BACKGROUND/EXPLANATION:

Plaintiff claims that, as he stepped on a concrete curb in front of his house, the curb “split,” causing him to lose his balance and fall, and to sustain a right chronic transverse tarsal fracture dislocation. He further claims that: (1) The condition which caused the curb to split in 2020 was created by the City’s removal of the curb’s metal nosing sometime between 2014 and 2017; (2) This action was taken at Plaintiff’s request via 311 call to the City; and (3) The defect created by the City’s removal of this metal nosing was hidden from his view as he walked on the curb. The cost of his care thus far has been approximately \$70,000, and he anticipates future medical treatment and expenses. Settlement of this claim brings an end to this litigation and appropriately resolves this claim.

BACKGROUND/EXPLANATION:

As a result of the legislation authorizing casinos in Maryland, the City of Baltimore receives Video Lottery Terminals revenue (slots funding) dedicated for areas around the Pimlico Racetrack through 2032. The Video Lottery Terminal revenue is allocated through an annual Spending Plan (budget). This Spending Plan focuses on FY23. As most of the funding is allocated towards the implementation of the Park Heights Master Plan, this Spending Plan also highlights progress and key initiatives within Park Heights that are not funded with slots revenue. Every year, the City receives projections from the State to create a Spending Plan based on estimates of how much revenue will be generated by slots machines at casinos in Anne Arundel County, Baltimore City, and Prince George's County. These estimates dictate the amount of funds included in the Spending Plan. For FY2023, the total amount estimated to be available for the City of Baltimore is \$2,930,000. At least 85% of the funds must be allocated for the Park Heights Master Plan area and the remaining funds may be allocated for neighborhoods around the Park Heights Master Plan area, as specifically defined by law (these areas are commonly referred to as the 1 Mile Radius). This Spending Plan allocates 85% of the funds to the Park Heights Master Plan, where the need is greatest, and 15% to the 1 mile radius. The FY23 Spending Plan including an operating assistance grant for Sankofa Children's Museum of African Cultures. The Sankofa Children's Museum of African Cultures opened its doors in February 2020, and due to the COVID-19 pandemic lost a significant amount of projected revenue. Due to the unforeseen lack of funds, the museum owes back-rent to their landlord. This funding will provide rental assistance for the rent that they currently owe, as well as future rent.

BACKGROUND/EXPLANATION:

The Office of the State's Attorney for Baltimore City's Inter-Agency War Room Coordination program supports staff at the Central Booking and Intake Facility (CBIF) to ensure that appropriate charging decisions and bail recommendations are made for identified violent repeat offenders. This program works to ensure that persons of interest, whether they pose a danger to the community or are needed for an existing case, will not go undetected during the booking and intake process. Grant funding supports personnel.

This submission is late due to a delay of receipt of grant.
