,000.00 - 2076-000000-2321-253300-607001
- Annual Service and Licensing Fee

**BACKGROUND/EXPLANATION:**

The three agreements are interrelated and together create the desired relationship, between the Parking Authority of Baltimore City (PABC) and Iparq.

A primary service provided by the PABC is the administration of the Residential Permit Parking Program (RPP). The RPP was established in 1979 in the Oakenshawe neighborhood, primarily to minimize the problems created by Union Memorial Hospital employees parking within the residential areas of Oakenshawe. The initial RPP Program was successful, and the program has since expanded to a total of 43 RPP areas, with continued growth expected. In 2011, the PABC issued a total of 35,000 RPP permits.
For 24 years, the tracking of all information relating to applications, and the administration of the program has been performed manually. In 2003, a computer program and database was introduced to facilitate the storage of required information, and allow for on-line application for RPP permit renewals. That program performed adequately, but demonstrated certain limitations when the PABC sought to meet further needs of the RPP Program.

The PABC procured a new software system for the RPP program via competitive bidding and with approval of the contract by the Board on January 23, 2008. The system is currently in use and has performed adequately, but there are limitations that the PABC believes may be overcome with the adoption of a new system.

In 2010, the PABC advertised an RFP to solicit proposals from firms capable of providing software products that could meet the growing needs of the RPP Program. The PABC received three responsive proposals.

The PABC established a panel to review all proposals. The panel consisted of Steve Johnson, RPP Area #28 Representative and Chairman of the Residential Permit Parking Advisory Board; Dave Hirst, RPP Area #19 Representative; Marsha Parham, RPP Area #1 Representative; Tricia Leist, the Mayor's Office of Information Technology; Theresa Webb, Manager of Permits and Regulations, PABC; and Nikki Philips, Accountant III, PABC (together the “Panel”).

The Panel met several times for a few hours each time and all responsive proposals were reviewed in detail. After discussions of the pros and cons of each proposal, the Panel invited the three vendors to present their programs, to allow hands-on use of the programs, and to answer any questions. After the presentations, the Panel reevaluated the cost, the hosting, the features, and how the programs were able to meet the PABC’s needs. The Panel believed that the system offered by Iparq was the strongest.
The Panel recommended Iparq as the strongest proposal representing the best value to the PABC Board of Directors. The PABC Board approved the Panel's recommendation and called for the negotiation of an agreement with Iparq.

Re: Renewal of the City’s Contract with Volvo

Dear Members of the Baltimore City Board of Estimates:

For the reasons set forth below, the Baltimore Zionist District urges the Board of Estimates to reject the proposed renewal of the contract between the City’s Department of General Services and Volvo Construction Equipment & Services (Solicitation No. 0800), a company which does business in Iran. The proposed renewal, which is on the agenda for the upcoming March 7 meeting, is for the period May 20, 2012 through May 19, 2013, with one 1-year renewal option remaining.

Volvo Construction & Equipment sells wheel loaders, backhoe loaders, excavators, articulated haulers, motor graders, milling equipment, pavers, and compactors in Iran through its dealer, Parsian Pishro Sanat. Volvo proudly trumpets its relationship with Iran; its website states that the 60,000 Volvo trucks which have been delivered to Iran since 1934 positions Volvo to today being “the leading heavy truck company in Iran.” Volvo’s exports of trucks to Iran set a record in 2011, and were more important market for Volvo than both Canada and Sweden.

As I am sure you are aware, Iran is ruled by a theocratic regime which has a long and brutal record of suppressing its own citizens by persecuting, imprisoning and killing human rights defenders, political activists, and ethnic and religious minorities. Iran’s role as the world’s foremost state sponsor of terrorism has resulted in hundreds of American deaths at the hands of Hezbollah, the Taliban and other extremist groups, who are trained, armed and financed by Iran. Most ominously, Iran is pursuing a nuclear weapons program which poses a direct threat to the interests of America and its allies, and an existential threat to the State of Israel.

Companies like Volvo which do business with Iran are necessarily propping up the regime by providing it with the resources to pursue its destructive external goals and to suppress any internal opposition. Moreover, the willingness of companies like Volvo to defy international
opinion by doing business with Iran encourages Iran to do the same by such conduct as defying the demand of international inspectors that Iran open up its nuclear program for inspection. By declining to renew the pending contract with Volvo, the City of Baltimore sends a message that it stands in solidarity with the policy of the Obama administration to isolate Iran and its enablers.

Thank you for considering this request, and please feel free to contact me at (443) 226-1351 with any questions or comments.

Sincerely,

Jay Bernstein

**BACKGROUND/EXPLANATION:**

On November 6, 2002, the Board of Estimates approved the original lease agreement with the tenant, for a term of five years, commencing April 1, 2002 and terminating March 31, 2007, with the option to renew for one additional 5-year period. The tenant is currently in its last year of its 5-year renewal period which commenced on April 1, 2007 and terminates on March 31, 2012. The site is used as a traverse point for trucks and other motorized vehicles related to the tenant’s business.

This amendment to lease agreement will extend the period of the lease agreement for an additional five years, commencing April 1, 2012 and terminating March 31, 2017, and reduce the percentage rate for the annual rent increase from 4% to 3%. The percentage is being decreased because of the deteriorating condition of the site and the tenant is responsible for making all repairs. All other rental, conditions, and provisions of the original lease agreement approved on November 6, 2002 will remain in full force and effect.

In addition, the project costs have been reduced by $100,000.00. To make up for this reduction, the construction contingency has been reduced by $100,000.00.

BACKGROUND/EXPLANATION:

On December 7, 2011, the Board approved a HOME Investment Partnerships Program loan in the amount of $650,000.00 to the Greens at Irvington Mews Limited Partnership (the “borrower”), a wholly owned subsidiary of the Enterprise Corporation (Enterprise). Proceeds of the HOME Loan are to be used to support a portion of the construction and construction related costs for 100 residential units known as The Greens at Irvington Mews Senior Apartments located in the 4300 block of Frederick Avenue (the “Project”).

The borrower had a last minute problem with the Federal Home Loan Bank of Atlanta ("FHLB") a day before they were supposed to settle. Unfortunately, the Federal Home Loan Bank of Atlanta ("FHLB") discovered that the transaction did not meet their underwriting guidelines which forced the Bank to rescind the amount of their AHP funds from $750,000.00 to $0.00.

To address the resulting shortfall, the parties agreed to a restructured financing so that the only impacted parties were the equity provider and Enterprise by increasing the equity proceeds and the deferred developer fee. None of the changes have any impact on the City or its security position.

The Developer is not asking for anything additional from the City. The Board of Estimates approval for City funds remains unchanged as does the cash flow for repayment. Both Capital One and Enterprise would have appealed to a higher authority at the FHLB, but to do so would take a long time which is the one thing we do not have. The Developer urgently needs to get started on construction. A delayed closing could result in:

- recapture of the NSP3 Grant funds provided by the State,
- significantly higher construction costs which would make the development infeasible, and
- inability of the developer to meet its obligations relative to the Low Income Housing Tax Credits, i.e.
  - Complete construction by December 2012
  - Meet the lease-up obligations
  - Meet the 10% tax credit requirement by April 30, 2012.

The financing that has been negotiated with Capital One makes this development feasible without seeking any changes from the City. They did not for example raise their debt which would have impacted the cash flow payments to the City.

All other terms and conditions of the Board’s December 7, 2011 approval remain in full force and effect.
UPON MOTION duly made and seconded, the Board NOTED the modifications to the proposed financing structure for the HOME funded project known as the Greens at Irvington Mews.
