Department of Public Works/Office of Engineering and Construction

1. EWO #001, $248,000.00 - SC 918S, Advanced Site Preparation for Headworks Improvements at the Back River Wastewater Treatment Plant

$ 9,999,000.00 - Allan Myers MD, Inc.

The Office of Engineering & Construction will direct Allan Myers MD, Inc. to change the sequence of construction and accelerate various work activities to accommodate the construction of SC 918H, Headworks Improvements and Wet Weather Flow Equalization. The base design under SC 918S requires Allan Myers MD, Inc. to perform a single surcharge over the location of the proposed Grit Removal Facility, to be constructed under SC 918H. The soils are currently located on the proposed Influent Pumping Station site, also to be constructed under SC 918H. Before the soils from the Influent Pump Station site can be moved to the proposed Grit Removal Facility area, the existing Baltimore County force mains located in the Grit Removal Facility area must be relocated. For SC 918H-S, the original work sequence (relocate Baltimore County force mains then move soils from the Influent Pump Station to the Grit Removal Facility) would result in a delay to the start of the SC 918H site excavation. The delay expense under SC 918H is estimated to be approximately $650,000.00/month, and could add upwards of $7 million to that contract. To avoid the delay impact to SC 918H, the City’s Construction Management discussed with Allan Myers MD, Inc. the idea of expediting the surcharge work under SC 918S. Ultimately, the agreement was reached to perform the surcharging in two (2) phases. The first phase will

involve removing the existing surcharge soils from the IPS site and performing surcharge of the area east of the existing Baltimore County force mains and involve performing surcharge of the remaining site of the proposed Grit Removal Facility. Department of Audits – Audit Report and Related Audit Digest

The Board is requested to NOTE receipt of the following Audit Report and related Audit Digest.

Acting City Auditor: “Good morning, Honorable Bo-- Board members. Audrey Askew, Deputy City Auditor. This Audit is -- is for the Mayor’s Office of Human Services for June 30, 2016 and 2015. They’ve been issued an unmodified opinion on the financial statements. We would like to just bring a note up that um -- for the period of 2016, 2015 we audit all trans -- any tr -- we can -- we have the ability to audit any transaction that occurred within that period regardless of year of origin of the transaction. If
you turn to the first page, I’m goi — I will highlight a few of the summary items um — that I would like to note for the financial statements, as opposed to presenting you the financial statements. Note that both years ending balance um -- for a couple of the HUD programs, had large credit balances. Each of these accounts had ah -- balances in excess of $4,000,000.00. We’ve noted that MOHS MI -- MA -- HMIS System was in the process of being updated by an outside firm. This prevented drawdown requests um -- to HUD. As a result, HUD system prevented and locked MOHS from requesting drawdowns for this entire period. That’s what’s -- that’s what created that $4 mill -- the -- ex -- in excess of $4,000,000.00 um -- ex -- um -- expenditures that showed up during our year of audit. Once the system was developed, that HMIS system, MOHS subsequently allowed -- wa -- they were allowed to request draws from HUD. There were approximately 30 to 40 draws from the backlog for this period. Currently, MOHS -- they have received all back payments and subsequently MOHS has implemented a system to request draws as soon as they are due. So, that issue has been corrected or rectified. If you turn to the next page, current year Findings,
Finding one: Revenue and Expenditure Netting. Both Revenue and Expenditure Transactions recorded within the same account. We noted that which caused a netting effect of the transactions. This could cause -- this inc -- this did cause an improper recording of other age -- um -- I’m sorry -- in addition they were -- there were -- um -- improper recording um -- of other agency transactions within MOHS’ accounts. Now, we recommend MOHS review the detail within the general ledger to ensure the accuracy of transactions posted to their accounts. Finding Two: Controls over User Access. Audit of the logical access controls over the housing pro software application it administers the homeless services program. We know that three management employees have the authority to provide user access and perform day-to-day activities. This could result in invalid or inappropriate transactions and -- as well as create fictitious employees. We recommend the st -- the assignment of user access controls be performed by a system administrator, who does not have the authority to pro -- process transactions. And
the final Finding is related to the controls over payroll records. Just to note that um -- from the time that agencies enter their transactions into e-time, that’s when the electronic process occurs. Before that, it’s a manual process. So, currently all agencies are required to implement controls um -- at that time. At that point, when it -- when it entered in to MIHS -- I’m -- I’m sorry, into e-time, that’s when the controls from that agency um -- has been lifted. So, we noticed several issues or concerns over the controls over the payroll records and you see them noted here. We recommend training um -- for recording and reporting time for accuracy and completing -- in completeness as well as um -- one of the items we recommend is that any agencies that we render um -- Findings, they have the opportunity to come back to um -- the Department of Audits and we can follow up um -- later on and then -- uh -- another period for record.”

Comptroller: “Audrey.”

President: “Okay. I’m sorry. Are -- are you uh -- from the Mayor’s Office of Human Services?”

Mr. Assad (Amir) Assadi: “Yes, Amir Assadi, Mayor’s Office of Human Services.”
Acting City Auditor: “I want to say one thing. The original document that -- that you received um -- had Department of General Services on it -- it has been subsequent -- subsequently corrected and it should have been issued um -- as of Monday or Tuesday of this week. I want to let you know the original documents you did have had Department of General Services on it.”

Comptroller: “And it -- it should be?”

Acting City Auditor: “And it should be um -- Mayor's Office of Human Services.”

Comptroller: “Okay. Thanks.”

President: “Okay. Please note that the audit has been NOTED.”

ACTION REQUESTED OF B/E:

The Board is requested to approve an Expenditure of Funds to pay BASF Corporation.

AMOUNT OF MONEY AND SOURCE:

$109,824.84 – 2070-000000-5501-630066-604027

BACKGROUND/EXPLANATION:

The BASF Corporation provided Centrifuge Polymer to the Wastewater Treatment Plants for the past several years. BASF Corporation had a Master Blanket Purchase Order number P521816 which expired on October 10, 2017. A requisition to create a new master blanket Purchase Order for chemical was submitted in CitiBuy to the Bureau of Procurement on November 8, 2017. A new master blanket purchase order for this commodity, P541941, was issued by the Bureau of Procurement to Polydyne, Inc. effective December 14, 2017.

Due to the length of time it took to put the new contract out to bid and make the award to the new vendor, the old master blanket purchase order expired. However, additional loads of emulsion polymer were needed at both Wastewater Plants thus requiring the plants to place orders with the previous vendor, BASF Corporation.

The Department is requesting approval to pay BASF Corporation for the emulsion polymer provided after the old contract lapsed and before the new contract was awarded.

Office of the City Council – Governmental/Charitable Solicitation Application

**ACTION REQUESTED OF B/E:**

The Board is requested to endorse a Governmental/Charitable Application for submission to the Board of Ethics of Baltimore City to allow Mr. Zeke Cohen to solicit donations from local individuals, businesses and the general population to support a summer youth job opportunity program “This Is Working.” The period of the campaign will be effective upon Board approval through February 28, 2019.

**AMOUNT OF MONEY AND SOURCE:**

No general funds are involved in this transaction.

**BACKGROUND/EXPLANATION:**

Donations will be solicited from Baltimore businesses, civic leaders, the foundation community and the general population. A potential donor list will be comprised of individuals and corporate entities that contribute to the economic, social, and cultural vitality of Baltimore City. Most of the individual and corporate entities fitting that description are not controlled donors.

However, those potential donors who are controlled donors with respect to the City Council or the Board of Estimates will not be targeted or singled out in any way and will be solicited, if at all, in the same manner as the other potential donors. “This is Working” is a workforce development program designed to build “on-ramps” between Baltimore’s developing industries and our youth. We seek to expose young people to 21st century work, and develop deep relationships with employers. We will utilize best practices from across the county to teach critical life skills, such as communication, time management, workplace etiquette etc.

This program is a collaboration between partners in industry, nonprofits, and government. We have been working with the Mayor’s Office of Economic Development and several non-governmental partners.
Baltimore City Code Article 8, Section 6-26, prohibits solicitation or facilitating the solicitation of a gift. An exception was enacted in 2005 to permit certain solicitations that are for the benefit of an official governmental program or activity, or a City endorsed charitable function or activity. Ethics Regulation 96.26B sets out the standards for approval, which includes the requirement that the program, function or activity to be benefited and the proposed solicitation campaign must be endorsed by the Board of Estimates or its designee.
